Caution to those using Moveable Comb Frames.

MY PATENT ON MOVEABLE COMB FRAMES, Granted October 5, 1852, and re-issued May 26, 1863, having been

EXTENDED FOR SEVEN YEARS

FROM OCTOBER 5th, 1866,

I hereby notify all parties that their rights to make, use or sell any new hives of the Langstroth patent ceased on October 4th; and that while they have the right to use hives already made, they must procure authority to make new hives from those owning the extended patent. The most liberal terms will be granted to all such parties.

I hereby notify all parties using other patented moveable comb hives, that such hives use the essential and patented features of my invention, and cannot be legally used or sold without a license from the owners of my extended patent.

L. L. LANGSTROTH,
October 5th, 1866. Oxford, Butler Co., Ohio.

NOTICE.

Having purchased the above extension of the Langstroth patent for the State of Maryland, the two southernmost counties of Delaware, and nearly all the southern half of Ohio, persons living in such territory should apply to

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all. because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

J. WILKINSON,
Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

MARYLAND FARMER.

PREMIUMS FOR 1867!

THE THIRD VOLUME of the FARMER is now being brought to a close, and a new one will commence on the FIRST OF JANUARY, 1867. The success which has marked our efforts to re-establish an Agricultural Periodical in this State, and at a time when the public mind generally was absorbed by the more exciting news of the day, renders the patronage which has been so liberally extended to the "MARYLAND FARMER" as gratifying, as our acknowledgement to our many friends and readers, is sincere. And we now with pleasure announce, that our Magazine IS A PERMANENT INSTITUTION, beyond all peradventure. We need not say that whilst we shall continue our endeavors to justify the confidence reposed in us by our kind friends, we also desire to extend the scope of our usefulness to its utmost possible limit. With a view to stimulating this movement we offer the following very liberal List of Premiums, to all who may interest themselves in this cause.

TERMS AND PREMIUMS FOR 1867:

We offer to the person sending us the **Largest Numb er of New Subscribers—OVR 50—** at $1.50 each—one of

WHEELER & WILSON'S SEWING MACHINES,---WORTH $55.

☞The Machine can be examined at any time at Wm. Merrell's, 214 Baltimore street, Baltimore.

Through the kindness of H. T. PETERS, Esq. (son of Hon. T. C. Peters)—of West Friendship, Howard Co , Md., we are enabled to offer a fine

S. SANDS MILLS & CO.

Office "Maryland Farmer," Baltimore.

SUPERIOR PLOW CASTINGS.

We are now prepared to furnish our customers with the best Plow Castings ever made in this country. They are all guaranteed to fit perfectly—made of the best quality of iron, with the points and edges chilled, and ought to be sold for at least 33 per cent. more than the inferior articles manufactured by inexperienced parties who have started Foundries in various parts of the country with no knowledge of the business, and are travelling over the country offering their Castings at seemingly very low prices; but in reality getting for them all that THEY are worth. We have, however, determined to sell our Castings at the same price, that our customers may not be induced to buy an inferior article on account of the price. We consider that we have arrived at perfection in the manufacture of Plow Castings, and we now invite our customers to give them a trial.

CASTINGS for every style of Plow in use kept constantly on hand, and PLOWS of every description, for sale by

E. WHITMAN & SONS, 22 & 24 S. Calvert Street, Baltimore, Md.

HAY PRESSES.

The public are notified that they will be supplied with Hay Presses containing all the latest improvements, by direct application to

E. WHITMAN & SONS, 22 and 24 S. Calvert Street, Baltimore,

The only Hay Press manufacturers in the State.

NORRIS & PUSEY,

DEALERS IN

AGRICULTURAL IMPLEMENTS

AND MACHINERY,

GARDEN & FIELD SEEDS.

GENERAL COMMISSION MERCHANTS,

FOR THE SALE OF

GRAIN, HAY & COUNTRY PRODUCE,

141 PRATT STREET, BALTIMORE, MD.

Would call the attention of their friends and customers to their large and general stock of Goods, comprising nearly every article of utility wanted by the Farmer and Gardener. We will name a few of the most prominent, viz:

WESTINGHOUSE HORSE POWERS, THRESHERS & CLEANERS; The Celebrated TRIPLE GEARED HORSE POWERS, and a variety of PLAIN THRESHING MACHINES.

Clover Hullers and Cleaners—Corn Shellers of the various sizes for Hand and Horse Power—ROCKAWAY & VAN WICKLE WHEAT FANS—

BICKFORD & HUFFMAN'S GRAIN DRILLS,

Woods' Unrivalled Self-Raking Reaping Machines and Wood's World Renowned Mowing Machines,

Harrison's French Burr Plantation Corn and Wheat Mills, of which there are none better—*PLOWS*, Plow Castings, Harrows, and Cultivators, of every description—Horse Wheel Rakes, Revolving Horse Rakes, Guanos and every description of Harvesting Tools. Agricultural Hardware of all kinds, Hollow Ware, Pots, Ovens, Spiders, Agricultural Boilers, &c.—**Washing Machines & Clothes Wringers,** Churns of various kinds—very superior Grindstones—Canal, Garden, Stone and Coal Barrows.

We would call special attention to our stock of Superior

FRESH GARDEN AND FIELD SEEDS,

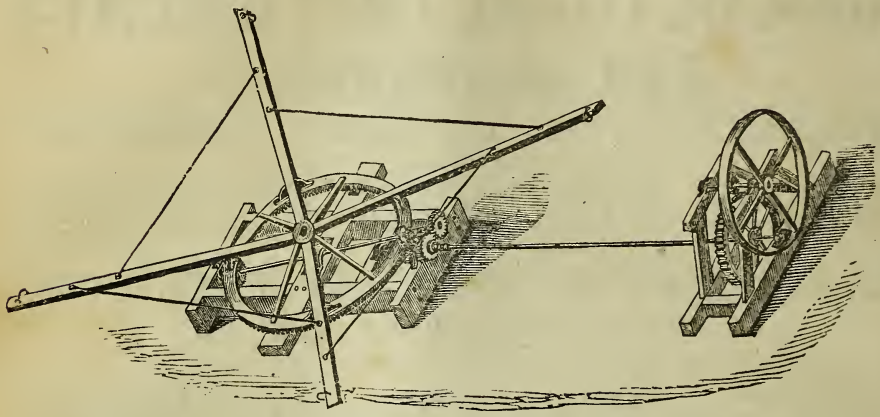

of our own importation and of American growth.

Catalogues furnished upon application. We tender thanks to our old patrons and respectfully solicit a trial of new ones.

NORRIS & PUSEY,

jan.1y **141 PRATT STREET, BALTIMORE, MD.**

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

SHAFTING, PULLEYS and *HANGERS.*

de-1y

NEW BRICK MACHINE.

In successful operation since 1854. Common labor, with one brick maker only, required. Worked by one man, makes 4,000 per day; by horse, 7,000 to 12,000; by steam, 16,000 to 25,000. Cost from $100 to $700.

DRYING TUNNEL,

Patented 26th February, 1861, for "drying bricks, tile, pottery, cores for castings, and other manufactures of clay and sand: grain, fruit, vegetables, pea nuts, broom corn, peat, lumber, glue, starch, whiting, sugar, bagasse, guano, leather, hides, fish, meat, saltpeter, alum, and other chemicals." Bricks molded one day are set in the kiln the next, all the year. For further particulars, in a pamphlet. (seventh edition enlarged,) giving full instructions on brick setting and burning with wood or coal, address, sending twenty cents,

FRANCIS H. SMITH,

de-4t* Box 556, Baltimore, Md.

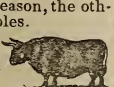

BELMONT STOCK FARM.

It has been my aim for years to secure the best breeds of stock, and have imported two NORMAN STALLIONS for quick heavy draft—also two MARES for breeding pure stock.

BLACK HAWK (Morgan) suited for fast draught, and good riding qualities, and have bred from him seven years, with entire satisfaction. One of the Normans will be let next season, the other and Black Hawk will continue at my stables.

SHORT HORN CATTLE—some bred in Kentucky by Alexander, Clay and others, and all are immediate descendants of Imported Bulls, and are now being crossed with a young Kentucky bull of the best blood in America.

ALBEMARLE IMPROVED HOGS—a cross of Chester County and Kentucky Woburn, and just now sows and pigs, and generally, boar and sow shoats and pigs. The Cattle and Hogs will be priced to suit the times, delivered on the trains, near *CHARLOTTESVILLE, VA.*

no tf S. W. FICKLIN.

PREMIUM CHESTER COUNTY PIGS

Constantly on hand a well selected stock of the purest bred Chester County Whites. Having paid particular attention to the breeding of these Pigs, will guarantee all stock to be of the purest finest quality. These Pigs make more weight for the feed consumed than any other breed, frequently weighing from 5 to 7 hundred lbs. from 16 to 18 months old. For sale by

Geo. B. Hickman,

West Chester, Chester Co., Pa.

N. B.—Pigs shipped by Express to all parts of the United States at reasonable rates. de-6t

BONE DUST.

THE PURE ARTICLE ONLY.

NO ADULTERATION.

Farmers and Gardeners cannot be too careful in purchasing their Manures, as they are obliged to depend entirely on the character of the manufacturer for the quality of the article sold. None but Chemists can detect a mixture in Bone Dust.

The Subscriber has always on hand at

MARKET PRICE,

A Large Supply of the same kind of Bone Dust that he has been manufacturing for the last

TWENTY YEARS.

☞ A Discount of 10 per cent. will be allowed on the present prices, until the Spring Trade begins.

JOSHUA HORNER,

Corner Chew & Sterling Sts.

dec-6t BALTIMORE, Md.

SHEEP.

I am prepared to furnish choice Full Blood or Grade *Merinoes, Southdown* and *Cotswold* Ewes and Rams on the shortest notice, in numbers to suit purchasers, from 1 to 10,000, delivered at any point in the South.

Address, care BANKS, SLINGLUFF & Co., 145 W. Pratt street, Baltimore.

Balt., Dec. 1st, 1866. HUGH T. PETERS.

I have relinquished to my son, Mr. HUGH T. PETERS, all interest in the Sheep business, and as he was interested with me heretofore, I cheerfully commend him to my numerous friends and patrons.

T. C. PETERS.

PENNSYLVANIA AGRICULTURAL WORKS.

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

THE AGRICULTURAL IMPLEMENT D PARTMENT

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my

Polished Steel Plows, Cultivators, Pelton Triple geared Horse Powers, Reapers and Mowers, Threshers & Cleaners, Spring Tooth Horse Rakes, &c., &c.

PLOWS.

I am manufacturing a very superior article of Steel Plow (both right and left hand,) called the "*AMERICAN CLIPPER,*" to which I would call the attention of farmers, as the Steel Plow is destined eventually to supersede the Cast Plow, as certainly as did the Steel Hoe the Cast Hoe. Among the many advantages of this Plow are the following: Being of Polished Steel it cleans itself perfectly in all kinds of soil, and lays the furrow beautifully.—Is provided with Patent Wrought or Malleable Iron Clevis, is more easily adjusted, runs more evenly, and does the same amount of work with far less worry to man and beast. This Plow has taken the First Premium at the last four successive Fairs of the State of New York, the last National Exhibition at Richmond, Va., and at our last County Fairs.—Farmers will find it to their advantage to order one as a sample, and thus can then judge for themselves as to its merits. I dwell particularly upon the plow as it is the King of Implements, and farmers cannot be too particular to select the best.

CULTIVATORS,

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passing over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c.

Threshing and Separating MACHINES

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years, some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

The Union Steam Fan Blower.

One of the greatest inventions of the age. It creates a great draft, besides saving 25 per cent. of fuel. Works independent of the engine, requires but a few feet of small steam pipe to make the attachment, and is too simple to get out of order.—For further particulars please send for Circular.

fely Address **A. B. FARQUAR,** Penna. Agr'l Works, York, Pa.

"YOUNG AMERICA"

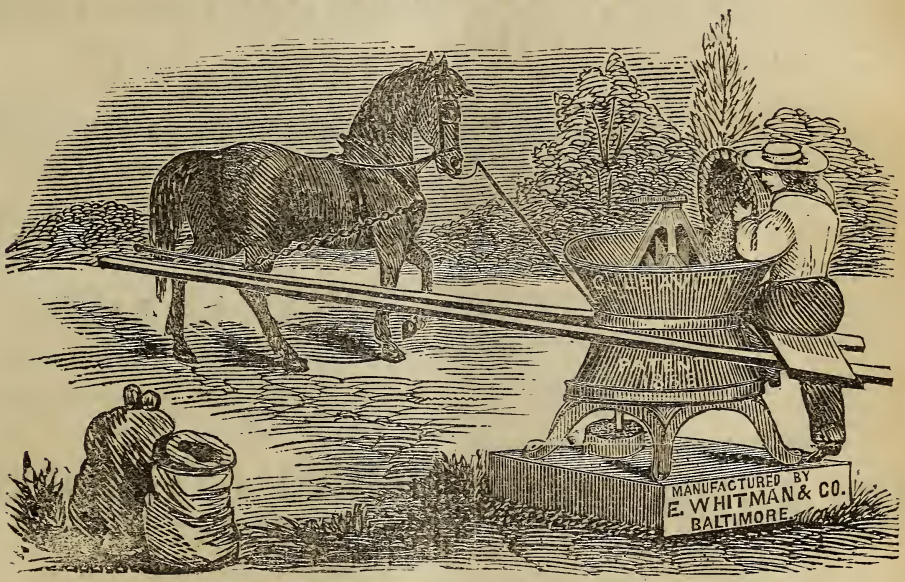

CORN AND COB MILL.

MANUFACTURED BY

E. WHITMAN & SONS,

Nos. 22 & 24 S. Calvert Street,

BALTIMORE, MD.

This Mill is so far superior to all others that we do not consider that it has any competitor in the field.

The advantages of the Young America Mill over all others are so great that the other Mills have gone entirely out of use, except when purchased by those unacquainted with the merits of Corn and Cob Mills.

The facility with which the plates are changed, and the trifling cost of same, after they may have been worn by constant use, enables the farmer to always keep this Mill in perfect order.

☞PRICE, INCLUDING PLATES, $65.

TRIAL OF CORN & COB MILLS AT THE NORTH CAROLINA STATE FAIR.

WHEELER & WILSON
HIGHEST PREMIUM
LOCK STITCH
SEWING MACHINE!

Awarded the Highest Premium

AT THE

WORLD'S FAIR,

JUST HELD IN LONDON, ENGLAND,

INDUSTRIAL EXPOSITION,

Where all the machines of Europe and America were in competition—also at the

PARIS, FRANCE, AND AT EVERY

UNITED STATES FAIR,

At which SEWING MACHINES were exhibited..

The LOCK STITCH made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

de.1y AND AGENTS IN GENERAL.

S. T. 1866-X.
PLANTATION BITTERS

AGUA DE MAGNOLIA.

A toilet delight. Superior to any Cologne, used to bathe the face and person, to render the skin soft and fresh, to allay inflammation, to perfume clothing, for headache, &c. It is manufactured from the rich Southern Magnolia, and is obtaining a patronage quite unprecedented. It is a favorite with actresses and opera singers. It is sold by all dealers, at $1.00 in large bottles, and by DEMAS BARNES & Co., New York, Wholesale Agents.

Saratoga Spring Water, sold by all Druggists.

"Jes' so!"—"Exactly!" Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

Few persons want any better authority; but as some may, just read the following:

" * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGONER, Madrid, N. Y."

" * * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me.
REV. C. A. MILLWOOD, New York City."

" * * * I had lost all appetite—was so weak and enervated I could hardly walk, and had a perfect dread of society. * * * The Plantation Bitters have s etme all right.
JAMES HEIMINWAY, St. Louis, Mo."

" * * * The Plantation Bitters have cured me of a derangement of the Kidneys and Urinary Organs, that distressed me for years. They act like a charm.
C. C. MOORE, 254 Broadway, N. Y."

Mrs. O. M. DEVOE, manager of the Union Home School for Soldiers' Children, says she "has given it to the weak and invalid children under her charge, with the most happy and gratifying results." We have received over a hundred reams of such certificates, but no advertisement is so effective as what people themselves say of a good article. Our fortune and our reputation is at stake. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

P. H. DRAKE & CO., New York City.

Saratoga Spring Water, sold by all Druggists.

It is most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Saratoga Spring Water, sold by all Druggists.
may-ly

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of, without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

Montgomery, Ala., June 17, 1859. J. L. DOWNING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signiture of G. W. Westbrook, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Saratoga Spring Water, sold by all Druggists.

Who would not be beautiful? Who would not add to their beauty? What gives that marble purity and *distingue* appearance we observe upon the stage, and in the city belle? It is no longer a secret. They use Hagan's Magnolia Balm. Its continued use removes tan, freckles, pimples and roughness, from the face and hands, and leaves the complexion smooth, transparent, blooming and ravishing. Unlike many cosmetics, it contains no material injurious to the skin. Any Druggist will order it for you, if not on hand, at 50 cts. per bottle.

W. E. HAGAN, Troy, N. Y., Chemist.

DEMAS BARNES & CO., Wholesale Agents, N. Y.

Saratoga Spring Water, sold by all Druggists.

"Heimstreet's inimitable Hair Coloring is not a dye. All instantaneous dyes are composed of *lunar caustic,* and more or less destroy the vitality and beauty of the hair. This is the original Hair Coloring, and has been growing in favor over twenty years. It restores gray hair to its natural color by gradual absorption, in a most remarkable manner. It is also a beautiful hair dressing. Sold in two sizes—50 cts. and $1—by all dealers. C. HEIMSTREET, Chemist.

Saratoga Spring Water, sold by all Druggists.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity makes it a cheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "LYON'S" Pure Extract. Take no other.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street, Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS*, ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞Boxes containing a full assortment for the Country trade, supplied to order.

Imported Dutch Bulbous Roots

We have just received our usual large and varied assortment of Imported Dutch Bulbous Roots, embracing every desirable novelty and standard sort imported from the most reliable grower in Holland. We have now in store,

HYACINTHS—of every description.

TULIPS, **JONQUILLES,**

CROCUS, **SNOW DROPS,**

&C., &C.

together with Roots and Flower Seeds of every variety, and a large assortment of Bulb Glasses, Pots, &c.

Parties unacquainted with the different varieties, by stating with their orders whether wanted for Pot, Glass or Garden culture, can leave their selection to us, and may be assured that such selection will be made in a most judicious manner.

E. WHITMAN & SONS,

22 and 24 South Calvert Street, Baltimore, Md.

☞Our GARDEN AND FLOWER SEED CATALOGUE will be ready for distribution on November 1st.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S
AMERICAN
Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.—The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: "*Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors.*" This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE & LUNG SYRUP.

TO FARMERS AND PLANTERS.

"EXCELSIOR."

Containing { *AMMONIA*, 6 per cent. / *PHOSPHATE OF LIME*, 57 per cent.

Composed of *Seven Hundred Pounds of No.* 1 *Peruvian Guano* and *Thirteen Hundred Pounds of Bones*, dissolved in *Sulphuric Acid*, forming the most universal *Crop Grower* and concentrated durable Fertilizer ever offered to Agriculturists, combining all the stimulating properties of the Peruvian Guano, and the ever durable fertilizing qualities of Bones. Adapted for all soils and crops, and in *fine dry powder* for sowing or drilling with the seed.

The most prominent farmers of Maryland and Virginia after 6 years experience with EXCELSIOR, pronounce an application of 100 lbs. to the acre equal to from 200 to 300 lbs of any other fertilizer for sale in this market.

Uniformity of quality guarantied by the manufacturer.

Price—$70 PER TON. J. J. TURNER & CO., 42 Pratt street.

E. FRANK COE'S SUPER PHOSPHATE,

Manufactured expressly for our sales, containing nearly *three per cent. of Ammonia*, in fine dry powder, for drilling. The past two years' experience of its application on Wheat and Corn, has proved its superiority to all Super Phosphates in the growth of the crop and the improvement of the soil.

Price—$60 Per Ton. J. J. TURNER & CO., 42 Pratt Street.

SUPER PHOSPHATE, (DISSOLVED BONES,)

Of our own manufacture, containing 15 per cent. of Soluble Phosphoric Acid. Warranted equal to any ever sold in this market. For sale in bulk or barrels.

J. J. TURNER & CO., 42 Pratt Street.

1500 TONS MEXICAN GUANO.

"A A" MEXICAN GUANO. "A" MEXICAN GUANO.
"B" do do "C" do do

In bulk or barrels. For sale by J. J. TURNER & CO., 42 Pratt Street.

AMMONIATED SUPER PHOSPHATE,

Composed of Bones, dissolved in Sulphuric Acid and No. 1 Peruvian Guano. Containing nearly 3 per cent, of Ammonia. Unequalled for the growth of Wheat, Corn, Cotton, &c., and permanently improving the soil, in fine dry powder for drilling.

Price—$60 Per Ton. J. J. TURNER & CO., 42 Pratt Street.

TO COTTON AND TOBACCO PLANTERS.

J. J. Turner & Co's "EXCELSIOR" is superior to Peruvian Guano pound for pound in the growth of Cotton and Tobacco. One trial is sufficient to convince the most skeptical. The Cotton Planters of Georgia and the Tobacco Planters of Maryland use "*Excelsior*" exclusively, Price—$70 per Ton.

CORRESPONDENCE from VIRGINIA, NORTH CAROLINA, MARYLAND AND GEORGIA.

We invite attention to the following correspondence. It is the disinterested testimony of farmers and planters well known in their respective localities, some of whom are widely known. What they say, therefore, of the action of *Pacific Guano* is entitled to all the weight of evidence, as to facts, as the result of personal experience. Certainly no fact can be more thoroughly attested by human evidence, than that this Guano is the most *effective* and *economical* fertilizer now within the reach of consumers, and that it is hence, compared with Peruvian Guano, an object of the greatest interest and importance to Southern farmers and planters.

ANALYSIS BY Prof. SHEPARD, OF CHARLESTON COLLEGE, S. C.

This analysis shows that the quality of the guano now in market, is fully equal to previous shipments.

Analytical Laboratory,
Medical College.

Charleston, S. C., *January* 18, 1867.

Mr J. N. Robson:

Dear Sir:—I find the following composition in the sample selected by me yesterday from a lot of 100 tons of the SOLUBLE PACIFIC GUANO at present in your warehouse:

Hygrometric water separated at 212 degrees	25.20
Combined water and organic matter, the latter rich in Nitrogen, and therefore ammonia producing, probably to the extent of nearly 3 per cent.	26.80
Soluble Phosphate of Lime, after ignition*	14.00
Insoluble Phosphate, after ignition	25.00
Sulphuric Acid with Sulphates of Lime, Magnesia, Potash and Soda, with traces of Chlorides of the same bases about	5.60
Sand	3.40
	100.00

*This constituent as stated by other analysis *with its combined water*, would be 16.44 per cent.

A more admirable fertilizer can scarcely be imagined. It contains nearly every thing which Corn or Cotton require through the entire stage of their growth. The Soluble Phosphate is well proportioned to the insoluble; while the latter contains so much animal matter as to insure its perfect disintegration, and it thereby becomes fitted for an early absorption by the plant.

Very respectfully yours,
CHARLES UPHAM SHEPARD.

CORRESPONDENCE.

Richmond, Va., January 25, 1867.

John S. Reese & Co.

Gentlemen:—Having represented you in the sale of "Pacific Guano" for the past three seasons, we beg leave to say, we are weekly in receipt of letters from parties who have used it, of the most flattering character of its effects. One planter to whom we sold ten tons last Spring now orders *twenty-five*, (Hon. D. W. Courts, of Rockingham Co., N. C.) and not one single instance have we a complaint. We have no hesitation in recommending this Guano to any one buying fertilizers. Our sales this season will be very large.

Yours truly,
A. Y. STOKES & CO.

Near Reidsville, N. C., Sept. 17, 1866.

Messrs. A. Y. Stokes & Co., Agents Pacific Guano, Richmond, Va.

Gents:—In answer to your request, that I shall give you my opinion of the value of Pacific Guano as a fertilizer, I make the following statement:

Of the ten tons purchased of you this Spring, I used about eight, principally on my tobacco crop. In order to test the comparative value of this and Peruvian Guano, I supplied myself with a small quantity of the latter. I tried them side by side in equal quantities, both broadcast and in the hill, applying about three hundred pounds to the acre, when broadcasting, and from half to a table-spoonful to the hill when applied in that way. I have come to the conclusion that the Pacific is nearly if not quite equal to the Peruvian in forcing the growth of the crop, while *I am very confident it ripens the tobacco several days earlier than the Peruvian*, a matter of very *great moment* in our *climate*. I applied from half to a table-spoonful of Pacific to the hill on a small portion of my corn crop with fine effect. I have heretofore used *most of the fertilizers that have been* thrown on the market, and now *believe that the same amount of money invested in this fertilizer* will produce *better results* to the tobacco planter than if invested in any fertilizer with which I am acquainted. This reply has been delayed a few days that I might be better satisfied of the effect of this manure in hastening the maturity of my tobacco crop.

With great respect, yours,
D. W. COURTS.

Farmville, *October* 2, 1866.

Messrs. Allison & Addison, Richmond, Va.

Gentlemen:—In regard to Pacific Guano I think it very good, and certainly last Spring upon my tobacco was fully equal and I thought superior to the Peruvian Guano which I also used. The difference seemed to be this—the Peruvian was quicker but the Pacific lasted longer. My neighbor Major Wall, who planted and manured alternate 10 rows with Peruvian Guano, Rhodes Super-Phosphate and Soluble Pacific, pronounces Soluble Pacific superior to all. My opinion of Pacific Guano is so good that I shall buy it entirely this fall or next Spring, in preference to the Peruvian. Yours, JAMES DINWIDDIE.

Hewletts, Hanover Co., Va., Sept. 14, 1866.

Messrs. Allison & Addison:

Gentlemen:—Please find enclosed payment for the purchase of eight (8) tons of your Pacific Guano, which I think shows very conclusively that I have some faith in your manure. My experience in its use on tobacco this season is satisfactory. Tobacco where the Pacific is used does not suffer for rain as that upon which Peruvian was used. It retains its green and luxuriant growth until time for ripening, and is now ripening up *beautifully*. I have it sown side by side with Peruvian the costs the same, and it is the opinion of all who have seen it that the Pacific is the best.

I am, most respectfully yours, C. JAS. TERRELL.

Brunswick Co., Va., Dec. 22, 1866.

Messrs. Rogers, Jarratt & Rives:

Gentlemen:—I was induced by your recommendation, to use the "Soluble Pacific Guano" on cotton and tobacco this year. I am entirely satisfied with the result on both crops; it acts finely. My experiments entirely satisfy me of its value. I consider my crops of cotton doubled by its use, and I prefer it to Peruvian Guano. CHAS. GIBBON.

Sussex Co., Va., Jan'y 11, 1867.

Messrs. Rogers, Jarratt & Rives:

I used the Soluble Pacific Guano last season on cotton, and am so well pleased with the result, that I intend using it the next year more extensively.

From observation, I am satisfied that crops upon which this Guano is used, are not so liable to be injured by drouth.

JOHN E. RIVES.

Huntsville, near Rawley, N. C. November 16, 1866.

Messrs. John S Reese & Co.

Gentlemen:—I applied 200 lbs. Soluble Pacific Guano per acre to cotton land this year, that I am satisfied would not have produced 250 lbs. seed cotton without Guano. With the application of the Guano it produced 800 lbs. per acre, which is an increase of over 300 per cent. I therefore recommend it as the best fertilizer I have ever used.

PETERSON DUNN.

Gatesville, N. C., Sept. 18, 1866.

Messrs. John S. Reese & Co.

I used your Soluble Pacific Guano last fall, on my wheat,

with highly satisfactory results. I used it along-side of Peruvian Guano; I used the same measure of bulk of one that I did of the other, and I am fully satisfied the yield of wheat is as good, if not better, where the Pacific was applied. I also made the same experiment with oats last spring, and turned out equally as good as with the wheat, and would recommend it to all who are in want of a reliable manure. Yours, THOMAS W. EGGLESTON.

SPRINGFIELD, York District, S. C., December 15, 1866.

W. H. MCRARY & Co., Wilmington, N. C.

Gentlemen:—Yours of the 4th instant, asking the result of my application of the Pacific Guano, is received. I applied the ton to eight acres of exhausted land, in cotton, of a light porous soil, at the rate of 250 lbs. (1 barrel) to the acre. Notwithstanding it endured the most unprecedented drought since that of 1845, I estimate the increased yield at 400 lbs. per acre. Respectfully, yours, A. B. SPRINGS.

NEWBERG, Oct. 11, 1866.

MR. J. ROBSON.

Dear Sir:—I should have written you sooner, but have been waiting, expecting to see some of the parties who used the Soluble Pacific Guano. I have only seen T. B. Chalmers. He states that it paid him; but owing to the very dry summer did not do as well as it would under a more propitious season. All that I used paid me at least fourfold.

Truly yours, JOHN R. LEAVELL.

HALCYONDALE, Triven Co., Ga., Dec. 10, 1866.

MESSRS. E. C. WADE & Co.

Gentlemen:—I take pleasure in giving you the result of my experiment in your Pacific Soluble Guano, last year.—At the first plowing I applied one hundred pounds of this manure to an acre, covering it immediately. Notwithstanding the six weeks drought, the yield was double, and with favorable seasons I believe it would have trebled the same ground without this Guano. Very respectfully,

D. B. NEWTON.

LITTLETON, Sussex Co., Va., Nov. 24, 1866.

MESSRS. JOHN S. REESE & Co.

Gent:—The ten tons Soluble Pacific Guano I procured from you in March last, was applied chiefly to cotton, with results entirely satisfactory. The crop started well, was vigorous in its early growth, and continued so until maturity. The growth was larger and the plant did not suffer from the drought as did the crops of my neighbors who used Peruvian Guano. It was better and heavier bolled, and opened quite as early as any crop I saw where Peruvian Guano was used. I am satisfied my crop was increased 200 per cent. by the use of the Guano. I used it on corn, pea nuts and Navy beans with equally satisfactory results. A. L. LAND.

FORRESTVILLE, Wake Co., N. C. Nov. 2, 1865.

MESSRS. J. R. & P. A. DUNN.

Gentlemen:—We used the "Pacific Guano" purchased of you last spring on cotton, putting from one hundred to one hundred and fifty pounds to the acre. During the dry season, where it was used side by side with stable manure, the guanoed cotton remained green and luxuriant, while the other fired and shed its leaves and forms. We also used it side by side with the Peruvian Guano, and prefer it to that celebrated Fertilizer. We can safely say that it is the *best* and *cheapest* manure we have ever used, and cheerfully recommend it to the public. Very respectfully,

W. D. JONES,
E. E. GILL,
P. H. MANGUM,
JAS. C. LEIGH,
W. B. DUNN, JR.

JOHN S. REESE & CO.

71 South st., Baltimore, Gen. Agts.

THE SOUTHERN CULTIVATOR;

A Practical and Scientific Journal, for the Plantation, the Garden, and the Family Circle.

The 25th volume of this old Southern favorite, commences with the January No. 1867. It is the best agricultural journal published in this country. We cheerfully recommend it to our farmers as worthy of their patronage—and as a good advertising medium for business people. Published by Wm. N. White, *Athens, Georgia*, at $2 per annum.

The Maryland Farmer and *Southern Cultivator*, both one year for $3.

SEEDS.

In soliciting orders from the readers of the MARYLAND FARMER and others, we would state, that having had several years' experience in the cultivation and selection of Seeds, we fully appreciate the importance of having them reliable to secure a profitable and satisfactory return to the cultivators of the soil, *hence* we have selected our stock with the greatest care, to enable us to furnish our customers with such only as are pure, reliable, and of the choicest kinds. The annexed list presents only a few of the known varieties, viz:

Asparagus,
Dwarf or Snap Beans,
Pole Beans,
Beets, Brocoli,
Brussels Sprouts,
Carrots, Cauliflower,
Celery, Cabbage,
Chervil, Corn,
Cress, Cucumbers,
Egg Plant, Endive,
Kale, Kohlrabi,
Leek, Lettuce,
Musk Melon,
Ice Water Melon,
Mustard,
Nasturtium,
Onions,
Okra,
Parsley, Parsnips,
Peas, Pepper,
Pumpkin, Radish,
Rhubarb, Rape,
Salsify, Spinach, Squash,
Tobacco Seed,
Tomato, Turnips,
Ruta Baga Turnip, Field and Grass Seeds.

We are prepared to furnish almost any other kinds required, and if left to us, we will select for those who do not know the peculiarities of the different varieties. Any of the above Seeds will be mailed to any part of the United States, postage paid, on receipt of 10 cents per Package, or $1 for 12 Packages. Also Flower Seeds at same rates.

We are also prepared to furnish Sorgo Seed, such as Regular Sorgo, Early Sorgo, Liberian, Otaheitan, (best for Sugar,) and White Imphee. Price according to quality, from 60 cents per pound to $6 per bushel. feb1y

PURE CANE SEED.

Liberian.

The Cane from which our Seed was produced, was grown and the Seed harvested and cured under our immediate observation. The Seed is all true to the varieties designated, and absolutely free from admixture with base and worthless Canes.

The Cane from which the Seed was produced yielded from two to three hundred gallons of Syrup per acre.

PRICES.

Regular Sorgo,—By Mail, 40 cts., per lb.; by Express, 25 lbs. or less, 25 cents per lb.; over 25 lbs., 15 cents per lb.

Liberian, Oomseeana and Neeazana,—By Mail, 50 cts. per lb.; by Express, 25 lbs. or less, 30 cts. per lb.; over 25 lbs., 20 cts. per lb.

Packages included.

ANDREW COE'S SUPER-PHOSPHATE OF LIME

The undersigned for the last twenty years has been engaged in the manufacture of a Fertilizer which has rendered universal satisfaction, as far as he can ascertain, to all who have used it, and who have uniformly testified to that effect. But notwithstanding the complete success attending its application for the growth of crops, many farmers may argue, that because it may be good this season, it does not follow that it will be equally efficacious the next, which depends entirely upon the article being kept up to the formula stated. They say many manufacturers of Commercial Fertilizers, that were considered good but a short time since, have now become worthless, or almost so. In view of satisfying the public as to the unquestionable merit of my Fertilizer, I consider it due them that they should know the constituent elements of the article which I now offer for their adoption. It is the aim of the farmer to procure the best Fertilizer that can be obtained, for if they purchase a poor article, they not only lose the money paid for it, but the labor, seed, and use of land, as also the profits they would have realized had the article proved good. If a farmer knows the ingredients of which a Fertilizer is composed, he can very readily calculate its value. I therefore frankly submit to the public the materials of which my Super-Phosphate of Lime is composed, which will at once convince them of its superiority over all other formulas. It is as follows:

Raw, unfermented Bone, with Sulphuric Acid to reduce a sufficient portion of th e Bone to a soluble form.

Blood and Meat dried without any decomposition taking place—consequently the Bone, Meat and Blood hold all the fertilizing qualities they ever contained. Farmers well know that these three ingredients, preserved without any decomposition, are the most valuable Fertilizers known, as the following analysis made by Professor E. S. Wayne, will show:

Super-Phosphate of Lime, - -	19.16
Bone Phosphate of Lime, - - -	18.33
Sulphate of Lime, - - - -	5.51
Organic Matter, (yielding 6.95–100 Ammonia,) - - - -	42.12
Chlorides of Potash and Soda, - -	.41
Moisture, - - - - - -	14.30
Loss and Dirt, - - - - -	.17
	100.00

With the aid of improved machinery, constructed with the special view of manipulating these materials, I believe I can offer the best crop producer now known in this or any other country; and as an evidence of my sincerity in what I say, a *guarantee* will be given that the Super-Phosphate of Lime manufactured by me contains not one particle of matter other than the materials enumerated above.

ANDREW COE,

JANUARY, 1867. *Cincinnati, Ohio.*

CERTIFICATES.

FROM DR. A. SNOWDEN PIGGOT,

ANALYTICAL LABORATORY, 59 S. GAY ST., BALTIMORE, January 12th, 1867.

MESSRS. HERBERT & HAIRSTON, Baltimore, Md.:

Gentlemen:—Mr. Coe has shown me a sample of his Super-Phosphate of Lime, and has described to me its composition and the method of its preparation. The materials of which it is composed are all valuable, and no manure made from them, and compounded as stated to me, can fail to be a Fertilizer of a very high order of excellence.

Very respectfully,

Your Ob't Serv't,

A. SNOWDEN PIGGOT.

LETTER FROM PROF. E. S. WAYNE,

In answer to Inquiries from the Cincinnati Horticultural Society as to the best Super-Phosphate in Market.

CINCINNATI, December 20, 1866.

C. A. GREEN, ESQ.,

Cincinnati Horticultural Society, Cincinnati:

Dear Sir:—Your note of the 20th is to hand. In reply would say that I have analyzed specimens of the Fertilizers for sale in this market during the past season, and from the results of the same can but say that Andrew Coe's Super-Phosphate contains a larger per cent. of ammonia producing substances and Phosphate than that of any I have examined:

consequently, can but say that it is the best I have met with. I am, also, of the opinion that it is one whose fertilizing value will not be too rapidly exhausted in the soil, but which by its gradual decomposition, will exert a more permanent enrichment of it. Yours respectfully,

E. S. WAYNE,
Late Professor of Chemistry Ohio Medical College.

THOMAS CLAGGETT, ESQ., of Frederick, Md., in a communication of January 10th, 1867, says:—I have used Andrew Coe's Super-Phosphate of Lime on various crops, and witnessed its effects upon the crops of others, and it is the best Fertilizer I ever used, and on my tobacco and corn crops it was better than Peruvian Guano, and I can with confidence recommend it to the farming community.

FROM HENRY CROFT.

Professor of Chemistry in University College, Toronto, and Chemist to the Board of Agriculture of Upper Canada. In reporting an analysis which he made of Andrew Coe's Super-Phosphate of Lime, remarks:

"Containing in the soluble and insoluble portion, phosphate of Lime—and the soluble portion so large a proportion of the salts of Ammonia in such a form as to be readily assimilated by the plants—must be a very valuable substitute for Guano or other manure."

JOSEPH WOOD, ESQ., of Frederick county, Md., writes:—"Coe's Phosphate will *insure* a large crop of any kind adapted to our soil and climate than the best Peruvian Guano, and it does not cease its effects with the first crop, but shows with vigor on the third and fourth, which is the extent of my observation. I have never weighed or measured the crops raised on this Phosphate in comparison with those grown on other manures, because I have been so thoroughly convinced, and indeed surprised, at the mere sight of its superiority. Wherever the Phosphate is used the plant shoots right ahead to nearly double the size of those which have not received the Phosphate, and so continue to the end of the growth, ripening much earlier and yielding in grain, without exception, more abundantly and of better quality. I believe a fair trial of Coe's Phosphate will convince any one of its great value."

FROM DR. THOMAS ANDERSON,

Professor of Chemistry in the University of Glasgow, and Chemist to the Highland and Agricultural Society of Scotland, says:

"I have anaylized Andrew Coe's Super-Phosphate of Lime, which is clearly a well and carefully manufactured Manure, made from excellent materials and *thoroughly Genuine.*"

CHARLES HENDRY, ESQ., Ijamsville, Md., one of the most experienced and successful farmers in Frederick county, Md., in a letter of January 7th, 1867, writes:—"I have found Andrew Coe's Super-Phosphate of Lime to act finely on my crops, surpassing that of any Fertilizer I ever used."

MR. H. H. REINHART, of Ijamsville, Md., in a letter of January 9th, 1867, remarks:—"I have used Andrew Coe's Super-Phosphate of Lime, and its effects were most remarkable, and I would use no other Fertilizer, and would recommend all farmers to try it."

IJAMSVILLE, B. & O. R. R. MD.,
January 3d, 1867.

ANDREW COE, ESQ., Cincinnati:—*Dear Sir:*—In reply to your inquiries as to the sale of Fertilizers, will say: We sold your Phosphate to some thirty farmers for their summer crops, and, upon careful inquiry have the first man to find who was not entirely satisfied with its effects upon the same. Indeed, so well pleased were they with its effect on Corn, that nearly all who used it in the Spring purchased the same for their Fall crops. Our sales last Fall were nearly three times that of the Spring, and from the many favorable reports we have received from our customers, we anticipate a large demand for it the coming season. With that impression, we here ask you to send us, at your earliest convenience, 20 tons to commence with.

Wishing your honest efforts success, we are

Very respectfully, yours, &c.,
SELLMAN & CO.

URBANA, FREDERICK CO., MD.,
January 10th, 1867.

ANDREW COE, ESQ.,—*Sir:*—I used your Super-Phosphate on my Corn last Spring, putting only about 45 lbs. to the acre. The result was a very fine crop. I used throughout the field, giving them a fair trial with yours, several Fertilizers, and give the preference to yours. To prove it, I used it in seeding my whole crop last fall.

Yours, truly,
CHAS. E. WORTHINGTON.

IJAMSVILLE, B. & O. R. R., MD.,
January 9th, 1867.

ANDREW COE, ESQ.,—*Sir:*—I used your Super-Phosphate of Lime on my Corn and Tobacco Crop last Spring, and the result was perfectly satisfactory. I would recommend it to farmers for either crop. I also used it on my Wheat last Fall. It has been used extensively throughout the neighborhood, and seems to give general satisfaction.

Yours, truly,
JOHN T. WILLIAMS.

URBANA, FREDERICK CO., MD.,
January 5th, 1867.

ANDREW COE, ESQ.,—*Sir:*—I purchased one barrel of your Super-Phosphate of Lime from your Agent (merely as an experiment,) containing 210 lbs. I applied the same to my Corn crop last Spring, putting it in the hill. I put the 210 lbs. on about three acres—the result was a good crop. I have used several kinds of Fertilizers for Corn, and think your Super-Phosphate equal to, if not superior, to any I have tried. I was so well pleased with it that I used it in seeding my Wheat crop last Fall. Yours, respectfully,
THOMAS A. BAKER.

We could add hundreds of similar testimony, but we have thought it would be more satisfactory to the farmer to give the composition of which it is made, and the opinion of scientific men as to its value, and the judgment of the farmers.

DIRECTIONS FOR USE.—Use the same quantity, and in the same way, as you use Peruvian Guano.

ANDREW COE, Cincinnati, Ohio.

For Sale by Agents in Baltimore and elsewhere.

JOHN MERRYMAN & CO.
FARMERS' AND PLANTERS'

6 Improved Black Cap.

BLACKBERRIES.

6 Rochelle.

GOOSEBERRIES.

6 American Seedling.

CURRANTS.

6 Versaillaise.
6 White Grape.

THE ABOVE VINES AND PLANTS WILL BE

1. All No. 1.
2. Carefully Marked.
3. Safely Packed.
4. Post Paid.
5. Their Safe Carriage Guaranteed.
6. Accompanying each package there will be printed instructions for their management and cultivation.

The purchaser is at liberty to omit any of the varieties named in these lists, and increase others to the same amount.

We are induced to make the above offers,

1. Because there are many points throughout the country which cannot be easily reached except by mail.
2. Where there are express facilities, the charges are often unreasonable.

By the above arrrangsment, wherever there is a Postoffice, parties ordering may be sure of getting a first-class article delivered to them as safely as their letters, and **free of charge.**

Our present stock of vines and plants is much the largest and best we have ever offered. It is important to know as soon as possible, what portion of it to reserve for mail orders. We therefore solicit early orders, and make the following additional **most liberal propesals:**

For every $10 order as above, accompanied by the cash, received previous to March 1st, we will add vines and plants to the amount of $1.

And for every $20 order, as above, accompanied by the cash, received previous to March 1st, we will add vines and plants to the amount of $2 50.

Thus every family throughout the length and breadth of the country, has the opportunity of securing, by a small outlay a complete and valuable selection of **Small Fruits.**

All orders will be filled in rotation as received, or at times designated, as far as practicable.

Our Descriptive and Illustrated Catalogue is a valuable treatise on small **Fruit culture,** and will be sent to all applicants enclosing 10 cents.

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's

REAPER AND MOWER.

This Cut Gear is regarded by all unprejuced minds as the greatest improvement ever made fo Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

Also, manufacturers of the celebrated

BUCKEYE WHEEL HORSE RAKE

(The only reliable Self-Delivsring Rake known.)

Threshers and Cleaners,

Wheat Drills, Horse Powers,

Fans, Straw Cutters, Corn Shellers,

Tingley's Improved Butter Churn, and Agricultural Implements in general.

Also, Sole Agents for Maryland and the South, for the sale of the

VICTOR CANE MILL,

AND

COOK EVAPORATOR.

Having all the patterns for the BUCKEYE REAPER and MOWER, we are prepared to fill orders for extras, or repair Machines at short notice, and on reasonable terms.

JOHN M. GRIFFITH & CO.,

SUPERIOR PLOW CASTINGS.

We are now prepared to furnish our customers with the best Plow Castings ever made in this country. They are all guaranteed to fit perfectly—made of the best quality of iron, with the points and edges chilled, and ought to be sold for at least 33 per cent. more than the inferior articles manufactured by inexperienced parties who have started Foundries in various parts of the country with no knowledge of the business, and are travelling over the country offering their Castings at seemingly very low prices; but in reality getting for them all that THEY are worth. We have, however, determined to sell our Castings at the same price, that our customers may not be induced to buy an inferior article on account of the price. We consider that we have arrived at perfection in the manufacture of Plow Castings, and we now invite our customers to give them a trial.

CASTINGS for every style of Plow in use kept constantly on hand, and PLOWS of every description, for sale by

E. WHITMAN & SONS, 22 & 24 S. Calvert Street, Baltimore, Md.

24 S. Calvert street, Baltimore, Md.

J. WILKINSON,

Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

141 PRATT STREET, BALTIMORE, MD.

jan.1y

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our **Dr. McLANE'S Celebrated VERMIFUGE,** has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S Celebrated LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine DR. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DR. McLANE'S
CELEBRATED LIVER PILLS,

FOR THE CURE OF

Heptatis or Liver Complaint, Dyspepsia and Sick Headache.

In offering to the public DR. McLANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and peculiarly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, requires that some remedy should be provided, that would not *in the least impair the constitution and yet be safe and effectual*. That such is the true character of McLANE'S LIVER PILLS, there can be no doubt. The testimony we lay before you, and the great success which has *invariably* attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these Pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

DR. McLANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day,) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the *regular execution* of which depends not only the general health of the body, but the powers of the *stomach, bowels, brains*, and the whole nervous system, shows its vast and vital importance to human health.—When the Liver is seriously diseased, it in fact not only *deranges the vital functions of the body*, but exercises a powerful influence over the mind and its operations, which cannot easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the *passions* of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools terms hypochondriacs, from the simple fact of a *diseased state of the Liver*. I have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the liver. I will enumerate some of them. Indigestion, Stoppage of the Menses, Deranged state of the Bowels, Irritable and Vindictive Feelings and Passions, from trifling and inadequate causes, of which we afterwards feel ashamed; last, though not least, more than *three-fourths* of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver. This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred when few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Ague and Fever.—DR. McLANE'S LIVER PILLS *in cases of Ague and Fever*, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them *a fair trial*.

Directions.—Take two or three pills going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use. The Liver pills may be used where purging simply is necessary. As an anti-bilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the Stomach.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS*, ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞Boxes containing a full assortment for the Country trade, supplied to order.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT.

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passing over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. febl-ly

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years, some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use*. It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

181 Baltimore Street,

BALTIMORE.

THE GOSPEL ACCORDING TO ST. ATIEN SIXTIEX.

CHAPTER I.

And it came to pass in the reign of Abraham, whose surname was Lincoln, in the eighty and sixth year of the Independence of of the States of America, that a mighty rebellion arose in that land.

And Abraham said unto Simon, from the Keystone State: "Be thou my armor bearer."

And Simon did as he was commanded, and marshaled immense hosts of young and valiant warriors from the East—even from the Kennebec; from across the great river Mississippi, and from beyond the Rocky Mountains; from every State called he some; and being of the kind whose hair curled not a little, they said:

"Those who have risen against us are cowards, and when they behold our banners they will surely run;" but they didn't.

And it came to pass, these two mighty armies went forth to fight on the plains of Manassas.

And Simon's men, though valiant and brave, were smote hip and thigh, even so much that they hurried brilliantly back to lean on Abraham's bosom.

And many were slain but more were wounded.

Then there was great commotion throughout the land, and Abraham called aloud upon the wise men and men of skill to save the sick and give new strength unto the wounded.

And lo! there arose in the North one Drake, cunning in medicine, but of exceeding modesty

And when Abraham and the people beheld the wonderful cures which were wrought by Drake, Abraham said, "My children must not suffer; give me thy drink to drink, and I will give it a name."

And so Abraham drank, and said there was nothing like it, not even in Sangamon county; that it was bitter to the lips, but good for the stomach; and because there were bitter times in fighting the masters of the plantation, it shall for-evermore be called Plantation Bitters; and so it has been.

And the wonderful work which it has performed is witnessed at this day in every town, parish, village and hamlet where the habits of civilization produce dyspepsia, where war creates accidents, and where climate or exposure destroy strength and appetite.

And he said, "Let it be proclaimed throughout the length and breadth of the land, from the valleys and mountain tops, that all who suffer from fevers, dyspepsia, weakness, loss of appetite, nervous headache, and mental despondency, will find relief through the Plantation Bitters. They add tone to the stomach and brilliancy to the mind, of which I, O people, am a living example."

And Drake did as he was commanded, and got him a place in the great city of New York; and as many as came in unto him were healed and went on their way rejoicing.

CHAPTER II.

And he did many wonderful works, insomuch that his name was pronounced in many tongues.

And there came in unto him Judith, from the seaport of New Bedford, who had been sick for many years, and after some days her pains were gone, she slept soundly, and did rejoice in eating her food.

And Asa, from those which are called Quakers, in the great city of Philadelphia, wrote an epistle, saying, "O Drake! accept thou this money, which is called Greenback, and hath the picture of Abraham thy friend on one end; for verily, I was weak, exhausted and despondent; I ate but little and suffered many pains; and thy Plantation Bitters gave me health, likened only unto the vigor of youth."

And upon such as were afflicted with Liver Complaint, with Sour Stomach, with General Debility and Dyspeptic pains, in all parts of the land, did these Bitters produce astonishing Cures.

But some unbelievers existed, and some croakers arose—those whose occupation was gone—and they said many malicious things, and trumpeted their dying sorrows through many papers Then Abraham came the closer unto Drake and said, "This reminds me of a story, which is to say, boys always stone the best trees. Be of good cheer.—Once in Sangamon county even I was bilious—" but the bursting of a shell from the direction of Petersburg caused Abraham to travel a little fast, and he only said, "Send me a bottle of Plantation Bitters, for I have not time to wait." So we have lost his story.

But Drake flourisheth like the green bay tree—the rocks bear witness to his skill, and the fences proclaim his works, so that those who run may read, and none need suffer who will use the Plantation Bitters.

And the multitude with one voice said, "Explain unto us the Delphic meaning of S. T. 1860 X." But because of the many people his voice could not be heard, and he promised to explain all in his next Epistle, which will be Chapter III.

And the crowd departed, each with a bottle of Bitters in their hand.[20]

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium

AT THE

WORLD'S FAIR,

JUST HELD IN LONDON, ENGLAND,

INDUSTRIAL EXPOSITION,

Where all the machines of Europe and America were in competition—also at the

PARIS, FRANCE, AND AT EVERY

UNITED STATES FAIR,

At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

"YOUNG AMERICA"

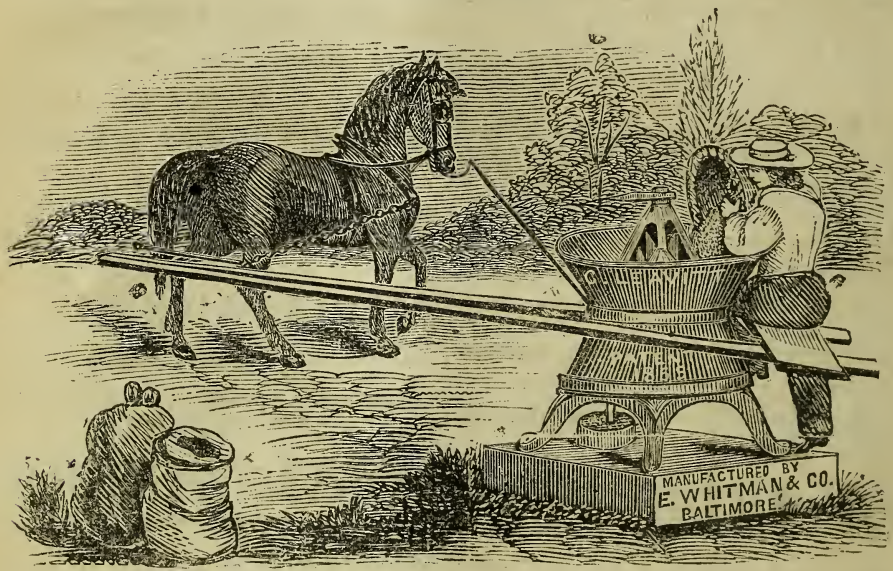

CORN AND COB MILL.

MANUFACTURED BY

E. WHITMAN & SONS,

Nos. 22 & 24 S. Calvert Street,

BALTIMORE, MD.

This Mill is so far superior to all others that we do not consider that it has any competitor in the field.

The advantages of the Young America Mill over all others are so great that the other Mills have gone entirely out of use, except when purchased by those unacquainted with the merits of Corn and Cob Mills.

The facility with which the plates are changed, and the trifling cost of same, after they may have been worn by constant use, enables the farmer to always keep this Mill in perfect order.

☞PRICE, INCLUDING PLATES, $65.

TRIAL OF CORN & COB MILLS AT THE NORTH CAROLINA STATE FAIR.

YOUNG AMERICA, 2 minutes and 40 seconds.
LITTLE GIANT, 4 " 45 "
MAGIC MILL, 6 "
SINCLAIR & CO'S MILL, 2 Trials, average time, 6 minutes, 58 seconds.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S AMERICAN Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.—The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and interior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: *"Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors."* This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE & LUNG SYRUP.

☞Sold by Dealers Everywhere. oct-1y

BELMONT STOCK FARM.

It has been my aim for years to secure the best breeds of stock, and have imported two NORMAN STALLIONS for quick heavy draft—also two MARES for breeding pure stock.

BLACK HAWK (Morgan) suited for fast draught, and good riding qualities, and have bred from him seven years, with entire satisfaction. One of the Normans will be let next season, the other and Black Hawk will continue at my stables.

SHORT HORN CATTLE—some bred in Kentucky by Alexander, Clay and others, and all are immediate descendants of Imported Bulls, and are now being crossed with a young Kentucky bull of the best blood in America.

ALBEMARLE IMPROVED HOGS—a cross of Chester County and Kentucky Woburn, and just now sows and pigs, and generally, boar and sow shoats and pigs. The Cattle and Hogs will be priced to suit the times, delivered on the trains, near CHARLOTTESVILLE, VA.

no tf S. W. FICKLIN.

BONE DUST.

THE PURE ARTICLE ONLY.

NO ADULTERATION.

Farmers and Gardeners cannot be too careful in purchasing their Manures, as they are obliged to depend entirely on the character of the manufacturer for the quality of the article sold. None but Chemists can detect a mixture in Bone Dust.

The Subscriber has always on hand at

MARKET PRICE,

A Large Supply of the same kind of Bone Dust that he has been manufacturing for the last

TWENTY YEARS.

☞ A Discount of 10 per cent. will be allowed on the present prices, until the Spring Trade begins.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105. $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

Greatly improved for the coming season, yet greatly reduced in price.

BICKFORD & HUFFMAN'S WORLD RENOWNED PREMIUM

IRON CYLINDER GRAIN DRILL,

WITH THE IMPROVED GUANO ATTACHMENT AND GRASS SEED SOWER.

APPEARANCE OF WHEAT WHEN SOWN BROADCAST.

It will sow Wheat, Rye, Oats, Barley, &c. in any given quantity. from 4 to 16 pecks to the acre.

It will sow Gu no and other Fertilizers, the desired quantity being regulated with perfect accuracy.

It will sow Corn or Beans in Drills, by simply shutting off the feed to as many tubes as you like.

It also sows Grass & Clover seed.

Thus you have in the Bickford & Huffman Drill a machine to sow any of your grain with greater regularity, guano and other fertilizers more perfectly and economically, and grass and clover seed broadcast behind the Drill, after the work of sowing and manuring is performed, more evenly than can be done by hand, and all with one man and team—and it is made a perfect broadcasting machine for either guano or grain, or both, by simply removing the tubes.

A full supply of Repairing parts always on hand and Repairing promptly and efficiently executed.

APPEARANCE OF WHEAT WHEN DRILLED.

PRICES—Delivered on Boat or Cars in Baltimore.

MARYLAND
AGRICULTURAL COLLEGE.

The duties of this Institution will be resumed on MONDAY, 25th of March.

While it is designed to make instruction in the theory and practice of Agriculture the peculiar feature of the College, provision is made for a full course of Collegiate instruction, embracing the Latin, Greek, French, German, Italian and Spanish languages, or any of them, a course of Mathematics, Mental and Moral Science, History, and the study of the English Language and Literature.

Natural History and Natural Philosophy in their several branches will have special attention. Military Tactics will be taught.

There will be no Preparatory School, but a selected English and Scientific Course may be taken at the student's option. No one received under fourteen years of age.

PUBLIC SALE

OF

Horses, Cattle,

MULES, DONKEYS,

HOGS, POULTRY,

AND

Agricultural Implements.

The undersigned having rented his Farm, will offer at Public Sale, on the premises, eight miles from Baltimore, on the Reisterstown Turnpike Road,

On Wednesday and Thursday,

April 3d and 4th, 1867,

At 10½ o'clock A. M., his entire stock of

FARMING IMPLEMENTS,

TOOLS AND MACHINES,

and also the greater portion of his LIVE STOCK, including the

Thoroughbred Stallion "MARS,"

ten years old, by Basil, out of Platina, by Beverly. and the PERCHERON STALLION

THE LITTLE CORPORAL,

eight years old, by Imported Duke of Normandy, out of Imported Snowdrop. One or two Thoroughbred Mares; Colts of different ages, sired by one or the other of the above named Stallions; a number of Light and Heavy Draught Horses; pure bred Devon Oxen and Steers; some choice Hogs, Poultry, &c., and from ten to twenty head of

ALDERNEY CATTLE.

The sale of Live Stock will take place on the first day, and that of Implements on the second.

Catalogues will be published early in March, giving pedigrees of the more important animals, and a general description of the others, and of the Implements. The rule of this sale will be that every article or animal shall be sold to the highest bidder, and should, in any exceptional case, the owner desire to bid upon a lot set up, he will do so in person, but he will not bid upon the Stallions, nor upon the Cattle. Persons unable to attend the sale, may send orders to the Auctioneer, who will execute them to the best of his judgment. Arrangements will be made to conduct the sale under shelter, so that there will be no postponement on account of weather. The undersigned will endeavor to provide means of transportation from and to Bell's Switch Station, on the Western Maryland Railroad, three miles from Pikesville, and to secure comfortable accommodations in the neighborhood for persons from a distance, who may wish to remain over night.

TERMS OF SALE.—For sums of less than $100, cash; for sums of more than $100, notes bearing interest at four or six months, with approved security, or cash on which a disconnt of 5 per cent. will be allowed.

J. H. McHENRY, Pikesville, Md.

RELIABLE CANE SEED

Regular Sorgo, or the original Chinese Cane.

Liberian, a new and popular variety. Does not blow down.

Oomseeana—often called Otaheitan. Best for Sugar.

The above Seed was grown and selected by the Secretary of the Maryland Sorgo Association, under the direct supervision of ourselves, and is guaranteed true to name and absolutely free from admixture with worthless Canes.

The above varieties are the best for Southern cultivation and are already acclimated.

Send for our "SORGO MANUAL."

CANE SEED!

REGULAR SORGO,
Or the original Chinese Cane.

LIBERIAN,
A new and a very popular variety. Does not blow down.

OOMSEEANA—
Sometimes called **Otaheitan.** Best for Sugar.

NEEAZANA,
Or White Imphee, a short stout Cane, standing up well and is generally liked.

The Cane from which the above Seed was produced, was grown and the Seed harvested and cured under our immediate observation. The Seed is all true to the varieties designated, and absolutely free from admixture with base and worthless Canes.

The Cane from which the Seed was produced yielded from two to three hundred gallons of Syrup per acre.

Send for Circular.

THE SOUTHERN CULTIVATOR:

A Practical and Scientific Journal, for the Plantation, the Garden, and the Family Circle.

The 25th volume of this old Southern favorite, commences with the January No. 1867. It is the best agricultural journal published in this country. We cheerfully recommend it to our farmers as worthy of their patronage—and as a good advertising medium for business people. Published by Wm. N. White, *Athens, Georgia,* at $2 per annum.

The Maryland Farmer and *Southern Cultivator,* both one year for $3.

A MAN in the right, with God on his side, is in the majority though he be alone, for God is above all populations of the earth.

Grand Distribution of Premiums,

TO AID IN THE COMPLETION OF

ST. MARTIN'S CHURCH,

Corner Fayette and Fulton streets, Baltimore, Md.

By permission of the Commissioner of Internal Revenue, the Distribution will take place on

EASTER MONDAY, APRIL 22d, 1867.

Certificates fifty cents, entitling the holder to a photograph of St. Martin's Church, and one among one thousand very valuable Premiums, including among others:

1 very superior horse, buggy and harness; 4 magnificent Piano Fortes, 7 octaves, rosewood cases, from the celebrated manufactory of Knabe & Co.; 3 sets of very handsome chamber furniture, 4 sets of silver, 4 most improved sewing machines, 6 very valuable gold watches, 4 superior hunting case silver watches, 6 silver ice pitchers of beautiful design, 4 splendid clocks with bronze ornaments, 4 sets of Biblical Works of Most Rev. Dr. Kenrick, 4 sets of Works of Right Rev. Dr. England, 4 sets of Works of Most Rev. Dr. Spalding, 10 highly finished photographs of the seven Archbishops of Baltimore, 10 highly finished photographs of the present Metropolitans of the United States, and 832 other valuable and attractive premiums.

The Distribution will be in charge of a committee of responsible gentlemen. The successful recipients of premiums will be notified in the *Daily Gazette* and *Catholic Mirror* of the Saturday following the Distribution.

All certificates must be signed by the Rev. Pastor.

Applications for certificates may be made to LOUIS BRAND, Catholic Institute, No. 122 N. Howard street, from 9 A. M. to 2 P. M., and from 4 P. M. to 6 P. M., or to Rev. JOHN FOLEY, 40 Hollins street. Certificates may be obtained at MURPHY & CO'S, KELLY & PIET'S, GEO. W. WEBB & CO'S, and KNABE & CO'S. 1t

EDWARD J. EVANS & CO., York, Pa.

KNOX FRUIT FARM AND NURSERIES.

One Hundred and Fifty Acres in Grapes, Strawberries, Blackberries, Raspberries, Currants, Gooseberries, &c. &c.

Send for our Catalogue, which is a Valuable Treatise on their Cultivation.

We were among the very first to engage in growing SMALL FRUITS, on a large scale, and for many years have been making a collection which is unsurpassed if equaled anywhere.

GRAPES.

THE CONCORD is decidedly the most popular grape in the country. It is now more generally planted, and gives greater satisfaction than any other. The

GREELEY PRIZE

has lately been awarded it as the grape of the greatest value. For full description SEE CATALOGUE.

HARTFORD PROLIFIC and CREVELING, are the best *very* early grapes yet thoroughly tested, and are very profitable.

IVES is destined to be, if it is now, the leading grape of the country. For full description of this invaluable grape, SEE CATALOGUE.

RANTZ is nearly of the same value, and is a most vigorous grower.

MARTHA is a WHITE CONCORD, and is destined to be among White grapes, what its parent, the Concord is among the colored varieties.

BLACK HAWK promises to be a grape of very great merit—perhaps the earliest of all.

For description of above, and IONA, ISRAELLA, ADIRONDAC, and all other desirable kinds, as well as much valuable information on Grape Culture, send 10 CENTS FOR CATALOGUE.

Our vines are grown in the open air, from bearing wood taken from our extensive Vineyards.

STRAWBERRIES.

For many years we have given earnest attention to the cultivation of Strawberries. Our long and varied experience gives us great advantages, in the selection of such varieties as will give the best satisfaction to the grower, whether for home or market purposes; our collection, in variety, quality, and quantity, is unsurpassed, if equaled anywhere. We call special attention to the

JUCUNDA--OUR NO. 700.

After thoroughly testing this variety for seven years, we unhesitatingly say, that for *uniform and large size, beauty of form and color, enormous yield, long continuance in bearing, great profit, health and vigor of plant*, and other desirable qualities, it is the most valuable Strawberry of which we have any knowledge. All who have seen it on our grounds, prize it alike highly.

Our present stock of plants of JUCUNDA, and all other valuable varieties is the largest and best we have ever offered.

SEND 10 CENTS FOR CATALOGUE, which is a complete Manual on the Strawberry.

CURRANTS.

The demand for this valuable fruit is greatly increasing every year. We have taken special pains to make the best possible collection, and our stock is, perhaps, much the largest in the country.

We offer very superior plants of

VERSAILLAISE.—The best of all.
FERTILE DE ANGERS.—Very similar to the above.
CHERRY.—Excellent for jelly.
VICTORIA.—Very late and good.
WHITE GRAPE.—Superior for Wine.
LA HATINE.—Vigorous grower and very good.
BLACK NAPLES.—Good for Jams and Jellies.

We can furnish any other desirable kinds.

Also,

RASPBERRIES, BLACKBERRIES, GOOSEBERRIES, &c., &c.

Send 10 cents for our DESCRIPTIVE AND ILLUSTRATED CATALOGUE with SUPPLEMENT.

It contains DESCRIPTIONS and ILLUSTRATIONS of the leading varieties of

GRAPES, STRAWBERRIES, RASPBERRIES, BLACKBERRIES, GOOSEBERRIES, CURRANTS, &c.—SELECT LISTS of FRUITS, made up with great care.

LETTERS FROM EMINENT FRUIT GROWERS, and REPORTS of VARIOUS COMMITTEES, who have visited our grounds, including the REPORT OF THE AD INTERIM COMMITTEE of the OHIO POMOLOGICAL SOCIETY, 1865, written by the President, Dr. Jno. A. Warder, from which we extract:

"Four things struck all the visitors as especially worthy of note: The modes of propagation and culture of the soil, the varieties under culture and trial, the wonderfully abundant product of magnificent berries, and the excellent and successful mode of harvesting and marketing the fruit, all of which may properly be introduced into this Report for the benefit of our fellow-members."

Much valuable information, on each of these points is contained in this Report, and other parts of the Catalogue.

BUCKEYE MOWER & REAPER

STILL THE

CHAMPION MACHINE

OF THE AGE.

MANUFACTURED BY

C. AULTMAN & CO., Canton, Ohio.

Of the Buckeye as a *MOWER*, it is only necessary to say, that in addition to the many Gold Medals received during the few years of its existence, it was awarded the

First Premium Grand Gold Medal

in the FIRST CLASS, at the greatest field trial ever had in this country, held at Auburn, N. Y., in July, 1866. There were fifty-nine Machines entered, and the committee gave it "SUPERIORITY over all competitors in *perfection of work in all kinds of grass, and on every variety of surface, lightness of draft, ease of management, perfection of mechanical construction, simplicity, strength, and durability.*" The various improvements put on the Buckeye recently for *Reaping purposes*, make it in all respects the most desirable Reaper in the market. ☞ On opposite page is shown our DROPPER, which, for lightness of draft, simplicity of construction, convenience and perfection of work, it has no competitor. It constitutes two separate machines in one, differing from *all* others, having two cutting bars, separate knives, &c., one cutting 4 feet 6 inches in grass, a perfect mower, the other 5 feet 10 inches in grain—a complete and perfect Reaper—each doing the work for which it is designed, in the *best* manner. We have various styles and sizes of them as made by the above celebrated firm, and invite those wanting

A FIRST CLASS MACHINE,

to call and examine before purchasing. We are prepared to furnish all kinds of extras and repairs for the Buckeye at the lowest rates. Those having Machines to repair, will bring them in early.

☞Prices have been reduced. Send for Catalogue and new Price List.

SORGO MACHINERY,
FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,
AND THEIR PREMIUM
POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.

J. WILKINSON,

Landscape Gardener, Rural Architect

And CIVIL ENGINEER,

BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S
AMERICAN
Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.--The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and interior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: "*Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors.*" This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE & LUNG SYRUP.

☞**Sold by Dealers Everywhere.** oct-1y

☞The Proprietors will forward, per mail, to any part of the United States or the British Provinces, one box of *LIVER PILLS* on the receipt of order enclosing twelve three-cent P. O. Stamps, or one vial of *VERMIFUGE* on receipt of thirteen stamps.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

"YOUNG AMERICA"

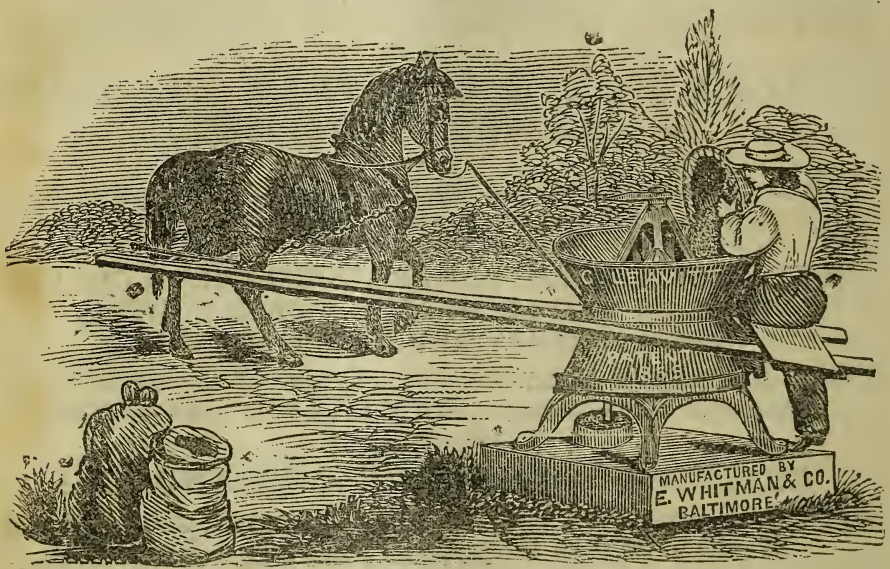

CORN AND COB MILL.

MANUFACTURED BY

E. WHITMAN & SONS,

Nos. 22 & 24 S. Calvert Street,

BALTIMORE, MD.

This Mill is so far superior to all others that we do not consider that it has any competitor in the field.

The advantages of the Young America Mill over all others are so great that the other Mills have gone entirely out of use, except when purchased by those unacquainted with the merits of Corn and Cob Mills.

The facility with which the plates are changed, and the trifling cost of same, after they may have been worn by constant use, enables the farmer to always keep this Mill in perfect order.

☞PRICE, INCLUDING PLATES, $65.

TRIAL OF CORN & COB MILLS AT THE NORTH CAROLINA STATE FAIR.

The following Table shows the Time occupied by each of the Mills on Exhibition, in Grinding half bushel of Corn and Cobs.

YOUNG AMERICA, 2 minutes and 40 seconds.
LITTLE GIANT, 4 " 45 "
MAGIC MILL, 6 "
SINCLAIR & CO'S MILL, 2 Trials, average time, 6 minutes, 58 seconds.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our **Dr. McLANE'S Celebrated VERMIFUGE,** has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S Celebrated LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine DR. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DR. McLANE'S
CELEBRATED LIVER PILLS,

FOR THE CURE OF

Heptatis or Liver Complaint, Dyspepsia and Sick Headache.

In offering to the public DR. McLANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and peculiarly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, requires that some remedy should be provided, that would not *in the least impair the constitution and yet be safe and effectual*. That such is the true character of McLANE'S LIVER PILLS, there can be no doubt. The testimony we lay before you, and the great success which has *invariably* attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these Pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

DR. McLANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day,) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the *regular execution* of which depends not only the general health of the body, but the powers of the *stomach, bowels, brains*, and the whole nervous system, shows its vast and vital importance to human health.—When the Liver is seriously diseased, it in fact not only *deranges the vital functions of the body*, but exercises a powerful influence over the mind and its operations, which cannot easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the *passions* of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools terms hypochondriacs, from the simple fact of a *diseased state of the Liver*. I have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the liver. I will enumerate some of them. Indigestion, Stoppage of the Menses, Deranged state of the Bowels, Irritable and Vindictive Feelings and Passions, from trifling and inadequate causes, of which we afterwards feel ashamed; last, though not least, more than *three-fourths* of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver. This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred when few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Ague and Fever.—DR. McLANE'S LIVER PILLS *in cases of Ague and Fever*, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them *a fair trial*.

Direetions.—Take two or three pills going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use. The Liver pills may be used where purging simply is necessary. As an anti-bilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the Stomach.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE AND LUNG SYRUP.

SOLD BY DEALERS EVERYWHERE.

oct-1y

☞ The Proprietors will forward, per mail, to any part of the United States or the British Provinces, one box of *LIVER PILLS* on the receipt of order enclosing twelve three-cent P. O. Stamps, or one vial of *VERMIFUGE* on receipt of thirteen stamps.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

PLANTATION BITTERS

AGUA DE MAGNOLIA.

A toilet delight. Superior to any Cologne, used to bathe the face and person, to render the skin soft and fresh, to allay inflammation, to perfume clothing, for headache, &c. It is manufactured from the rich Southern Magnolia, and is obtaining a patronage quite unprecedented. It is a favorite with actresses and opera singers. It is sold by all dealers, at $1.00 in large bottles, and by DEMAS BARNES & Co., New York, Wholesale Agents.

Saratoga Spring Water, sold by all Druggists.

"Jes' so!"—"Exactly!" Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

Few persons want any better authority; but as some may, just read the following:

" * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGONER, Madrid, N. Y."

" * * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me.
REV. C. A. MILLWOOD, New York City."

" * * * I had lost all appetite—was so weak and enervated I could hardly walk, and had a perfect dread of society. * * * The Plantation Bitters have s etme all right.
JAMES HEIMINWAY, St. Louis, Mo."

" * * * The Plantation Bitters have cured me of a derangement of the Kidneys and Urinary Organs, that distressed me for years. They act like a charm.
C. C. MOORE, 254 Broadway, N. Y."

Mrs. O. M. DEVOE, manager of the Union Home School for Soldiers' Children, says she "has given it to the weak and invalid children under her charge, with the most happy and gratifying results." We have received over a hundred reams of such certificates, but no advertisement is so effective as what people themselves say of a good article. Our fortune and our reputation is at stake. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

P. H. DRAKE & CO., New York City.

Saratoga Spring Water, sold by all Druggists.

It is most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Saratoga Spring Water, sold by all Druggists.
may-1y

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of, without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

Montgomery, Ala., June 17, 1859. J. L. DOWNING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.

Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signiture of G. W. Westbrook, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Saratoga Spring Water, sold by all Druggists.

Who would not be beautiful? Who would not add to their beauty? What gives that marble purity and *distingue* appearance we observe upon the stage, and in the city belle? It is no longer a secret. They use Hagan's Magnolia Balm. Its continued use removes tan, freckles, pimples and roughness, from the face and hands, and leaves the complexion smooth, transparent, blooming and ravishing. Unlike many cosmetics, it contains no material injurious to the skin. Any Druggist will order it for you, if not on hand, at 50 cts. per bottle.

W. E. HAGAN, Troy, N. Y., Chemist.

DEMAS BARNES & CO., Wholesale Agents, N. Y.

Saratoga Spring Water, sold by all Druggists.

Heimstreet's inimitable Hair Coloring is not a dye. All instantaneous dyes are composed of *lunar caustic*, and more or less destroy the vitality and beauty of the hair. This is the original Hair Coloring, and has been growing in favor over twenty years. It restores gray hair to its natural color by gradual absorption, in a most remarkable manner. It is also a beautiful hair dressing. Sold in two sizes—50 cts. and $1—by all dealers. C. HEIMSTREET, Chemist.

Saratoga Spring Water, sold by all Druggists.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity makes it a cheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "LYON'S" Pure Extract. Take no other.

Saratoga Spring Water, sold by all Druggists.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passing over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years, some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS,* ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞Boxes containing a full assortment for the Country trade, supplied to order.

Greatly improved for the coming season, yet greatly reduced in price.

BICKFORD & HUFFMAN'S WORLD RENOWNED PREMIUM

IRON CYLINDER GRAIN DRILL,

WITH THE IMPROVED GUANO ATTACHMENT AND GRASS SEED SOWER.

APPEARANCE OF WHEAT WHEN SOWN BROADCAST.

It will sow Wheat, Rye, Oats, Barley, &c. in any given quantity. from 4 to 16 pecks to the acre.

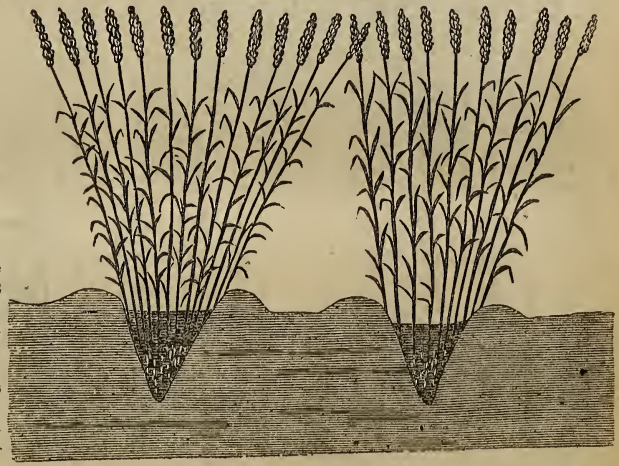

It will sow Guno and other Fertilizers, the desired quantity being regulated with perfect accuracy.

It will sow Corn or Beans in Drills, by simply shutting off the feed to as many tubes as you like.

It also sows Grass & Clover seed.

Thus you have in the Bickford & Huffman Drill a machine to sow any of your grain with greater regularity, guano and other fertilizers more perfectly and economically, and grass and clover seed broadcast behind the Drill, after the work of sowing and manuring is performed, more evenly than can be done by hand, and all with one man and team—and it is made a perfect broadcasting machine for either guano or grain, or both, by simply removing the tubes.

A full supply of Repairing parts always on hand and Repairing promptly and efficiently executed.

APPEARANCE OF WHEAT WHEN DRILLED.

NEW BRICK MACHINE.

In successful operation since 1854. Common labor, with one brick maker only, required. Worked by one man, makes 4,000 per day; by horse, 7,000 to 12,000; by steam, 16,000 to 25,000. Cost from $100 to $700.

DRYING TUNNEL,

Patented 26th February, 1861, for "drying bricks, tile, pottery, cores for castings, and other manufactures of clay and sand: grain, fruit, vegetables, pea nuts, broom corn, peat, lumber, glue, starch, whiting, sugar, bagasse, guano, leather, hides, fish, meat, saltpeter, alum, and other chemicals." Bricks molded one day are set in the kiln the next, all the year. For further particulars, in a pamphlet, (seventh edition enlarged,) giving full instructions on brick setting and burning with wood or coal, address, sending twenty cents,

FRANCIS H. SMITH,

de-4t* Box 556, Baltimore, Md.

BELMONT STOCK FARM.

It has been my aim for years to secure the best breeds of stock, and have imported two NORMAN STALLIONS for quick heavy draft—also two MARES for breeding pure stock.

BLACK HAWK (Morgan) suited for fast draught, and good riding qualities, and have bred from him seven years, with entire satisfaction. One of the Normans will be let next season, the other and Black Hawk will continue at my stables.

SHORT HORN CATTLE—some bred in Kentucky by Alexander, Clay and others, and all are immediate descendants of Imported Bulls, and are now being crossed with a young Kentucky bull of the best blood in America.

ALBEMARLE IMPROVED HOGS—a cross of Chester County and Kentucky Woburn, and just now sows and pigs, and generally, boar and sow shoats and pigs. The Cattle and Hogs will be priced to suit the times, delivered on the trains, near *CHARLOTTESVILLE, VA.*

S. W. FICKLIN.

BONE DUST.

THE PURE ARTICLE ONLY.

NO ADULTERATION.

Farmers and Gardeners cannot be too careful in purchasing their Manures, as they are obliged to depend entirely on the character of the manufacturer for the quality of the article sold. None but Chemists can detect a mixture in Bone Dust.

The Subscriber has always on hand at

MARKET PRICE,

A Large Supply of the same kind of Bone Dust that he has been manufacturing for the last

TWENTY YEARS.

☞ A Discount of 10 per cent. will be allowed on the present prices, until the Spring Trade begins.

PARIS, FRANCE, AND AT EVERY

UNITED STATES FAIR,

At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

HOWE MACHINE COMPANY.

DEPOT 214 BALTIMORE-ST., BALTIMORE,

W. MERRELL, Agent.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S
AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*
I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.
They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.
A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.
One Box will ordinarily cure three persons.
Try them—A word to the wise is sufficient.
Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.
Price $1 per Box. aply

NEW BOOKS

FOR FARMERS, GARDENERS AND LOVERS OF COUNTRY LIFE.

PUBLISHED AND FOR SALE BY

ORANGE JUDD & CO.,

41 Park Row, New York.

GARDENING FOR PROFIT;

In the Market and Family Garden.

By PETER HENDERSON.

A new, finely illustrated work on Market and family Gardening, and the first ever prepared by a Market Gardener in this country. The author is well known, and he here records his *succeseful experience* of eighteen years.

The Louisville (Ky.) *Journal* says of this work:

"We know of no manual on any subject that surpasses this. Every part of it displays the hand of a man thoroughly at home with his subject; it is full of sound, excellent sense, expressed in clear and concise language. We say a great deal when we say that Mr. Henderson is as complete as a writer on gardening as he is a practitioner in his gentle but laborious art."

William Saunders, Esq, of the Department of Agriculture, Washington, writes:

"It is the most practically useful work of any on the same subject. In these days of book-writing, it is refreshing to meet a work that has common sense and practical experience for its basis."

Hon. Horace Greeley thus speaks of this book in the *New York Tribune*:

"READING FOR BOYS.—This work would probably not be selected by most boys as the book for their money, wherein they would evince their usual greenness. There are marvels of transformation and rapid production recorded therein, which might well shame the dull fancy of the authors of **Aladdin** or of **Kaloolah.** To know that a few rods of good land may well employ and will surely reward the constant labor of a stout man—that there are choice gold-fields all around us for those that *know how to dig*—that $1,000 may be wisely and profitably expended in draining, subsoiling, fertilizing, deeply pulverizing a single acre—that he who would get rich by gardening must pile on manures by the hundreds of tons—that great crops always pay; half crops never—such are a few of the important truths sufficiently set forth and tersely enforced in Mr. Henderson's little volume. There is no theory about it—one who has made himself rich by market-gardening, plainly tells our young men how *they* can get rich as easily as he did, and without wandering to California or Montana for it either." Price, $1.50.

GRAPE CULTURIST.

New Edition, Revised and Enlarged.

By ANDREW S. FULLER.

Mr. Fuller's work met the general want of a plain and practical treatise on grape culture. As it was based upon established principles, it at once took rank as a standard work. Most of the treatises that have appeared since are nothing more than Fuller modified and diluted. When the structure and mode of growth of the vine is once understood, all systems of training become plain, and one may be followed as readily as another. Mr. Fuller gives this knowledge of the vine most clearly, and illustrates it so plainly that no one can fail to understand it, and for this reason his book has become remarkably popular, and has not been, nor is it likely to be superseded by any other work on the same subject. The teachings of the work are all from actual practice, and the illustrations are mainly from growing vines. To bring this work up to the times in respect to varieties, a considerable portion of the matter has been rewritten. An additional list of varieties, including synonyms, has been given, and important additions have been made all through the volume. Garden culture is treated as well as that of the vineyard, and the book is equally adapted to the owner of a single vine, or the one who has thousands of vines. Well illustrated. Price, $1.50

The American Horticultural Annual for 1867.

A YEAR BOOK FOR THE GARDENER, THE FRUIT GROWER, AND THE AMATEUR.

It is a beautifully illustrated volume of 168 pages. It contains an Almanac and Calendar for each month, giving hints for work in the various departments, with useful tables, and an article on Growing Grape Vines from cuttings, by William Patrick; How Horseradish is Grown for Market, by P. Henderson; Home Decorations, by A. Bridgeman; The New Apples of 1865, by Dr. J. A. Warder; New or Noteworthy Pears, by P. Barry; Small Fruits in 1866, by A. S. Fuller; Rarer Valuable Evergreens, by T. Meehan, with valuable contributions by other writers.

Price, fancy paper covers, 50; cloth, 75.

The American Agricultural Annual for 1867.

A companion volume to the Horticultural Annual, and containing besides an Almanac with hints about work for each month, an Essay on Draining, by Col. Geo. R. Waring, jr.; articles on the Culture of Sorghum, by Wm. Clough; Some of the Newest and Best Potatoes, by Wm. S. Carpenter; How to Train a Horse, by S. F. Headley; Essential Features of a Good Barn, with Plan, by Dr. F. M. Hexamer; Recent Scientific Progress in Agriculture, by Prof. S. W. Johnson, of Yale College; The Culture of Wheat, by Joseph Harris, and other valuable essays upon subjects of interest to agriculturist. Finely Illustrated.

Price, fancy paper covers, 50; cloth, 75.

Hints to Horsekeepers.

BY THE LATE HENRY WILLIAM HERBERT (Frank Forester). *Beautifully Illustrated.*

A COMPLETE MANUAL FOR HORSEMEN.

This is unquestionably the most comprehensive and valuable work of its size to be found upon the subject treated. The "Hints" are intended to include every subject of interest to those who, for pleasure or business, own or use a horse. Price, $1.75.

New Book of Flowers.

By JOSEPH BRECK, PRACTICAL HORTICULTURIST.

We have no work which is so safe a guide to the novice in gardening, or that imparts the necessary information in a style so free from technicalities. Not the least interesting part of the work is the author's personal experience, as he tells not only how he succeeded, but the mistakes he committed. Beautifully illustrated. Price, $1.75.

The Miniature Fruit Garden.

By THOMAS RIVERS.

THE CULTURE OF PYRAMIDAL AND BUSH FRUIT TREES.

Directions are given for growing Dwarf Apples, Pears, Cherries and Plums, Figs and Filberts. Nothing is more gratifying than the cultivation of Dwarf Fruit Trees, and this work tells how to do it successfully, in City Yards or extensive Gardens. Price, $1.00.

Saunder's Domestic Poultry.

By S. M. SAUNDERS.

This is a new edition, revised and enlarged. It contains with other articles, complete Instructions for Breeding and Fattening Fowls, and Preparing for Exhibition at Poultry Shows. An account of Poultry Breeding on a large scale,

as practiced in the neighborhood of Paris, is given in an appendix. Price, paper, 40; cloth, 75.

PEAT AND ITS USES

As Fertilizer and Fuel.

A New Work on Peat.

By Prof. S. W. JOHNSON, of Yale College.

An invaluable work to those having Peat or Muck swamps, or who wish to know more of this subject, which is now interesting so many farmers and land owners. It gives a full history of Peat, Muck, etc., telling what they are, where found, and how to estimate their value.

Price, $1.25.

Copeland's Country Life.

By ROBERT MORRIS COPELAND.

A Compendium of Agricultural and Horticultural Practical Knowledge.

An elegant octavo volume, bound in beveled boards, and containing 926 pages and 250 engravings. It is adapted not only to those owning large estates, but contains directions for the best arrangement of the smallest Plots, down to the City Yard, the Roof or Window Garden, or the simple Flower Stand. Price, $5.00.

Any of the above will be sent, post-paid, on receipt of the price.

Iona and Israella Vines,

FOR SPRING PLANTING.

Besides my general stock of Vines for Garden and Vineyard, which are of unequalled quality, I have some that have been reserved for spring planting, that greatly surpass in quality any that I have heretofore offered in quantity.

A full description of these will be given in Spring Price List.

There are a few important facts in relation to my present stock of IONA and ISRAELLA vines which are of great interest to all purchasers who desire to secure the best and cheapest plants.

The past season, from its sudden changes, was the most unfavorable for the production of plants of good qualtity, and propagators have experienced very great disappointment generally.

The principal portion of my stock was started very early, for the purpose of making plants of unusual quality, and were, at the time of planting in June, advanced to a healthy endurance, so that they received but little check, and before the cold of August had made a strong, mature growth, that carried them safely through the season. Hence, although the season was the most unfavorable ever experienced, I am able to offer better and cheaper vines of these kinds than were ever before grown in open air.

I have besides a large stock of vines that were grown in houses all the season. These also challenge competition

My vines of this class have given universal satisfaction, and have never been approached in quality by those of any propagator.

Those of this season excel my former productions, and are the natural result of proper management. The houses are of unusual construction, and are made to admit the full force of the sun, and so thoroughly ventilated as to equal the effects of full exposure, except in times of trial by cold, or tearing winds, that are greatly detrimental to any vines, but highly damaging to young ones. They were also grown at large distances apart, the open spaces amounting to one foot or more, and exceeding by more than fourfold the ordinary distances of the best plants. The roots are proportioned to the distances, as were also the leaves. SUCH PLANTS can be VERY CHEAP without being very *low-priced*, and they can not be produced without great cost.

I offer a fine lot of wood, from strong and perfectly healthy Iona and Israella vines, for propagation. For descriptions and price send for spring price-list.

I may here say, that all of my vines are offered at a very small living profit, and I do not hesitate to warrant that at the prices asked they will be found to be much cheaper than any that have been or can be sold at auction this season. The proposition to be solved and being solved daily, where the value of good grapes is well understood, is like the following: How much cheaper is a vine at 25 cents, that at the end of the third season has given no return, than one for $2 that has given $5 for its fruit and $3 for its cuttings?

Send two-cent stamp for Present State of Grape Culture, and Price Lists for 1867.

Club propositions, with engravings both of the Iona and Israella, will be forwarded on application, to all who are willing to get up Clubs.

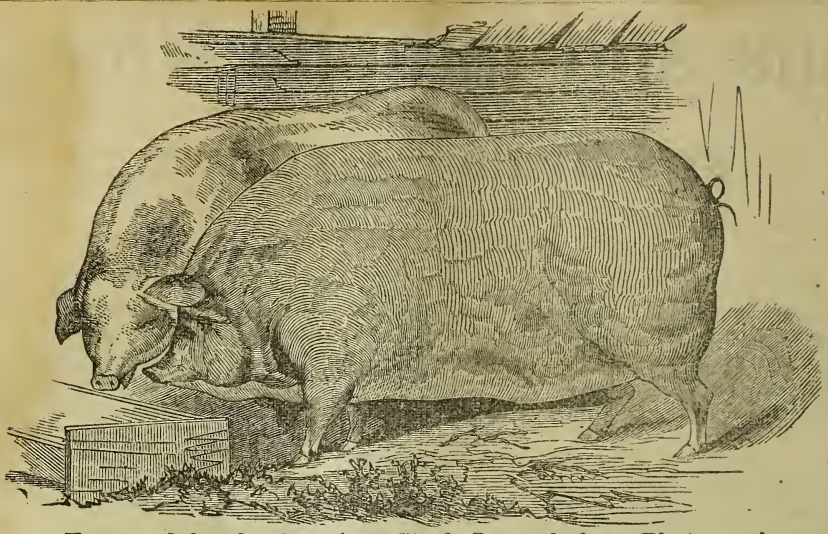

Manual of the Vine (a thorough treatise) sent for 50 cents.

PREMIUM CHESTER WHITE PIGS.

Progeny of Hogs that have taken State and United States Premium, sent in pairs, not akin, to all parts of the U. S., Canada, Cuba and South America.

Our Pigs have always taken the highest premium wherever exhibited. They have all the good qualities desirable in a Hog: they are quiet, kept easily, have a good square form, deep and wide chest, plenty of play for the Lungs, very heavy hams and shoulders, broad in the back, short head and legs, and without exception always white; they readily fatten while young, or at any age, and will grow to weigh from 500 to 800 lbs, at 14 or 16 months old. They will make more pork in a given length of time, with a given quantity of food, than any other breed of Hogs. We have had them to weigh 1,280 lbs. at 21 months old.

We always have a large stock of Hogs on hand, of all ages, from 1 to 18 months old, and can fill orders at almost any time.

We insure the saft arrival of the Pigs.

They are carefully boxed, with feed and trough; the Express or Railroad agents feed and water them.

N. P. BOYER & CO.,
Gum Tree, Chester Co., Pa.

We give the following Testimonials, received from parties who have ordered "Chester White Pigs" from us: H. O. Brown, a well-known manufacturer, of Castleton, Rutland Co., Vermont, says: "The boar pig you sent me, is the handsomest I ever saw. He took the *First* Premium at our Agricultural Fair! People came for miles to see him, he has over fifty Sows engaged at $2.00 each. I don't believe there is another as good a hog in the New England States. I sold one of the pigs from the Sow I got of you, five weeks and two days old, for $50, to a gentleman in New York."

Dorsey Scott, of Lamoille, Bureau Co., Ills., writes: "The Sow I got of you, measurers 18 inches across the shoulders (not fat). I was offered $130 for her, she had 10 pigs, sold all at $10 to 12 apiece, four weeks old. Everybody says they are the best pigs that have ever been riased in this part of the State."

L. L. Smith, of Brooklyn, Poweshiek Co., Iowa, writes: "The pigs I got of you last spring, took the First Premium at the Scott Co. Fair. The Boar I got of you some two years ago, weighs 1,400 lbs., and is still growing. I bred one Chester White that weighed 1,250 lbs. at 22 months old.

Lewis Maxwell, of Atlanta, Logan Co., Ills., writes: "The pair of pigs you sent me are hard to beat, the Boar has had 60 Sows, and will weigh 400 lbs."

John Murphy, of Buckeye, Garrad Co., Ky., writes: "The pigs you sent me are the best pair I ever saw, and Hog-raising has been my buisness for twenty years."

"The pigs arrived safe, and meet my fullest expectations," writes F. A. Bliss, Rehoboth, Mass.

E. E. T. & J. H. Hazen, of Hollowayville, Bureau Co., Ills., write: "We have now had our pigs six weeks, and they have double their size in every way, length, breadth, and height. They are the finest pigs, and the most rapid growers we ever saw. They are perfect beauties. There can be no better feeders, everything they eat appears to be immediately converted into muscle and fat."

D. B. Waterman, of Aurora, Kane Co., Ills., writes: "I have just returned from our State Fair at Chicago, where I saw all the different herds of Chesters, from Illinois, Iowa and Michigan, *and know I am justified in pronouncing unqualifiedly, the pigs you sent me, much superior in every point of view, to any I saw at the above Fair.* My pigs are now 4½ and 5 months old. The Boar will weigh 250, and the Sow 200 lbs."

John C. Palmer, of Helena, Arkansas, writes: "My pigs gained 33 pounds apiece in 31 days, from 5 to 9 weeks old. I don't think any other breed can beat this."

Sent Free, three Months for Nothing.

The great AMERICAN STOCK JOURNAL—THE FARMERS' AND STOCK BREEDERS' ADVERTISER, the Oct, Nov. and Dec. numbers, of 1866, sent free to all Subscribers, for 1867, only $1.00 a year in advance. GET THE BEST

WEBSTER'S DICTIONARY

UNABRIDGED

NEW ILLUSTRATED

OVER 3000 FINE ENGRAVINGS.

10,000 *Words and Meanings not in other Dictionaries.*

A necessity to every intelligent family, student, teacher and professional man. What Library is complete without the best English Dictionary?

"Superior, in most respects, to any other English Dictionary known to me."—*Hon. George P. Marsh.*

"THE NEW WEBSTER is glorious—it is perfect—it distances and defies competition—it leaves nothing to be desired."—*J. H. Raymond, LL. D., Prest. of Vassar Coll.*

"All young persons should have a standard Dictionary at their elbows. And while you are about it GET THE BEST; that Dictionary is NOAH WEBSTER'S—*the great work unabridged.* If you are too poor, save the amount from off your back to put it into your head."—*Phrenological Journal.*

"Every *farmer* should give his sons two or three square rods of ground, well prepared, with the avails of which they may buy it. Every *Mechanic* should put a receiving box in some conspicuous place in the house to catch the stray pennies for the like purpose. Lay it upon your table by the side of the Bible; it is a better expounder than many which claim to be expounders. It is a great labor-saver; it has saved us time enough in one year's use to pay for itself; and that must be deemed good property which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's nine definitions of the *v. t.*"—*Massachusetts Life Boat.*

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore,

And by Dealers in general throughout the country.

The Material of which Moro Phillips' Phosphate is manufactured contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The ammonia present gives it great additional fertilizing value.

Six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

BUCKEYE MOWER & REAPER

STILL THE

CHAMPION MACHINE

OF THE AGE.

MANUFACTURED BY

C. AULTMAN & CO., Canton, Ohio.

Of the Buckeye as a *MOWER*, it is only necessary to say, that in addition to the many Gold Medals received during the few years of its existence, it was awarded the

First Premium Grand Gold Medal

in the FIRST CLASS, at the greatest field trial ever had in this country, held at Auburn, N. Y., in July, 1866. There were fifty-nine Machines entered, and the committee gave it "SUPERIORITY over all competitors in *perfection of work in all kinds of grass, and on every variety of surface, lightness of draft, ease of management, perfection of mechanical construction, simplicity, strength, and durability.*" The various improvements put on the Buckeye recently for *Reaping purposes*, make it in all respects the most desirable Reaper in the market. ☞ On opposite page is shown our DROPPER, which, for lightness of draft, simplicity of construction, convenience and perfection of work, it has no competitor. It constitutes two separate machines in one, differing from *all* others, having two cutting bars, separate knives, &c., one cutting 4 feet 6 inches in grass, a perfect mower, the other 5 feet 10 inches in grain—a complete and perfect Reaper—each doing the work for which it is designed, in the *best* manner. We have various styles and sizes of them as made by the above celebrated firm, and invite those wanting

A FIRST CLASS MACHINE,

to call and examine before purchasing. We are prepared to furnish all kinds of extras and repairs for the Buckeye at the lowest rates. Those having Machines to repair, will bring them in early.

☞Prices have been reduced. Send for Catalogue and new Price List.

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's

REAPER AND MOWER.

This Cut Gear is regarded by all unprejudiced minds as the greatest improvement ever made of Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

Also, manufacturers of the celebrated

BUCKEYE WHEEL HORSE RAKE

(The only reliable Self-Delivering Rake known.)

Threshers and Cleaners,

Wheat Drills, Horse Powers,

Fans, Straw Cutters, Corn Shellers,

Tingley's Improved Butter Churn, and Agricultural Implements in general.

Also, Sole Agents for Maryland and the South, for the sale of the

VICTOR CANE MILL,

AND

COOK EVAPORATOR.

Having all the patterns for the BUCKEYE REAPER and MOWER, we are prepared to fill orders for extras, or repair Machines at short notice, and on reasonable terms.

J. WILKINSON,
Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S
AMERICAN
Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.—The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and interior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: "*Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors.*" This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

The following Table shows the Time occupied by each of the Mills on Exhibition, in Grinding half bushel of Corn and Cobs.

YOUNG AMERICA, 2 minutes and 40 seconds.
LITTLE GIANT, 4 " 45 "
MAGIC MILL, 6 "
SINCLAIR & CO'S MILL, 2 Trials, average time, 6 minutes, 58 seconds.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our **Dr. McLANE'S Celebrated VERMIFUGE**, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S Celebrated LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! Dr. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DR. McLANE'S
CELEBRATED LIVER PILLS,

FOR THE CURE OF

Heptatis or Liver Complaint, Dyspepsia and Sick Headache.

In offering to the public Dr. McLANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and peculiarly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, requires that some remedy should be provided, that would not *in the least impair the constitution and yet be safe and effectual*. That such is the true character of McLANE'S LIVER PILLS, there can be no doubt. The testimony we lay before you, and the great success which has *invariably* attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these Pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

Dr. McLANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day,) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the *regular execution* of which depends not only the general health of the body, but the powers of the *stomach, bowels, brains*, and the whole nervous system, shows its vast and vital importance to human health.—When the Liver is seriously diseased, it in fact not only *deranges the vital functions of the body*, but exercises a powerful influence over the mind and its operations, which cannot easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the *passions* of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools terms hypochondriacs, from the simple fact of a *diseased state of the Liver*. I have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the liver. I will enumerate some of them. Indigestion, Stoppage of the Menses, Deranged state of the Bowels, Irritable and Vindictive Feelings and Passions, from trifling and inadequate causes, of which we afterwards feel ashamed; last, though not least, more than *three-fourths* of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver. This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred when few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Ague and Fever.—DR. McLANE'S LIVER PILLS *in cases of Ague and Fever*, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after, taking Quinine. We would advise all who are afflicted with this disease to give them *a fair trial*.

Directions.—Take two or three pills going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use. The Liver pills may be used where purging simply is necessary. As an anti-bilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the Stomach.

WHEELER & WILSON

HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium

AT THE

WORLD'S FAIR,

JUST HELD IN LONDON, ENGLAND,

INDUSTRIAL EXPOSITION,

Where all the machines of Europe and America were in competition—also at the

PARIS, FRANCE, AND AT EVERY

UNITED STATES FAIR,

At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, aud durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street, Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS,* ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞ **Boxes containing a full assortment for the Country trade, supplied to order.**

Greatly improved for the coming season, yet greatly reduced in price.

BICKFORD & HUFFMAN'S WORD RENOWNED PREMIUM

IRON CYLINDER GRAIN DRILL,

WITH THE IMPROVED GUANO ATTACHMENT AND GRASS SEED SOWER.

APPEARANCE OF WHEAT WHEN SOWN BROADCAST.

It will sow Wheat, Rye, Oats, Barley, &c. in any given quantity. from 4 to 16 pecks to the acre.

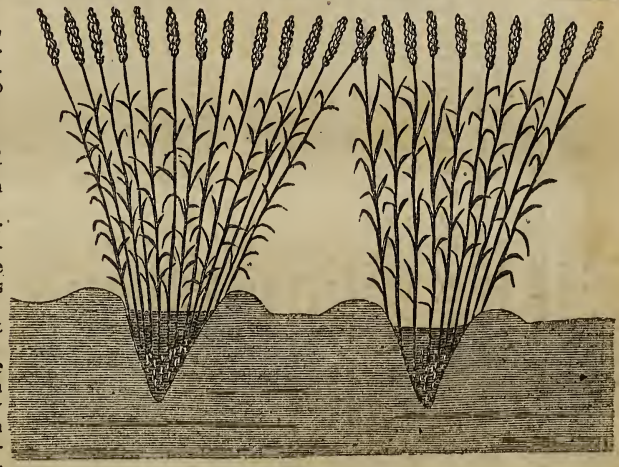

It will sow Guno and other Fertilizers, the desired quantity being regulated with perfect accuracy.

It will sow Corn or Beans in Drills, by simply shutting off the feed to as many tubes as you like.

It also sows Grass & Clover seed.

Thus you have in the Bickford & Huffman Drill a machine to sow any of your grain with greater regularity, guano and other fertilizers more perfectly and economically, and grass and clover seed broadcast behind the Drill, after the work of sowing and manuring is performed, more evenly than can be done by hand, and all with one man and team—and it is made a perfect broadcasting machine for either guano or grain, or both, by simply removing the tubes.

A full supply of Repairing parts always on hand and Repairing promptly and efficiently executed.

APPEARANCE OF WHEAT WHEN DRILLED.

PRICES—Delivered on Boat or Cars in Baltimore.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

S. T. 1866-X.
PLANTATION BITTERS

AGUA DE MAGNOLIA.

A toilet delight. Superior to any Cologne, used to bathe the face and person, to render the skin soft and fresh, to allay inflammation, to perfume clothing, for headache, &c. It is manufactured from the rich Southern Magnolia, and is obtaining a patronage quite unprecedented. It is a favorite with actresses and opera singers. It is sold by all dealers, at $1.00 in large bottles, and by DEMAS BARNES & Co., New York, Wholesale Agents.

Saratoga Spring Water, sold by all Druggists.

"Jes' so!"—"Exactly!" Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night, he took Plantation Bitters; if he lacked appetite, was weak, languid or mentally oppressed, he took Plantation Bitters; and they never failed to set him on his pins square and firm.

Few persons want any better authority; but as some may, just read the following:

" * * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGONER, Madrid, N. Y."

" * * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * The Plantation Bitters have cured me.
REV. C. A. MILLWOOD, New York City."

" * * * I had lost all appetite—was so weak and enervated I could hardly walk, and had a perfect dread of society. * * * The Plantation Bitters have s etme all right.
JAMES HEIMINWAY, St. Louis, Mo."

" * * * The Plantation Bitters have cured me of a derangement of the Kidneys and Urinary Organs, that distressed me for years. They act like a charm.
C. C. MOORE, 254 Broadway, N. Y."

Mrs. O. M. DEVOE, manager of the Union Home School for Soldiers' Children, says she "has given it to the weak and invalid children under her charge, with the most happy and gratifying results." We have received over a hundred reams of such certificates, but no advertisement is so effective as what people themselves say of a good article. Our fortune and our reputation is at stake. The original quality and high character of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a good article cannot be sold as low as a poor one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.
P. H. DRAKE & CO., New York City.

Saratoga Spring Water, sold by all Druggists.

It is most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. Y.

Saratoga Spring Water, sold by all Druggists.

OVER A MILLION DOLLARS SAVED!

Gentlemen:—"I had a negro man worth $1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of, without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
Montgomery, Ala., June 17, 1859. J. L. DOWNING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."
J. W. HEWITT,
Foreman for American, Wells, Fargo's and Harden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment.
Gloucester, Mass., Aug. 1, 1865. ED. SEELY."

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing the signiture of G. W. Westbrook, Chemist, and the *private* U. S. stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. *Look closely!*

Saratoga Spring Water, sold by all Druggists.

Who would not be beautiful? Who would not add to their beauty? What gives that marble purity and *distingue* appearance we observe upon the stage, and in the city belle? It is no longer a secret. They use Hagan's Magnolia Balm. Its continued use removes tan, freckles, pimples and roughness, from the face and hands, and leaves the complexion smooth, transparent, blooming and ravishing. Unlike many cosmetics, it contains no material injurious to the skin. Any Druggist will order it for you, if not on hand, at 50 cts. per bottle.
W. E. HAGAN, Troy, N. Y., Chemist.
DEMAS BARNES & CO., Wholesale Agents, N. Y.

Saratoga Spring Water, sold by all Druggists.

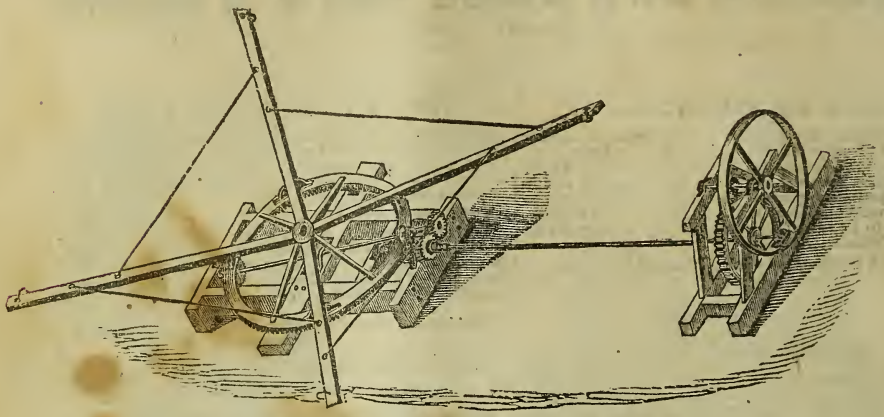

Heimstreet's inimitable Hair Coloring is not a dye. All instantaneous dyes are composed of *lunar caustic*, and more or less destroy the vitality and beauty of the hair. This is the original Hair Coloring, and has been growing in favor over twenty years. It restores gray hair to its natural color by gradual absorption, in a most remarkable manner. It is also a beautiful hair dressing. Sold in two sizes—50 cts. and $1—by all dealers. C. HEIMSTREET, Chemist.

Saratoga Spring Water, sold by all Druggists.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for Indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity makes it a cheap and reliable article for culinary purposes. Sold everywhere, at 50 cts. per bottle. Ask for "LYON'S" Pure Extract. Take no other.

Saratoga Spring Water, sold by all Druggists.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

Westcott's Adjustable Dash Churn.

A churn by this name, of which the above is a drawing, has been forwarded to us by the Seneca Falls Churn Manufacturing Company, and now on exhibition at this office.

The *Cultivator and Country Gentleman* speaking of this same Churn describes it as follows:

"The principle involved is that of the old dash churn, with certain contrivances intended to reduce the labor required, and to perfect the process of butter making. For these purposes, the dasher is double—the upper one adjustable, according to quantity of contents, so as to be placed at the top of the milk, when the lower is about mid-way between bottom and top. This double dasher is worked by a lever, so that the motion is like that of a pump handle, with a spring to equalize the force required for the upward and downward stroke. The mode of constructing the dasher reduces by one-half, the length of stroke required, and it can be correspondingly increased in rapidity. "Every churn is made of the very best white oak, and in the best manner, and warranted to produce more butter, of a better quality, and with less labor, than any other churn in use. Five sizes are manufactured, holding from 5 to 30 gallons." A neat dairy thermometer is sent us with the churn, also a tin can, for the purpose of inserting in the milk or cream, with hot or cold water, to temper it properly before churning."

We propose, in a few days, to make a trial of its quality, and will give the result in our next issue. Retail price from $8 to $16, according to capacity.

A SONNET.

Tell me, ye messengers of light,
That dwell within the magic dome,
And pour your silvery radiance down
On many a happy home,
What is this pure and calm delight,
That warms the cot and gilds the crown,
And seems an effluence from above?
Oh, tell me what is love?
With joy the deep cerulean rang,
As stars, in hapyy concord, sang—
Attuned in love—
"The mystic gem, that glows a shrine
In many a heart, is love divine;
For 'God is love!'"

Egyptian Corn.—As much has been said of this corn lately, we quote the following to show how it is regarded at home.

We are in receipt of several inquiries with regard to the value and culture of Egyptian corn. We can only say that some people are pleased with it, and others regard it as a humbug. It is a matter of taste, therefore, whether valuable or otherwise. We have heard it said, however, that if persons desire to have it ground into meal, they will have to wait till mill-burs are made of a harder substance than at present, as the corn is a little harder than the stones in common use. Our friend Gabriel Stickley, (who, by the way, is one of our best farmers,) has discovered a heretofore unknown property in Egyption corn, which is, its medicinal virtue as an antidote for hog cholera. He says it is so hard, that the labor that a hog has to undergo in masticating it, puts him in a profuse perspiration from the tip of his tail, which, as in the Thomsonian system, knocks all diseases higher than a kite.—*Abingdon Virginian.*

SORGO.

The manufacture of Sorgo molasses from Chinese sugar-cane, in Northampton county, Pa., is increasing largely, and seems to be a paying crop. Last fall, William H. Coleman, of Bethlehem township, made nearly 1,200 gallons, which he sold at $1 per gallon. He has a crusher and evaporator, the only one we believe in the county. In addition to making the 1,200 gallons for himself, he manufactured large quantities for his neighbors, at a cost to them of 30 cents per gallon. It is calculated that an acre will produce about 125 gallons of molasses; the cost of manufacture being 30 cents per gallon, and the molasses selling for $1 per gallon, the amount realized from an acre would be $87.50, a profitable crop. We have no doubt that in a few years large quantities of this cane will be grown in the county, and we will be enabled to manufacture our sugar at home, and not be compelled to go elsewhere for it.—*Ex.*

The Flowers Have Gone to Heaven.

A little girl with mild blue eye
Once whispered in her mother's ear,
"Where would I go if I should die,
As did our little Willie dear!"

The mother gently kissed her cheek,
And told her of the better land—
Where dwell the beautiful and meek,
In one angelic, seraph band.

The autumn winds blew cold and drear,
The flowers strewed the ground at even;
The child brushed off a pearly tear,
And said, "The flowers have gone to Heaven."

Scab in Sheep.—It is said a wash composed of steeped tobacco, turpentine, and oil of vitriol will cure this disease.

ROSE ASTER, ONE-EIGHTH NATURAL SIZE.

No class of flowers has been so much improved within the past twenty years as the different varieties of the Aster, and none has advanced so rapidly in popular favor. They are now as double as the Chrysanthemum or the Dahlia, and almost as large and showy as the Pæony, and constitute the principal adornment of our gardens during the autumn months. Give the Aster a deep, rich soil, mulching with coarse manure is very beneficial. Plants may be grown in the hot-bed, cold-frame, or a seed-bed in the garden. They can be transplanted very easily. About ten inches apart is the proper distance for making a showy bed of the large varieties; the dwarf kinds may be set six inches, and the *Chrysanthemum-flowered* a little more. The tall, large-flowered varieties need a little support, as during storms of rain and wind they are easily blown down when in blossom. Set a stick in the ground, close to the roots, and fasten the stem to it about the centre. The top of the stake should be about six inches below the flowers, and the habit of the plant will enable it to decide whether tying will be necessary. We are indebted for the above illustration to Mr. James Vick, of Rochester, N. Y.,

His beautiful illustrated catalogue is now issued, at 15 cts., post paid.

A Waterfall.

Take four pounds of rags and a bunch of shavings,
An old tin pan, and a bunch of straw;
Then steal an old hat of somebody's leavings,
And swear it's your own, to get clear of the law;
Next get an old stocking, and stuff it with paper,
And if it is possible, put in a mole;
Then get some old china, and a nutmeg grater,
And make them all up in a nice little roll;
Put all these things in a net of red,
And glistening beads must cover them all;
Then fasten it on the back of your head,
And you will have—a waterfall.

"Won't you take half of this poor apple?" said a pretty damsel. "No, I thank you; I would prefer a *better half*." Eliza blushed, and referred him to her papa.

A widow said one day to her daughter: "When you are of my age, you will be dreaming of a husband." "Yes, mamma," replied the young lady, "for the second time."

Those who keep their buggies and carriages in good order, should place a wrench on every nut at at least once a month. This will save nuts, save bolts and prevent rattling and wear and tear.

Come in God's freedom of the souls set free;
No startling touch, no vision dread be mine—
Enfold me in thy presence—let me be
Soul of thy soul in all its life divine.
Come to me, loved one,
Whisper—thine, still thine!

HORSE-POWER.

When Watt began to introduce his steam engines, he wished to be able to state their power as compared with that of horses, which were then generally employed for driving mills. He accordingly made a series of experiments, which led him to the conclusion that the average power of a horse was sufficient to raise about 33,000 lbs. one foot in vertical height per minute, and this has been adopted in England and this country as the general measure of power.

A waterfall has one horse power for every 33,000 lbs. of water flowing in the stream per minute, for each foot of fall. To compute the power of a stream, therefore, multiply the area of its cross sectiou in feet by the velocity in feet per minute, and we have the number of cubic feet flowing along the stream per minute. Multiply this by 6½, the number of pounds in a cubic foot of water, and this by the vertical fall in feet, and we have the foot-pounds per minute of the fall; dividing by 33,000 gives us the horse power.

For example :—A stream flows through a flume 10 feet wide, and the depth of the water is 4 feet; the area of the cross section will be 40 feet. The velocity is 150 feet per minute—40x150=6000= the cubic feet of water flowing per minute.—6000x-62½=375,000= the pounds of water flowing per minute. The fall is 10 feet; 10x375,000= the foot-pounds of the waterfall. Divide 3, 750,000 by 33,-000, and we have 113 21-33 as the horse power of the fall.

The power of a steam engine is calculated by multiplying together the area of the piston in inches, the mean pressure in pounds per square inch, the length of the stroke in feet, and the number of strokes per minute, and dividing by 33,000.

Water wheels yield from 50 to 91 per cent. of the water. The actual power of a steam engine is less than the indicated power, owing to a loss from friction; the amount of this loss varies with the arrangement of the engine and the perfection of the workmanship.

TWO AGRICULTURAL PAPERS FOR $3.

THE

"SOUTHERN CULTIVATOR."

D. REDMOND & WM. N. WHITE, Editors.

ESTABLISHED IN 1843!

Volume 24 Commences January, 1866.

Monthly, at.....$2.00 per annum.
Six Copies for.....$10, in Advance.

By special arrangement, with the "MARYLAND FARMER," another excellent Rural Monthly, published in Baltimore at $1.50, both papers will be sent one year for $3.00—six of each for $16—10 of each for $25—giving each subscriber in this case, both papers for $2.50.

Address, WM. N. WHITE,
Athens, Ga.

Or office "Maryland Farmer," Baltimore.

NOTICE TO SUBSCRIBERS.

There still remains a few names on our books whose term of subscription expired in December last. We have continued sending the FARMER, believing that they had neglected to remit the amount. We would remind them that publishing a magazine of the magnitude of ours is an expensive business.

Persons wishing to *discontinue* the FARMER can do so by returning the No. marked REFUSED.

☞ The Second National Trial of Plows, Harrows and Cultivators will be held at the city of Utica, New York, commencing Tuesday, May 7th, 1867, under the auspices of the New York State Agricultural Society.

TWO FIRST-CLASS RURAL JOURNALS FOR $3.50.

☞ A Great offer to Planters, Farmers, Graziers, Wool Growers and Horticulturists!

THE MARYLAND FARMER,

(A Standard Agricultural Monthly, Price $1.50,)

AND

MOORE'S RURAL NEW-YORKER,

The Leading Agricultural, Literary & Family Weekly--price $3,

FURNISHED ONE YEAR FOR $3.50.

MOORE'S RURAL NEW-YORKER,

THE MOST POPULAR WEEKLY

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T. MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS,

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country*. The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master—while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

Terms---$3 a Year; 10 copies for $25, and any greater number at same rate—only $2.50 per copy.

☞Subscriptions can commence at any time.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - - -	$1.50
6 COPIES	" - - - - -	7.50
10 COPIES	" - - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,

Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

ANDREW COE'S
SUPER-PHOSPHATE OF LIME.

Letter from Dr. A. Snowden Piggot.

ANALYTICAL LABORATORY, 50 S. Gay Street, Baltimore, January 12th, 1867.

Messrs. HERBERT & HAIRSTON, Agents, Baltimore, Md.

Gentlemen:—Mr. Andrew Coe has shown me a sample of Super-Phosphate of Lime, and has described to me its composition and the method of its preparation. The materials of which it is composed are all valuable, and no manure made from them, and compounded as stated to me, can fail to be a Fertilizer of a very high order of excelence.

Very respectfully, your obedient servant,
A. SNOWDEN PIGGOT.

MARYLAND
AGRICULTURAL COLLEGE.

The duties of this Institution will be resumed on MONDAY, 25th of March.

While it is designed to make instruction in the theory and practice of Agriculture the peculiar feature of the College, provision is made for a full course of Collegiate instruction, embracing the Latin, Greek, French, German, Italian and Spanish languages, or any of them, a course of Mathematics, Mental and Moral Science, History, and the study of the English Language and Literature.

Natural History and Natural Philosophy in their several branches will have special attention. Military Tactics will be taught.

There will be no Preparatory School, but a selected English and Scientific Course may be taken at the student's option. No one received under fourteen years of age.

For a Circular and further information, address
N. B. WORTHINGTON, Register, &c.,
Office of American Farmer,
martf Baltimore.

Always Take the Best!

MOORE'S

RURAL NEW-YORKER,

THE MOST POPULAR NATIONAL

Agricultural, Literary and Family Weekly,

FOR BOTH TOWN AND COUNTRY.

THE RURAL is the Standard in its Sphere of Journalism, being the largest-circulating Paper of its Class in the World —best evidence of *Intrinsic Merit and Superiority.* In variety of Practical, Useful, Entertaining and Timely Reading it has no equal, its ample pages comprising Departments devoted to or treating upon

AGRICULTURE,	LITERATURE,
SHEEP HUSBANDRY,	ARTS AND SCIENCES,
HORTICULTURE,	EDUCATION,
ARCHITECTURE,	GENERAL NEWS,
DOMESTIC ECONOMY,	MARKET REPORTS, &c.

With Illustrations, Tales, Sketches, Poetry, Rubuses, Enigmas, &c., &c.

Every Farmer, Planter, Stock and Wool Grower, Horticulturist, or head of a family in the land wants THE RURAL. It is ably edited, neatly printed, profusely illustrated and *adapted to the whole country*—having subscribers and enthusiastic admirers in the North, South, East and West. The Department of *Sheep Husbandry*, Edited by the Hon. H. S. RANDALL, LL. D., (author of "The Practical Shepherd, &c.,) is alone worth many times the price of the paper to any flock-master. Its *Southern Corresponding Editor* is the Hon. T. C. PETERS, former Pres't N. Y. State Ag. Society, now of Maryland. Remember that the RURAL is not a *monthly*, but a large and Beautiful WEEKLY of Eight Double Quarto Pages.

TERMS—Only $3 a year— less to clubs, and the most liberal inducements to club agents. Specimens, show Bills, Premium Lists, &c. sent free. The second Quarter of Vol. XVII commenced April 6, and hence now is a good time to subscribe.

☞ The 13 numbers of the first Quarter (Jan. to April,) sent free to any Post Master, Planter, or Farmer disposed to aid in introducing the RURAL to notice and support.

Address D. D. T. MOORE, Rochester, N. Y.

WHAT THE PRESS SAYS.

MOORE'S RURAL is full of variety, original and select. We confess to a surprise at the variety and richness of its contents, bountifully illustrated as it is. No paper on our exchange list come so near our ideas of perfection, for a secular family paper. It maintains a high moral standard. —*New York Observer.*

THE RURAL is not only a favorite in the rural districts, but deservedly popular in the cities. No newspaper in this or any other country has ever run a more prosperous career. —*Louisville Journal.*

MOORE'S RURAL NEW-YORKER comes to us freighted with information valuable to all who take an interest in the improvements of the times. We commend it.—*New York World.*

A MODEL PAPER for the Farmer's family. If we were to start a periodical again it would be in imitation of the RURAL NEW-YORKER.—*American Agriculturist.*

SHEEP AND WOOL are paying institutions, and it will *pay* every Sheep-breeder or Wool-grower to buy and read THE PRACTICAL SHEPHERD, by the Hon. H. S. RANDALL, LL. D., author of "Sheep Husbandry in the South," &c. (and editor of Sheep Husbandry Department of MOORE'S RURAL NEW-YORKER, the leading and largest circulating Agricultural, Literary and Family Newspaper in America.) The P. S. is a large 12mo. volume of 454 pages, illustrated, printed, and bound in superior style. It is the best and most popular work on American Sheep Husbandry ever published, and is having an immense sale. Sold only by the publisher and his Agents. Price, postpaid, $2. Published by

D. D. T. MOORE, Editor Rural New-Yorker,
Rochester, New York.

The PRACTICAL SHEPHERD can be procured at the office of *Maryland Farmer*, Baltimore. Price $2, postpaid. ml

THE SOUTHERN CULTIVATOR:

A Practical and Scientific Journal, for the Plantation, the Garden, and the Family Circle.

The 25th volume of this old Southern favorite, commences with the January No. 1867. It is the best agricultural journal published in this country. We cheerfully recommend it to our farmers as worthy of their patronage—and as a good advertising medium for business people. Published by Wm. N. White, *Athens, Georgia*, at $2 per annum.

The Maryland Farmer and *Southern Cultivator*, both one year for $3.

Great Improvement in Pumps!

CLARK'S PATENT
Double Acting Lift & Force Pumps.

This Pump is warranted to be superior in every respect to all others—the packing being composed of gum instead of leather—the plunger of Tera Cotta ware, twice burnt, glazed smooth as glass, and hard as flint, thereby creating but little friction and no wear at all. The valves are also of gum, which, together with its peculiar packing, keep it always in working order, even if it stand for years without use, being composed of no shrinking material. This Pump is adapted to all purposes.

Manufactured by

L. P. CLARK,

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's

REAPER AND MOWER.

This Cut Gear is regarded by all unprejudiced minds as the greatest improvement ever made of Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

Also, manufacturers of the celebrated

BUCKEYE WHEEL HORSE RAKE

(The only reliable Self-Delivering Rake known.)

Threshers and Cleaners,

Wheat Drills, Horse Powers,

Fans, Straw Cutters, Corn Shellers,

Tingley's Improved Butter Churn, and Agricultural Implements in general.

Also, Sole Agents for Maryland and the South, for the sale of the

VICTOR CANE MILL,

AND

COOK EVAPORATOR.

Having all the patterns for the BUCKEYE REAPER and MOWER, we are prepared to fill orders for extras, or repair Machines at short notice, and on reasonable terms.

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore,

And by Dealers in general throughout the country.

The Material of which Moro Phillips' Phosphate is manufactured contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The ammonia present gives it great additional fertilizing value.

Six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

SORGO MACHINERY,
FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,
AND THEIR PREMIUM
POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.

J. WILKINSON,

Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

PRACTICAL SHEPHERD.

This is the latest and best of DR. RANDALL'S works on Sheep Husbandry—the Standard Authority on this subject. It tells all about the Breeding, Management and Diseases of Sheep, and should be in the hands of every flock-master on the American Continent. Over 20,000 copies already sold. One large 12mo. volume of 454 pages—printed, illustrated and bound in superior style. Sent post paid on receipt of price—$2. Address,
"MARYLAND FARMER,"

"YOUNG AMERICA"

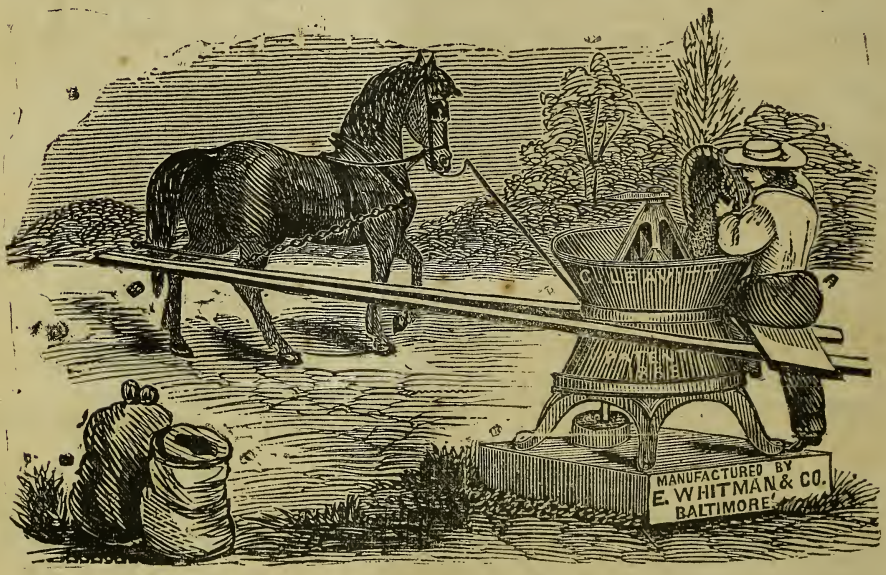

CORN AND COB MILL.

MANUFACTURED BY

E. WHITMAN & SONS,

Nos. 22 & 24 S. Calvert Street,

BALTIMORE, MD.

This Mill is so far superior to all others that we do not consider that it has any competitor in the field.

The advantages of the Young America Mill over all others are so great that the other Mills have gone entirely out of use, except when purchased by those unacquainted with the merits of Corn and Cob Mills.

The facility with which the plates are changed, and the trifling cost of same, after they may have been worn by constant use, enables the farmer to always keep this Mill in perfect order.

☞PRICE, INCLUDING PLATES, $65.

TRIAL OF CORN & COB MILLS AT THE NORTH CAROLINA STATE FAIR.

The following Table shows the Time occupied by each of the Mills on Exhibition, in Grinding half bushel of Corn and Cobs.

YOUNG AMERICA, 2 minutes and 40 seconds.

ap-2t Baltimore.

EVERY FARMER SHOULD KNOW THAT
DR. QUINN'S
AGUE & FEVER PILLS,
(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

The Union Wringer though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

de.ly AND AGENTS IN GENERAL.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S AMERICAN Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and howsoever quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.—The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and inferior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: "*Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors.*" This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE & LUNG SYRUP.

☞**Sold by Dealers Everywhere.** oct-1y

☞The Proprietors will forward, per mail, to any part of the United States or the British Provinces, one box of *LIVER PILLS* on the receipt of order enclosing twelve three-cent P. O. Stamps, or one vial of *VERMIFUGE* on receipt of thirteen stamps.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

MONTGOMERY'S
Double Screened Rockaway Wheat Fans.

Awarded 115 Premiums.

8 Silver Medals.

We would call the attention of farmers and planters to the fact that we now have the *sole control* of the above celebrated Wheat Fans, and shall be glad to receive their orders for the same. We can also furnish them in quantity to the trade. To those who want a really good, strong and durable Fan, we recommend this as unequaled by any other ever introduced. Prices—No. 1, $44. No. 2, $42.

E. WHITMAN & SONS,
22 and 24 South Calvert Street.

"Having dissolved my connection with the firm of Montgomery, Slade & Co., I have made arrangements with Messrs. Whitman & Sons, who will have sole control of my Patent Rockaway Wheat Fans, and I hereby request my former customers to forward their orders to them, assuring them, that the Fans will be made under my own supervision."
J. MONTGOMERY."

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our **Dr. McLANE'S Celebrated VERMIFUGE**, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S Celebrated LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine DR. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DR. McLANE'S CELEBRATED LIVER PILLS,

FOR THE CURE OF

Heptatis or Liver Complaint, Dyspepsia and Sick Headache.

In offering to the public DR. McLANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and peculiarly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, requires that some remedy should be provided, that would not *in the least impair the constitution and yet be safe and effectual*. That such is the true character of McLANE'S LIVER PILLS, there can be no doubt. The testimony we lay before you, and the great success which has *invariably* attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these Pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

DR. McLANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day,) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the *regular execution* of which depends not only the general health of the body, but the powers of the *stomach, bowels, brains*, and the whole nervous system, shows its vast and vital importance to human health.—When the Liver is seriously diseased, it in fact not only *deranges the vital functions of the body*, but exercises a powerful influence over the mind and its operations, which cannot easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the *passions* of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools terms hypochondriacs, from the simple fact of a *diseased state of the Liver*. I have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the liver. I will enumerate some of them. Indigestion, Stoppage of the Menses, Deranged state of the Bowels, Irritable and Vindictive Feelings and Passions, from trifling and inadequate causes, of which we afterwards feel ashamed; last, though not least, more than *three-fourths* of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver. This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred when few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Ague and Fever.—DR. McLANE'S LIVER PILLS *in cases of Ague and Fever*, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them *a fair trial*.

Direetions.—Take two or three pills going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use. The Liver pills may be used where purging simply is necessary. As an anti-bilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the Stomach.

WHEELER & WILSON

HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium

AT THE

WORLD'S FAIR,

JUST HELD IN LONDON, ENGLAND,

INDUSTRIAL EXPOSITION,

Where all the machines of Europe and America were in competition—also at the

PARIS, FRANCE, AND AT EVERY

UNITED STATES FAIR,

At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. febl-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use:* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS,* ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞ Boxes containing a full assortment for the Country trade, supplied to order.

Greatly improved for the coming season, yet greatly reduced in price.

BICKFORD & HUFFMAN'S WORD RENOWNED PREMIUM

IRON CYLINDER GRAIN DRILL,

WITH THE IMPROVED GUANO ATTACHMENT AND GRASS SEED SOWER.

APPEARANCE OF WHEAT WHEN SOWN BROADCAST.

It will sow Wheat, Rye, Oats, Barley, &c. in any given quantity. from 4 to 16 pecks to the acre.

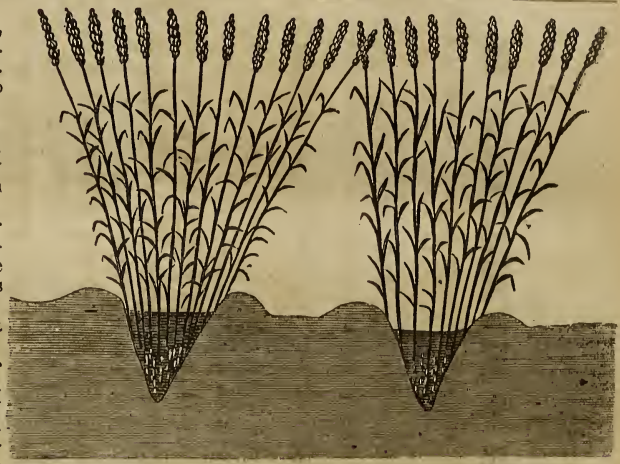

It will sow Guno and other Fertilizers, the desired quantity being regulated with perfect accuracy.

It will sow Corn or Beans in Drills, by simply shutting off the feed to as many tubes as you like.

It also sows Grass & Clover seed.

Thus you have in the Bickford & Huffman Drill a machine to sow any of your grain with greater regularity, guano and other fertilizers more perfectly and economically, and grass and clover seed broadcast behind the Drill, after the work of sowing and manuring is performed, more evenly than can be done by hand, and all with one man and team—and it is made a perfect broadcasting machine for either guano or grain, or both, by simply removing the tubes.

A full supply of Repairing parts always on hand and Repairing promptly and efficiently executed.

BUCKEYE MOWER & REAPER

STILL THE

CHAMPION MACHINE

OF THE AGE.

MANUFACTURED BY

C. AULTMAN & CO., Canton, Ohio.

Of the Buckeye as a *MOWER*, it is only necessary to say, that in addition to the many Gold Medals received during the few years of its existence, it was awarded the

First Premium Grand Gold Medal

in the FIRST CLASS, at the greatest field trial ever had in this country, held at Auburn, N. Y., in July, 1866. There were fifty-nine Machines entered, and the committee gave it "SUPERIORITY over all competitors in *perfection of work in all kinds of grass, and on every variety of surface, lightness of draft, ease of management, perfection of mechanical construction, simplicity, strength, and durability.*" The various improvements put on the Buckeye recently for *Reaping purposes*, make it in all respects the most desirable Reaper in the market. ☞ On opposite page is shown our DROPPER, which, for lightness of draft, simplicity of construction, convenience and perfection of work, it has no competitor. It constitutes two separate machines in one, differing from *all* others, having two cutting bars, separate knives, &c., one cutting 4 feet 6 inches in grass, a perfect mower, the other 5 feet 10 inches in grain—a complete and perfect Reaper—each doing the work for which it is designed, in the *best* manner. We have various styles and sizes of them as made by the above celebrated firm, and invite those wanting

A FIRST CLASS MACHINE,

to call and examine before purchasing. We are prepared to furnish all kinds of extras and repairs for the Buckeye at the lowest rates. Those having Machines to repair, will bring them in early.

☞ Prices have been reduced. Send for Catalogue and new Price List.

m-tf

Dropper in the Field, Side View.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

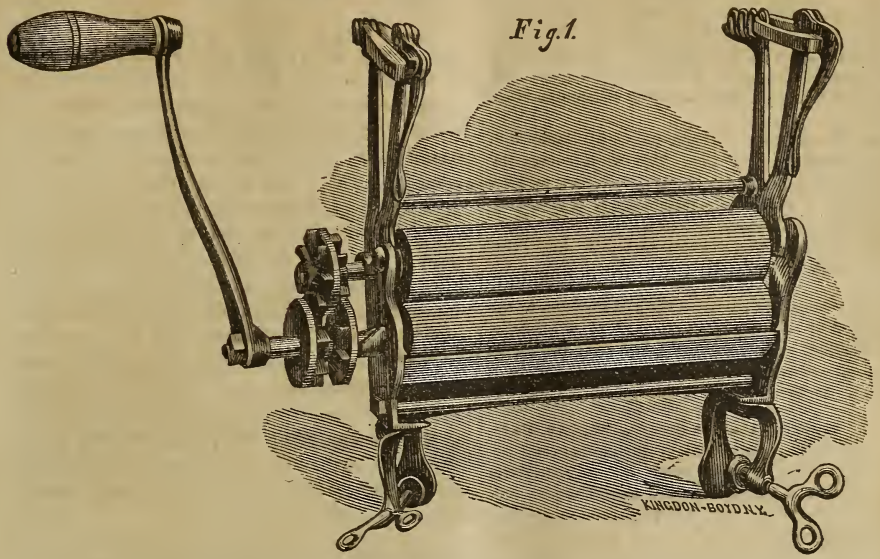

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

CHALLENGE WRINGER.

Fig. 1.

The above cut is an illustration of the Challenge Wringer, which has been selected by the United States Commissioners for the Paris Exposition, now being held under the auspices of the French government.

The advantages claimed for it by the manufacturers are: That it is perfectly self-adjusting; is made wholly of wrought and malleable iron; is protected from corrosion by a heavy coating of tin; is very simple in construction; is fastened in its place by swivel clamps; is provided with brass-lined boxes; cog-wheels are applied; the pressure can be instantly removed from the rolls, when not in use; white rubber is used for the rolls, of the very best quality, and other advantages which can be ascertained by addressing the manufacturers, S. W. Palmer & Co., Auburn, New York.

A VISIT.—We recently received a call from our friend the Younger TUCKER, of the firm of Luther Tucker & Son, editors of *The Cultivator and Country Gentleman*, published at Albany, New York.—During his brief sojourn in our city, he was, with his lady, the guest of Ross Winans, Esq., whose extensive Dairy and Hay Farm he visited as one of the great attractions of our vicinty. Mr. Tucker is on a brief visit to Kentucky and Ohio.

Okra Stalks—Box 4044 Postoffice, New York.

Tingley Churn—Buckeye Wheel Horse Rake—John M. Griffith & Co., Baltimore.

THE WESTMINSTER REVIEW FOR APRIL is a very interesting number. The first article gives a sketch of the negotiations and campaigns that lost Venetia to Austria. It shows the singular and almost fatal incapacity of the Chief commanders of both the army and navy of Italy, who suffered defeat in the only two great encounters by land and sea during the short summer war.

The second article is a survey of an ultra-Protestant book entitled the "Papal Drama." "Thomas Hobbes," the famous English infidel philosopher, next receives attention, and his life and writings are commented upon. We are then treated to a discussion of "Contemporary and Music and Musical Literature." The fourth, Dixon's "New America," is next taken up, and many interesting facts are given concerning the Shakers, the Mormons, the Tunkers, the Spiritualists and other eccentric sects. "Mrs. Swinbaume's Poetry" is criticised without acrimony, but its choice of subjects and occasional method of treatment meets with the condemnation it could hardly fail to receive from all who have a proper regard for public decency, while its originality and nervous expression are highly commended. Of the last article, "The Hopes and Fears of Reformers," we can say nothing, as we have not read it. Published by Leonard Scott & Co., New York, $4 per annum.

BICKFORD & HUFFMAN'S GRAIN DRILL.—The general agent for this celebrated Grain Drill, W. L. Buckingham, 59½ South Charles street, Baltimore, is now prepared to receive orders from farmers and planters for this machine, which he has christened "The Farmer's Favorite." Consult his advertisement for list of prices.

NEW BOOKS.

We call especial attention of Fruit-lovers and Fruit-growers to a new work, titled "AMERICAN POMOLOGY—APPLES," by Dr. John A. Warder—293 illustrations. Published by Orange Judd & Co., New York. Price $3. We have examined this book, and cheerfully recommend it to the public.

Also the "SMALL FRUIT CULTURIST"—by Andrew S. Fuller—published by the same. The work covers the whole ground of propagation, culture, varieties, packing for market, &c., of Barberries, Strawberries, Raspberries, Blackberries, Dwarf Cherries, Currants, Gooseberries, Cranberries, Huckleberries, Cornelian Cherries, &c. Price $1.50. Address as above.

THE NORTH CAROLINA ARGUS.—We call attention to the advertisement of this weekly, published at Wadesboro, N. C., and call the attention of our merchants, and others to it as a good advertising medium to secure the trade of that section. Address, F. Darley, Wadesboro', N. C.

REAPERS, MOWERS, GRAIN DRILLS, WHEAT FANS, GRAIN CRADLES, &c., are offered in quantities to suit farmers and the trade by E. Whitman & Sons, Baltimore, Md. Their stock of implements and machinery is very large and varied, which they are prepared to sell at the lowest market prices.

We would call the attention of our readers to the notice of Children's SILVER Tipped Shoes. They are a decided ornament to a shoe, and, considering their great utility, saving at least one half the expense in keeping children supplied with shoes, we would recommend them to all who buy shoes.—*Boston Journal.*

A FINE FIELD OF WHEAT.—Wm. Caulk, Esq., at "Sherwood Forest," says the St. Michael's *Comet*, has perhaps the finest field of wheat in Talbot County. We were shown a stalk taken from there on Sunday May 6th measuring 3 feet 2½ inches in length.

STARCH IN POTATOES.—Dr. Nessler of the Duchy of Baden has shown by analysis that the nutritive value of potatoes varies with their size, and in favor of increased bulk. Potatoes about two inches in diameter contain 17.2 per cent. of starch, and those about the size of walnuts 14.6 per cent. We infer that full growth is necessary to full development of starch.

O'er all the world four things we find
That leave no mark or trace behind;
The eagle soaring bold and free,
The ship which cuts the foaming sea,
The snake as o'er the rock he slips,
And a lover's kiss on a lady's lips.

The best bridal envelopes—ladies' night gowns.

Almost every young lady is public-spirited enough to have her father's house used as a court-house.

A cross-grained old bachelor says that "tin" is the favorite *belle* metal now-a-days.

SILVER TIPS FOR CHILDREN'S SHOES.

They protect the toe from wear, and are highly ornamental. Applied to the most genteel shoes made. Buy no others. je-3t

POULTRY ITEMS.

The unnatural practice of fattening poultry by cramming is very common in France, and is described as follows: The fowls are closely confined in dark pens, where they cannot move, and get but little air. Aided by the light of a lamp, the poultryman takes three fowls at once, ties them altogether by the feet, and resting them on his knees, forces paste pellets down their throats every twenty-four hours. The finer specimens of poulardes (hens) attain a weight of upwards of eight pounds, the cocks, thirteen pounds; and these weights are sometimes exceeded. Another mode of artificial feeding termed *entonnage*, is by causing the fowls to swallow, by means of a funnel inserted into the mouth, farinaceous substances in a liquid state. In some instances, "vermieres" are established in France for the purpose of breeding maggots from putrid flesh to feed poultry on. It might not be wise for epicures to inquire too particularly into the origin of some of their favorite viands.

Martin Doyle, the cottage economist of Ireland, in his "Hints to Small Holders," observes that a few cocks and hens, if they be prevented from scratching in the garden, are useful and appropriate stock for a cottage, the warmth of which causes hens to lay eggs in winter—no trifling advantage to children when milk is scarce. The French, who are extremely fond of eggs, and contrive to have them in great abundance, keep their hens so warm that they have fresh eggs even in winter. Now, in our country, in a gentleman's fowl yard, there is not an egg to be got in cold weather, but the warmth of the poor man's cabin insures him an egg even in the most ungenial season.

Important to Tobacco Growers!

—:o:—

Andrew Coe's Superphosphate of Lime.

—:o:—

This superior fertilizer has been thoroughly tested on the Tobacco crop by many of the most extensive and experienced growers of Tobacco, and has universally given the greatest satisfaction. As an application for Tobacco, it has no superior, producing in many instances most wonderful results, and that it does produce such results is a matter of no surprise, when we bear in mind the ingredients of which it is composed:—Raw unfermented Bone, with Sulphuric Acid to reduce a sufficient portion of the Bone to a soluble form; Blood and Meat dried without any decomposition taking place—consequently the Bone, Blood and Meat hold all the fertilizing qualities they ever contained.

This formula is strictly and honestly observed.

Thomas Claggett, Esq., of Frederick county, Md., one of the most successful Tobacco growers of the county, in a letter of January 10th, 1867, says: "I have used Andrew Coe's Snperphosphate of Lime on my Tobacco crops, and its action has been better than from any fertilizer I ever used, proving better than Peruvian Guano, and I can with confidence recommend it to the farming community."

John T. Williams, Esq., of Ijamsville, Md., in a letter of January 5th, 1867, says: "I used Andrew Coe's Superphosphate of Lime on my Tobacco crop last spring, and the result was perfectly satisfactory, and I would recommend it to farmers for that crop."

Any further information desired will be furnished by

HERBERT & HAIRSTON, Agents,

No. 10 Camden Street, Baltimore,

Who has constantly on hand a supply of this valuable fertilizer. 1t

FOR FRUIT LOVERS AND FRUIT GROWERS.
Just Published

BY ORANGE JUDD & CO.,

No. 41 Park Row, New York.

AMERICAN POMOLOGY.

APPLES.

By Doct. JOHN. A. WARDER,

President Ohio Pomological Society; Vice President American Pomological Society, etc.

293 Illustrations.

To pomologists a work by Dr. Warder will need no commendation. Though a citizen of Ohio, he is so sure to be at any pomological gathering, be it East or West, that the whole country claims him, and if any one has a right to entitle his work *American* Pomology it is certainly Dr. Warder. In this work the author has attempted the difficult task of bringing apples into something like order.

This volume has about 750 pages, the first 375 of which are devoted to the discussion of the general subjects of propagation, nursery culture, selection and planting, cultivation of orchards, care of fruit, insects, and the like; the remainder is occupied with descriptions of apples. With the richness of material at hand, the trouble was to decide what to leave out. It will be found that while the old and standard varieties are not neglected, the new and promising sorts, especially those of the South and West, have prominence. A list of selections for different localities by eminent orchardists is a valuable portion of the volume, while the Analytical Index or *Catalogue Raisonne*, as the French would say, is the most extended American fruit list ever published, and gives evidence of a fearful amount of labor.

CONTENTS: I. Introductory.—II. History of the Apple.—III. Propagatiou. Buds and Cuttings, Grafting, Budding, The Nursery.—IV. Dwarfing.—V. Diseases.—VI. The Site for an Orchard.—VII. Preparation of the Soil for an Orchard.—VIII. Selection and Planting.—IX. Culture, etc.—X. Philosophy of Pruning.—XI. Thinning.—XII. Ripening and Preserving Fruits.—XIII. and XIV. Insects.—XV. Characters of Fruits and Their Value—Terms Used.—XVI. Classification. Necessity for, Basis of, Characters, Shape, Its Regularity, Flavor, Color, Their Several Values, etc., Description of Apples.—XVII. Fruit Lists—Catalogue and Index of Apples.

SMALL FRUIT CULTURIST.

By ANDREW S. FULLER,

PRACTICAL HORTICULTURIST, RIDGEWOOD, BERGEN CO., N. J.

A new work, and the only one devoted to Small Fruits. Special treatises of this kind have the advantage that the author can more thoroughly discuss his subject, and go into greater detail, than in a work embracing both large and small fruits. The work covers the whole ground of Propagation, Culture, Varieties, Packing for Market, etc.

We predict that this work will bring Mr. Fuller many enemies, as he has given his opinion about varieties without reserve. On the other hand it will the more strongly endear him to all true lovers of horticulture, as these wish to have the merits of fruit given without reference to the persons who introduce them.

While very full on all the small fruits, the Currants and Raspberries have been more carefully elaborated than ever before, and in this important part of his book, the author has had the invaluable counsel of Charles Downing. The chapter on gathering and packing fruit is a valuable one, and in it are figured all the baskets and boxes now in common use. The book is very finely and thoroughly illustrated, and makes an admirable companion to his Grape Culturist.

SENT POST-PAID. PRICE 1.50.

Always Take the Best!

MOORE'S
RURAL NEW-YORKER,

THE MOST POPULAR NATIONAL

Agricultural, Literary and Family Weekly,

FOR BOTH TOWN AND COUNTRY.

THE RURAL is the Standard in its Sphere of Journalism, being the largest-circulating Paper of its Class in the World —best evidence of *Intrinsic Merit and Superiority.* In variety of Practical, Useful, Entertaining and Timely Reading it has no equal, its ample pages comprising Departments devoted to or treating upon

AGRICULTURE,	LITERATURE,
SHEEP HUSBANDRY,	ARTS AND SCIENCES,
HORTICULTURE,	EDUCATION,
ARCHITECTURE,	GENERAL NEWS,
DOMESTIC ECONOMY,	MARKET REPORTS, &c.

With Illustrations, Tales, Sketches, Poetry, Rubuses, Enigmas, &c., &c.

Every Farmer, Planter, Stock and Wool Grower, Horticulturist, or head of a family in the land wants THE RURAL. It is ably edited, neatly printed, profusely illustrated and *adapted to the whole country*—having subscribers and enthusiastic admirers in the North, South, East and West. The Department of *Sheep Husbandry*, Edited by the Hon. H. S. RANDALL, LL. D., (author of "The Practical Shepherd, &c,.) is alone worth many times the price of the paper to any flock-master. Its *Southern Corresponding Editor* is the Hon. T. C. PETERS, former Pres't N. Y. State Ag. Society, now of Maryland. Remember that the RURAL is not a *monthly*, but a large and Beautiful WEEKLY of Eight Double Quarto Pages.

TERMS—Only $3 a year— less to clubs, and the most liberal inducements to club agents. Specimens, show Bills, Premium Lists, &c. sent free. The second Quarter of Vol. XVII commenced April 6, and hence now is a good time to subscribe.

☞ The 13 numbers of the first Quarter (Jan. to April,) sent free to any Post Master, Planter, or Farmer disposed to aid in introducing the RURAL to notice and support.

Address D. D. T. MOORE, Rochester, N. Y.

WHAT THE PRESS SAYS.

MOORE'S RURAL is full of variety, original and select. We confess to a surprise at the variety and richness of its contents, bountifully illustrated as it is. No paper on our exchange list come so near our ideas of perfection, for a secular family paper. It maintains a high moral standard. —*New York Observer.*

THE RURAL is not only a favorite in the rural districts, but deservedly popular in the cities. No newspaper in this or any other country has ever run a more prosperous career. —*Louisville Journal.*

MOORE'S RURAL NEW-YORKER comes to us freighted with information valuable to all who take an interest in the improvements of the times. We commend it.—*New York World.*

A MODEL PAPER for the Farmer's family. If we were to start a periodical again it would be in imitation of the RURAL NEW-YORKER.—*American Agriculturist.*

SHEEP AND WOOL are paying institutions, and it will *pay* every Sheep-breeder or Wool-grower to buy and read THE PRACTICAL SHEPHERD, by the Hon. H. S. RANDALL, LL. D., author of "Sheep Husbandry in the South," &c. (and editor of Sheep Husbandry Department of MOORE'S RURAL NEW-YORKER, the leading and largest circulating Agricultural, Literary and Family Newspaper in America.) The P. S. is a large 12mo. volume of 454 pages, illustrated, printed, and bound in superior style. It is the best and most popular work on American Sheep Husbandry ever published, and is having an immense sale. Sold only by the publisher and his Agents. Price, postpaid, $2. Published by

D. D. T. MOORE, Editor Rural New-Yorker,
Rochester, New York.

The PRACTICAL SHEPHERD can be procured at the office of *Maryland Farmer*, Baltimore. Price $2, postpaid. m1

MARYLAND
AGRICULTURAL COLLEGE.

The duties of this Institution will be resumed on MONDAY, 25th of March.

While it is designed to make instruction in the theory and practice of Agriculture the peculiar feature of the College, provision is made for a full course of Collegiate instruction, embracing the Latin, Greek, French, German, Italian and Spanish languages, or any of them, a course of Mathematics, Mental and Moral Science, History, and the study of the English Language and Literature.

Natural History and Natural Philosophy in their several branches will have special attention. Military Tactics will be taught.

There will be no Preparatory School, but a selected English and Scientific Course may be taken at the student's option. No one received under fourteen years of age.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

———:o:———

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

Address E. WHITMAN & SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

THE NORTH CAROLINA ARGUS.

PUBLISHED WEEKLY AT WADESBORO',

ANSON COUNTY, N. C.,

J. WILKINSON,

Landscape Gardener, Rural Architect And CIVIL ENGINEER,

BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

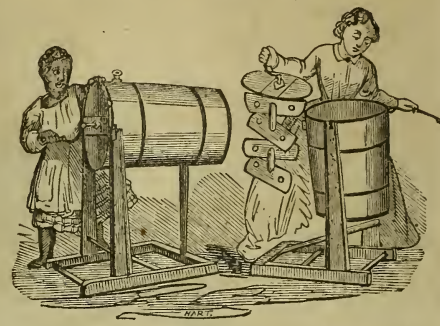

PRACTICAL SHEPHERD.

This is the latest and best of DR. RANDALL'S works on Sheep Husbandry—the Standard Authority on this subject. It tells all about the Breeding, Management and Diseases of Sheep, and should be in the hands of every flock-master on the American Continent. Over 20,000 copies already sold. One large 12mo. volume of 454 pages—printed, illustrated and bound in superior style. Sent post paid on receipt of price—$2. Address,

"MARYLAND FARMER,"

TINCLEY'S IMPROVED CHURN,

Patented August 11, 1863.

For Convenience, Durability and Cheapness it is unsurpassed.

We present this Churn to the public, believing that it comes up to a standard of perfection never before reached in the art of Butter-making.

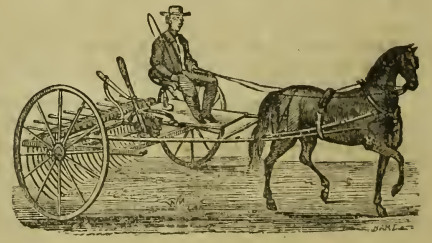

1st. It is the "old barrel churn," while, at the same time, it can be as readily cleaned as a common tub.

2d. In facilities for cleaning—as we remove the entire head and dasher in an instant, when it can be thoroughly cleaned in every part, and left open, when not in actual use, for ventilation by fresh air.

For further particulars and information apply to

JOHN M. GRIFFITH & CO.,
49 North Paca Street, Baltimore, Md.

BUCKEYE

Self-Discharging Wheel Horse Rake.

The above cut represents our Buckeye Rake, which gave entire satisfaction during the last three years, wherever introduced and worked. While it claims to be equal in all essential parts, common to any first class Rake, its chief point of superiority consists in a novel patented arrangement for delivering itself of its load, when full; in all other Rakes of prominence, the emptying is accomplished by the physical power of the driver applied to the lever by hand, which, in some instances, is hard work—but in this Rake, the driver has only to move a lever a few inches to throw the discharging arrangement in gear, when by the forward movement of the horse, the teeth are raised, and the load discharged, after which it shifts out of gear, and the teeth resume their place again without any attention on the part of the driver. It will be seen that the whole labor of operating this Rake is performed by the horse, thus enabling any boy capable of driving a horse, to operate it with ease.

Manufactured and for sale by

JOHN M. GRIFFITH & CO.,
49 NORTH PACA STREET, BALTIMORE, MD.

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's REAPER AND MOWER.

This Cut Gear is regarded by all unprejudiced minds as the greatest improvement ever made of Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

ALSO,

THE CELEBRATED

TORNADO

THRESHER AND CLEANER,

With Carey Horse-Powers,

Wheat Drills, Fans, Straw Cutters, Corn Shellers, Tingley's Improved Butter Churn, and Agricultural Implements in general.

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

AS THE GENERAL WHOLESALE AGENTS FOR

LITTLE'S WHITE OIL,

We invite your attention to its claims on the patronage of the public.

1st. It is beyond question, proven by 20 years test, the best Liniment ever used.

2d. It is warranted to cure Swelled Joints, Sprains, Cuts, Saddle and Collar Galls, Scratches, Poll Evil, Fistula and all pains and sores that horses are liable to.

3d. As a Liniment for man, it stands unsurpassed, and is guaranteed to cure Rheumatism, Scalds, Burns, and all kinds of pains and aches mankind is subject to.

We are prepared to supply this Oil in packages to suit dealers, and warrant this Oil to come up to our representations. ☞All parties ordering from us who will send us a newspaper of their selection, we will advertise in that paper for them. **It is Retailed everywhere for 50 Cts. per Bottle.**

Guaranteeing this Oil to give satisfaction, as we have any number of certificates, and with a determination to keep it prominently before the public, we solicit your orders. Very respectfully,

CLARK & BLAIR.

———:o:———

SCOTTSVILLE, Va., April 1, 1867.

The undersigned have established a Wholesale Depot for the sale of the "LITTLE'S WHITE OIL" in Richmond, Va., and Messrs. Clark & Blair are constituted Sole Agents.

SORGO MACHINERY,
FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,
AND THEIR PREMIUM
POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.
For sale Wholesale and Retail by the General Southern Agents,

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

AND AGENTS IN GENERAL.

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our DR. McLANE'S Celebrated VERMIFUGE, has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precautions in ordering Dr. McLANE'S Celebrated LIVER PILLS.—The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced vendors of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S Celebrated LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge or Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DOCTOR McLANE'S
AMERICAN
Worm Specific or Vermifuge.

No diseases to which the human body is liable are better entitled to the attention of the philanthropist than those consequent on the irritation produced by WORMS in the stomach and bowels. When the sufferer is an adult, the cause is very frequently overlooked, and consequently the proper remedy is not applied. But when the patient is an infant, if the disease is not entirely neglected, it is still too frequently ascribed, in whole or part, to some other cause. It ought here to be particularly remarked, that although but few worms may exist in a child, and however quiescent they may have been previously, no sooner is the constitution invaded by any of the numerous train of diseases to which infancy is exposed, than it is fearfully augmented by their irritation. Hence it too frequently happens that a disease otherwise easily managed by proper remedies, when aggravated by that cause bids defiance to treatment, judicious in other respects, but which entirely fails in consequence of worms being overlooked. And even in cases of greater violence, if a potent and prompt remedy be possessed, so that they could be expelled without loss of time, which is so precious in such cases, the disease might be attacked, by proper remedies, even-handed, and with success.

SYMPTOMS WHICH CANNOT BE MISTAKEN.—The countenance is pale and leaden colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eye becomes dull; the pupils dilate; an azure semi-circle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; swelling of the upper lip; occasional headache, with humming or throbbing in the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist, DR. McLANE'S VERMIFUGE MAY BE DEPENDED UPON TO EFFECT A CURE.

The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to RETURN the MONEY in every instance where it proves ineffectual, "providing the symptoms attending the sickness of the child or adult warrant the supposition of worms being the cause." In all cases the medicine to be given in strict accordance with the directions.

We pledge ourselves to the public that DR. McLANE'S VERMIFUGE DOES NOT CONTAIN MERCURY IN ANY FORM; and that it is an innocent preparation, and not capable of doing the slightest injury to the most tender infant.

DIRECTIONS.—Give a child from two to ten years old, a teaspoonful in as much sweetened water every morning, fasting; if it purges through the day, well; but if not, repeat it again in the evening. Over ten, give a little more; under two, give less. To a full grown person, give two teaspoonsful.

Beware of Counterfeits and all Articles purporting to be Dr. McLane's.—The great popularity of DR. McLANE'S GENUINE PREPARATIONS has induced unprincipled persons to attempt palming upon the public counterfeit and interior articles, in consequence of which the proprietors have been forced to adopt every possible guard against fraud. Purchasers will please pay attention to the following marks of genuineness.

1st.—The external wrapper is a fine Steel Engraving, with the signatures of C. McLANE, and FLEMING BROS.

2d.—The directions are printed on fine paper, with a water mark as follows: "*Dr. McLane's Celebrated Vermifuge and Liver Pills, Fleming Bros., Proprietors.*" This water mark can be seen by holding up the paper to the light.

The LIVER PILLS have the name stamped on the lid of the box, in red wax.

PREPARED ONLY BY

FLEMING BROS., Pittsburgh, Pa.

SOLE PROPRIETORS OF DR. McLANE'S LIVER PILLS, VERMIFUGE & LUNG SYRUP.

☞Sold by Dealers Everywhere. oct-1y

☞The Proprietors will forward, per mail, to any part of the United States or the British Provinces, one box of *LIVER PILLS* on the receipt of order enclosing twelve three-cent P. O. Stamps, or one vial of *VERMIFUGE* on receipt of thirteen stamps.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

J. MONTGOMERY."

IMPORTANT TO MERCHANTS, FARMERS AND PLANTERS.

We have been informed that the usual practice of Merchants, Farmers and Planters, in ordering their supplies of our **Dr. McLANE'S Celebrated VERMIFUGE,** has been to simply write or order Vermifuge. The consequence is, that instead of the genuine Dr. McLANE'S Vermifuge, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the propriety and importance of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Brothers, Pittsburgh, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S Celebrated LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South and South West, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived! DR. McLANE'S CELEBRATED LIVER PILLS are the original and only reliable remedy for Liver Complaints that has yet been discovered, and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine DR. McLANE'S, prepared by

FLEMING BROTHERS, Pittsburgh, Pa.

DR. McLANE'S
CELEBRATED LIVER PILLS,

FOR THE CURE OF

Heptatis or Liver Complaint, Dyspepsia and Sick Headache.

In offering to the public DR. McLANE'S CELEBRATED LIVER PILL, as a remedy for *Liver and Bilious Complaints*, we presume no apology will be needed. The great prevalence of *Liver Complaint and Bilious Diseases of all kinds*, throughout the United States, and peculiarly in the West and South, where, in the majority of cases, the patient is not within the reach of a regular physician, requires that some remedy should be provided, that would not *in the least impair the constitution and yet be safe and effectual.* That such is the true character of McLANE'S LIVER PILLS, there can be no doubt. The testimony we lay before you, and the great success which has *invariably* attended their use, will, we think, be sufficient to convince the most incredulous. It has been our sincere wish, that these Pills should be fairly and fully tested, and stand or fall by the effects produced. That they have been so tested, and that the result has been in every respect favorable, we call thousands to witness who have experienced their beneficial effects.

DR. McLANE'S LIVER PILLS are not held forth or recommended (like most of the popular medicines of the day,) as universal cure-alls, but simply for LIVER COMPLAINTS, and those symptoms connected with a deranged state of that organ.

DISEASES OF THE LIVER.

The Liver is much more frequently the seat of disease than is generally supposed. The function it is designed to perform, and on the *regular execution* of which depends not only the general health of the body, but the powers of the *stomach, bowels, brains*, and the whole nervous system, shows its vast and vital importance to human health.—When the Liver is seriously diseased, it in fact not only *deranges the vital functions of the body*, but exercises a powerful influence over the mind and its operations, which cannot easily be described. It has so close a connection with other diseases, and manifests itself by so great a variety of symptoms, of a most doubtful character, that it misleads more physicians, even of great eminence, than any other vital organ. The intimate connection which exists between the liver and the brain, and the great dominion which I am persuaded it exercises over the *passions* of mankind, convince me that many unfortunate beings have committed acts of deep and criminal atrocity, or become what fools terms hypochondriacs, from the simple fact of a *diseased state of the Liver.* I have long been convinced that more than one-half of the complaints which occur in this country, are to be considered as having their seat in a diseased state of the liver. I will enumerate some of them. Indigestion, Stoppage of the Menses, Deranged state of the Bowels, Irritable and Vindictive Feelings and Passions, from trifling and inadequate causes, of which we afterwards feel ashamed; last, though not least, more than *three-fourths* of the diseases enumerated under the head of CONSUMPTION, have their seat in a diseased liver. This is truly a frightful catalogue.

Symptoms of a Diseased Liver.—Pain in the right side, under the edge of the ribs, increasing on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternating with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled; his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease; but cases have occurred when few of them existed, yet examination of the body, after death, has shown the Liver to have been extensively deranged.

Ague and Fever.—DR. McLANE'S LIVER PILLS *in cases of Ague and Fever*, when taken with Quinine, are productive of the most happy results. No better cathartic can be used preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them *a fair trial.*

Directions.—Take two or three pills going to bed, every second or third night. If they do not purge two or three times by next morning, take one or two more; but a slight breakfast should invariably follow their use. The Liver pills may be used where purging simply is necessary. As an anti-bilious purgative, they are inferior to none, and in doses of two or three, they give astonishing relief in Sick Headache; also, in slight derangements of the Stomach.

Great Improvement in Pumps!

CLARK'S PATENT

Double Acting Lift & Force Pumps.

This Pump is warranted to be superior in every respect to all others—the packing being composed of gum instead of leather—the plunger of Tera Cotta ware, twice burnt, glazed smooth as glass, and hard as flint, thereby creating but little friction and no wear at all. The valves are also of gum, which, together with its peculiar packing, keep it always in working order, even if it stand for years without use, being composed of no shrinking material: This Pump is adapted to all purposes.

Manufactured by

L. P. CLARK,

E. FRANK COE'S SUPER PHOSPHATE,

Manufactured expressly for our sales, containing nearly *three per cent. of Ammonia*, in fine dry powder, for drilling. The past two years' experience of its application on Wheat and Corn, has proved its superiority to all Super Phosphates in the growth of the crop and the improvement of the soil.

Price—$55 Per Ton. J. J. TURNER & CO., 42 Pratt Street.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The LOCK STITCH made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, aud durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

ap-6t

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. febl-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street, Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS,* ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞ Boxes containing a full assortment for the Country trade, supplied to order.

BUCKEYE MOWER & REAPER

STILL THE

CHAMPION MACHINE

OF THE AGE.

MANUFACTURED BY

C. AULTMAN & CO., Canton, Ohio.

Of the Buckeye as a *MOWER*, it is only necessary to say, that in addition to the many Gold Medals received during the few years of its existence, it was awarded the

First Premium Grand Gold Medal

in the FIRST CLASS, at the greatest field trial ever had in this country, held at Auburn, N. Y., in July, 1866. There were fifty-nine Machines entered, and the committee gave it "SUPERIORITY over all competitors in *perfection of work in all kinds of grass, and on every variety of surface, lightness of draft, ease of management, perfection of mechanical construction, simplicity, strength, and durability.*" The various improvements put on the Buckeye recently for *Reaping purposes*, make it in all respects the most desirable Reaper in the market. ☞ On opposite page is shown our DROPPER, which, for lightness of draft, simplicity of construction, convenience and perfection of work, it has no competitor. It constitutes two separate machines in one, differing from *all* others; having two cutting bars, separate knives, &c., one cutting 4 feet 6 inches in grass, a perfect mower, the other 5 feet 10 inches in grain—a complete and perfect Reaper—each doing the work for which it is designed, in the *best* manner. We have various styles and sizes of them as made by the above celebrated firm, and invite those wanting

A FIRST CLASS MACHINE,

to call and examine before purchasing. We are prepared to furnish all kinds of extras and repairs for the Buckeye at the lowest rates. Those having Machines to repair, will bring them in early.

☞ Prices have been reduced. Send for Catalogue and new Price List.

E. WHITMAN & SONS,

General Southern Agents,

22 and 24 S. Calvert Street,

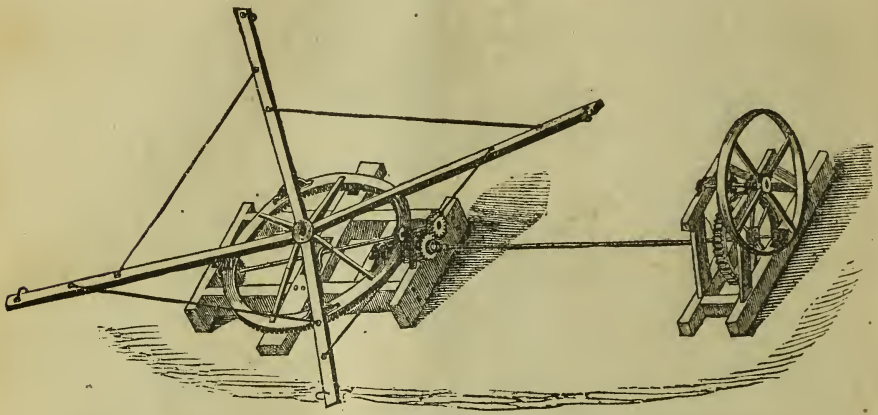

Baltimore, Md.

m-tf

Dropper in the Field, Side View.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,
Nos. 22 and 24 South Calvert Street, Baltimore, Md.

Good Effects of Lime.

If any one has any doubts as to the good effect of lime on any soil, let him try for experiment half an acre, lime it well, and we think that in four or five years he will extend the application ; once well done and it will last an age. Who ever saw the spot where the ruins of a house once was but has seen the rich, strong grass at all seasons, wet and dry? Now what produces this? The fertility that gathers around the residence of them. It must be the lime that falls into the soil from the bricks and plastering. Lime acts more positively on some soils than on others, but did you ever know of limestone land that was not fertile? that did not give a larger yield of grass? It seems to act as manure or food for plants—for all who are conversant with chemical analysis know that there is a small portion of lime or alkaline matter found in all plants, grasses and trees. Lime supplies this—hence the vigorous growth wherever found—it is much more advantageous to double the produce of one acre than to work two acres for the same returns. Let us try the article; if we see no marked effects the first year and but little the second, doubt not; for it requires time to get this material under way. But when it does act its operations are steady and durable, and annually returns the cost of the application. Do not fear a little cost, for it is an old and trite saying, "nothing risk, nothing have." Most farms are lacking in lime, and till that is given crops must be small.—*Germantown Telegraph.*

How to Use Meerschaums.

The following are directions for the proper use of meerschaum pipes: "Most people spoil their pipes by misuse when new or first smoked. The extent to which this is done has led us to prepare a few brief and simple directions how to use meerschaums and how to color them. A pipe when first smoked should have the tobacco put in loosely and be only half filled; in this way the top will become white and not have the reddish tint it sometimes assumes, and also the wax will remain longer on the bowl, thus settling gradually down to where the button begins to form the 'beard,' as smokers term it.—Never cover the pipe with leather, because the wax melting goes into it instead of remaining on the meerschaum, and thus produces blotches. Always smoke slowly, and do not think the hotter the pipe gets the better it will color, for meerschaum clay without being boiled never colors, and if made too hot the wax melts off and leaves the clay hard and unporous. Make this a rule; keep the pipe cool wherever you wish to color it; this is sufficient to guide you in the proper use of the pipe."—*Cor. Tobacco Leaf.*

Officers of Kentucky State Agricultural Society.

President—Hon. Robert Mallory, of Oldham.

First District.—Vice President—Philip Swigert, of Franklin.

Directors—L. J. Bradford, of Bracken; Zeb. Ward, of Woodford; Wm. Warfield, of Fayette; R. W. Scott, of Franklin; James Hall, of Bourbon.

Second District.—Vice President—J. B. O'Bannor, of Jefferson.

Directors—Lawrence Young, of Jefferson; Wm. Johnson, of Nelson; S. T. Drane, of Shelby; J. R. Hughes, of Washington; P. B. Young, of Hardin.

Third District.—Vice President—David King, of Logan.

Directors—G. M. Preist, of Henderson; Blount Hodges, of Livingston; John McGowan, of Christian; Charles Anderson, of Lyon; W. W. Warring, of Barren.

Treasurer—James M. Tate.

Corresponding and Recording Secretary—James J. Miller.

Executive Committee—Wm. Warfield, Philip Swigert, Lawrence Young, James Hall, S. T. Drane.

ANOTHER "ISM" FROM MASSACHUSETTS.—*Justice to Dog and Sheep.* The Legislature of Massachusetts, now in session, have enacted that "every owner or keeper of a dog shall annually on or before the 30th day of April, cause the dog to be registered, numbered, described and licensed, and any person keeping a dog contrary to the provisions of this law shall forfeit fifteen dollars, five dollars of which goes to the complainant."

Let the example of the old Bay State, in this thing at least, be followed by every State in the Union, and the Un-Reconstructed DIVISIONS also.

If such laws are enacted throughout the country, the millions now lost by Sheep killing Dogs would be saved to our people. Hurrah for Massachusetts! and death to the Dogs!

THE CUZCO POTATO.—A Ohio correspondent in *Prairie Farmer*, gives his experience with the Cuzco potato. He says:—I have been experimenting with, or raising the Cuzco potato for two years, and I find it is the most profitable potato I can raise, averaging one hundred bushels more to the acre than any other variety, even the peach blow, and it is a better keeper, and a better table potato than the peach blow. It is almost entirely free from disease, when planted on dry ground, and by cutting to single eyes, one bushel of seed will produce from forty to sixty bushels of good sized potatos. They will bring as much in market as the peach blow, where they are known.

Wheeler & Wilson Sewing Machine at the French Exposition.

By Telegraphic dispatch, received June 28th, 1867, per Atlantic Cable, it is announced that Wheeler & Wilson Sewing Machine, was awarded the First Premium Gold Medal for excellence over all others exhibited, this too against eighty-two competitors. Another triumph for American Genius.

Baby on the Porch.

Out on the porch, by the open door,
Sweet with roses and cool with shade,
Baby is creeping over the floor—
Dear little winsome blue-eyed maid.

All about her the shadows dance,
All above her the roses swing,
Sunbeams in the lattice glance,
Robins up in the branches sing.

Up at the blossoms her fingers reach,
Lisping her pleading in broken words,
Cooing away in her tender speech
Songs like the twitter of nestling birds.

Creeping, creeping over the floor,
Soon my birdie will find her wings,
Fluttering out at the open door
Into the wonderful world of things.

The Kiss.

Give me one kiss. I will not ask for more.
But let me take thy face between my hands
And lose myself in those mourned-after lands,
Where I have often lost myself before.
Yea, fix thine eyes upon me whilst I pour
My soul into them. As the sea her strands,
So my tost spirit overflows its bands,
And I would fill thee till thou brimmest o'er.
Give me one kiss. Or ever I go hence
Give me one kiss. And when my starved lips touch
The crimson passion of those lips divine,
Reply thou then, search every smouldering sense.
Grant me this little, love—or else this much,
And let me feed my famished soul off thine!
—A. E. LANCASTER, *in Forney's Weekly Press.*

Wonder if "Lancaster" won't take more than *one* kiss? May as well take a whole package.

GO ASK MY MOTHER.

You've told me many a time and oft
That I was fair and comely;
My eyes were bright—my tresses soft—
While other girls were homely.
"She's quite young to know her will,"
The folks say to each other;
But if you truly love me still—
Why, go ask my mother.

I'm told there's care in married life—
That all the joy's in courting;
When young men have secured a wife,
They say their vows are sporting.
I won't believe what old maids say,
If you won't choose another;
You've bothered me so much to-day—
Do, go and ask my mother.

The American Fruit Culturist.

BY J. J. THOMAS.

The Publishers of the "MARYLAND FARMER" will send the above Book *free*, by mail, as a premium to any person who will send us five *new* yearly subcribers and $7.50.—This is a valuable book of 512 pages, and should be in the hands of every fruit culturist—price $3.

American Pomology--Apples.

DR. JOHN A. WARDER.

Will also send this valuable Book, on the above terms—price $3.

CURE FOR CAKED BAG IN COWS.—The *New York Tribune* gives the following remedy, on the authority of T. D. Balderson, Burks county, Penn.—Take lime water, about the consistence of thick whitewash, put it an earthern plate, and about the same quantity of flaxseed oil, beat them well together with a case knife till they are thoroughly mixed, annoint the bag two or three times a day, rubbing it well in. I have used it for many years. Last summer, a neighbor had a young sow with pigs; her bag was so hard he thought she would die. I prepared him some of the mixture, and in a few days she suckled and raised her pigs, they having fed them with a spoon while the mother was sick.

BUTTER MAKING—*Scalding Cream.*—Mary A. Crosby writes the *Ohio Farmer:*

"I read in the *Farmer* an article on butter making, in which the writer advises not to scald the milk. I agree with the writer in every particular except this. I have practised scalding for the past winter and spring and I never had the butter yellower or sweeter since I have made butter, which is over thirty years. I am a farmer's wife, and speak from experience."

PRACTICAL SHEPHERD.

This is the latest and best of DR. RANDALL'S works on Sheep Husbandry—the Standard Authority on this subject. It tells all about the Breeding, Management and Diseases of Sheep, and should be in the hands of every flock-master on the American Continent. Over 20,000 copies already sold. One large 12mo. volume of 454 pages—printed, illustrated and bound in superior style. Sent post paid on receipt of price—$2. Address,

"MARYLAND FARMER,"

BALTIMORE AND OHIO RAIL ROAD.

On and after MONDAY, June 3, 1867, three daily trains will run between Baltimore and Wheeling and Parkersburg, as follows:

MAIL TRAIN will leave Baltimore daily (except Sunday) at 8.45 A. M. FAST LINE will leave daily (including Sunday) at 5.20 P. M. EXPRESS TRAIN will leave daily (except Saturday) at 9.45 P. M.

These trains connect at Belair and Parkersburg for all points West, Southwest and Northwest.

FREDERICK ACCOMMODATION TRAIN leaves Baltimore, daily, at 4.20 P. M., (except Sunday.) Leaves Frederick for Baltimore daily (Sundays excepted) at 7.05 A. M.

The ELLICOTT'S MILLS TRAIN leaves Baltimore at 6.20 and 9.50 A. M. and 1.20 and 5.20 P. M. Leaves Ellicott's Mills at 7.30 and 11.10 A. M., and 2.30 and 6.30 P. M.

FOR WASHINGTON.

Leave Baltimore at 3.50, 7.05, 8.50 and 9.45 A. M. and 3.15, 4.15 and 8.20 P. M. On Sundays at 3.50 and 9.45 A. M., and 4.15 and 7.45 P. M. Leave Washington at 7 and 7.45 A. M., and 12.15, 2.00, 4 30, 7 and 8.45 P. M. On Sundays at 7.45 A. M., and 4.30, 6.30 and 8.45 P. M.

FOR ANNAPOLIS.

Leave Baltimore at 7.05 A. M. and 4.15 P. M.; leave Washington at 7 A. M. and 4.30 P. M.

Trains leave Annapolis 6.30 A. M. and 3.40 P. M. for Baltimore and Washington.

For further information, Tickets of every kind, &c., apply to J. T. ENGLAND, Agent, Camden Station, or at the Ticket Office.

JOHN L. WILSON,
Master of Transportation.

L. M. COLE, General Ticket Agent.

NORTHERN CENTRAL RAILWAY.

FOUR TRAINS DAILY, (Except Sundays,)
FOR PITTSBURG AND THE WEST.

TWO TRAINS DAILY, (Except Sundays,)
FOR BUFFALO AND NIAGARA FALLS.

On and after SUNDAY, April 28th, 1867, Trains will leave Baltimore as follows:

8.30 A. M. FAST MAIL—Daily (except Sundays,) for Pittsburg and the West, and North to Elmira, stopping at all stations between Baltimore and York.
Connecting with Erie Railway at Elmira at 11.05 P. M.

12.10 P. M. FAST LINE—Daily (except Sundays,) for Pittsburg and the West, and North to Williamsport only.

7.00 P. M.—Daily (except Saturdays) for Pittsburg and the Southwest, stopping at principal Stations between Baltimore and Harrisburg, making direct connection with Cincinnati Express on Pennsylvania Railroad at Harrisburg, and running through to Erie, the Coal and Oil Region of Pennsylvania.

10.45 P. M.—Pittsburg and Niagara Falls Express, daily for the West. Daily (except Saturdays and Sundays) to Niagara Falls and Buffalo, also North to Lockhaven.

ACCOMMODATION TRAINS.

3 30 P. M. YORK ACCOMMODATION—Daily (except Sundays.)

5.30 P. M. PARKTON ACCOMMODATION—Daily (except Sundays.)

TRAINS ARRIVE IN BALTIMORE.

From the West and North, 7 A. M., 12.30 and 6. P. M.
Parkton Accommodation 8.15 A. M.
York Accommodation 10.15 A. M.

For further information and Tickets to all points West and North, apply at the Ticket Office, Calvert Station.

ED. S. YOUNG, General Passenger Agent.
J. N. DU BARRY, General Superintendent.

PHILADELPHIA, WILMINGTON & BALTIMORE RAILROAD.

Commencing MONDAY, June 3d, Passenger Trains will leave President Street Depot as follows, viz:

Way Mail Train for Philadelphia and Way Stations at 7.25 A. M. This train connects at New Castle Junction with train for all Stations on the Delaware Railroad.

Express Train for Philadelphia and New York at 9.35 A. M., connecting at Perryville with the train for Port Deposit.

Express Train fot Philadelphia and New York at 2.15 P. M., connecting at New Castle Junction with Express Train for principal stations on the Delaware Railroad.

Accommodation Train for Port Deposit and intermediate stations at 5 P. M.

Express Train for Philadelphia at 6.35 P. M.
Express Train for New York at 8.55 P. M.
All the above Trains leave daily except Sundays.

ON SUNDAYS.

For Philadelphia and New York at 8.55 P. M.

WM. CRAWFORD, Agent.

USEFUL RECIPES.

GRABBING SHEEP.—Daily do we see sheep grabbed by the wool and hauled about. Will people never learn better? Let some one take them by the hair, and they would probably learn a lesson. Could they look under the skin they would be surprised how much suffering they inflicted—for the sheep is dumb, and does not tell its pain.—Take by the neck—any place rather than the wool—any place but the hair. So it is where sheep are hooked or thumped or knocked about. They are tender it must be remembered—more so than any stock on the farm.—*Ex.*

RETENTION OF PLACENTA.—J. C. Abbott, Clarksville, Iowa, writes us that he has had great tronble with cows from retention of placenta after calving.

One of the remedies for this trouble employed by dairymen in Herkimer, is to give cows, soon after calving, a mash of bran and water, fed warm, say a couple quarts of bran to a pail of water, the water poured upon the bran boiling hot and fed as warm as the hand can be comfortably borne in it. This has nearly always proved successful in our own dairy. Another remedy which we are told is effective in bad cases, is to heat a quart of sharp cider vinegar, nearly to boiling point, and pour it upon a quart of bran and feed pretty warm. In cases of casting wethers, to which he refers, he will find the treatment, as practiced by Dr. Cole, of Potsdam, described in our columns a few weeks back, suggestive.—*Utica Herald.*

LOSS OF CUD.—This phrase is used to designate the cessation of rumination, and is a symptom of various diseases. When it is observed, the animal should be carefully watched to discover other symptoms, in order to ascertain from what disease it is suffering.

LINSEED OIL is valuable as an occasional purgative for swine, especially where there is much intestinal inflammation.

A PREVENTIVE AGAINST GRUB IN THE HEAD.—Tar spread upon the head, between the eyes and the extremity of the nose, that is, from the eye to the end of the nose. Spread it the first of June, July, August and September.—The fly does not deposit the egg in the nose, as some think, but upon the outer surface; and as it becomes a grub it eats through and crawls to the membrane. So says a correspondent of the *Rural American.*

BOILED POTATOES FOR MILCH COWS.—A successful farmer informs us that he has practiced, the last summer, giving to each of his milch cows five quarts of cold boiled potatoes a day, and that they were worth half a dollar a bushel for this purpose. His old potatoes were worth nothing in the market, and so he boiled up some twenty-five or thirty gallons at a time. He says that he could see no benefit whatever from giving them old potatoes in a raw state. There is a period from the first of July to the first of August when cows need some additional food, and if boiled potatoes will help them hold out their milk till it is time to feed out the Southern corn, we may hope to carry cows through the whole summer season in a condition to yield a good profit, especially on farms remote from the market.—*Maine Farmer.*

BALTIMORE MARKETS---June 29.

Prepared for the "MARYLAND FARMER" by JOHN MERRYMAN & Co., BALTIMORE.

[*Unless when otherwise specified the prices are wholesale.*]

ASHES.—No transactions.

BEESWAX.—38@40 cts. per lb.

COFFEE—Rio 16@18½ cts., gold; Java 24½@25 cents, gold.

VERY SUPERIOR STOCK FOR SALE.

Mr. Ross Winans having determined to visit Europe, we are authorized to offer for sale

his very superior SHORT HORN STOCK, selected at high cost from the best herds of Kentucky, and celebrated for their excellent milking qualities. We have also for sale a few choice ALDERNEYS, including two imported cows. As this valuable Stock will be offered at very moderate prices, the particular attention of the farming community is requested. There are included among the Short Horns four yearling pedigree BULLS.

In addition to the above, we have three ALDERNEY COWS from the celebrated herd of Wm. C. Wilson, Esq.; three DEVON COWS from the herd of Thos. Hughlett, Esq., and bred by Geo. Patterson; Short Horn Bull "KENTUCKY DUKE," 9 years old, from the stock of R. A. Alexander. This animal cost $2.000 at one year old.

Also, 50 SOUTHDOWN EWES, 1 to 3 years.
20 EWE LAMBS.
9 BUCKS, 1 year old.

COTSWOLD SHEEP FOR SALE.

I have for sale about 30 very superior COTSWOLD EWES, aged from 1 to 4 years. I will sell them at very reasonable prices, as I wish to reduce my stock. Much care and attention has been given to the breeding of this flock of sheep, and they are perhaps unsurpassed for purity, size and symmetry by any flock of sheep now offered for sale in this country.—The lambs (male and female) will be sold with the ewes, if desired, until August 1st, at which time they will be weaned and sold separately, are sired by a buck direct from imported stock, who will weigh now in their condition 260 pounds. I have just sheared from him 11 pounds of well cleansed wool. My entire flock averaged 8 pounds of wool well cleansed to each sheep, at the last shearing.

Also, for sale a number of fine, pure bred COTSWOLD BUCKS. Apply to or address

GEORGE JACKSON,
jy-2t* Near Wilmington, Delaware.

J. WILKINSON,
Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

HALL THRESHER, CLEANER & SEPARATOR,

With its Improved Carey Horse-Power,

Is just the best Thresher, Cleaner or Separator now made. It has received many premiums at Field Trials West and East over the heretofore leading Machines in the United States. All persons in want of the best Machine of its kind would do well to see the HALL THRESHER AND CLEANER, and have it explained before they buy. Its capacity grades high, and all public Threshers know the importance of this. Its price is reasonable. For terms, &c., address

ROCKBRIDGE ALUM SPRINGS, VA.

OPEN JUNE 1.

This favorite and delightful watering place, having undergone thorough renovation, is prepared to receive visitors. The owners have made every effort in the outfit and equipment to render the place more than ever attractive to those in quest of recreation, while to the invalid its medicinal waters hold out new hopes of health. It may be confidently claimed for them that they have in a great many cases relieved, and in many more cases cured, the following diseases: *Scrofula*, and many chronic *cutaneous* diseases, *Chronic Thrush*, *Bronchitis*, *Dyspepsia*, *Chronic Diarrhœa*, *Dropsy*, *Affections of Kidney* and *Bladder*, and *Piles;* and, in connection with the Hot Baths, *Chronic Rheumatism.*

As an appetizer, a tonic, and general restorative to an enfeebled constitution, it is perhaps unrivalled amongst mineral waters. The proprietors have engaged for the approaching season *a very superior Band of Music*, both for the Lawn and the Ball Room. *The Billiard and Bowling Saloons*, both for ladies and gentlemen, will be found in more complete order than ever before.

From the very extensive preparations now making at all the leading Virginia Springs, a heavy travel is anticipated, and, we think, will be attracted. It shall be the aim of the undersigned to keep their establishment *fully up to the foremost;* and they hope to see a renewal of the social reunions which in former years lent such a charm to these mountain retreats.

Passengers by the Virginia Central Railroad get off the cars at GOSHEN Depot. Eight (8) miles of staging over a smooth road lands them at the Springs.

We have secured the efficient services of CAPT. WILLIAM H. SALE, so long and favorably known to the public, in connection with these Springs.

The following brief extracts from the Springs pamphlet are from the pens of eminent medical authority in Virginia and the South:

Dr. Samuel A. Cartwright, of New Orleans, in a long letter comparing these with the principal Spas, of Europe all of which he has visited and spent two years amongst them, says:

"The Rockbridge Alum Springs contain nearly every medical substance of the most Celebrated Mineral Springs of Europe."

* * * * * "Besides containing all the ingredients found in the Tunbridge and Bath Mineral Springs of England, so celebrated for scrofulous affections and many chronic ailments, your Rockbridge water agrees with that of Aix-la-Chapelle in containing silicic acid. It hardly needs to be added that the water of the Aix-la-Chapelle Springs, internally and externally used, has long been famous for the cure of chronic rheumatism."

* * * * * * *

"In these qualities it agrees with the mineral waters of Bagneres, in Upper Garonne, which comes out of a mountain of similar geological formation with the mountain in the vicinity of the Rockbridge Springs. The Bagneres water has long been very popular for the cure of stiffness of the limbs, lymphatic congestions, engorgements of the joints, paralysis, dyspepsia, chronic catarrhs and chlorosis. The Rockbridge water has every ingredient in it that the most careful analysis has discovered in the Viche water.—It contains less carbonic acid than the Viche water, but is richer in every thing else. The Viche water is highly recommended for engorgements of the liver and spleen, biliary concretions, diseases of the kidney, fluor albus, and chronic disfigurement of the skin, caused by diseased viscera.

"The Springs of Spa, in Ouertha, so celebrated throughout Europe for chronic nephritis, calculous affections, leucorrhœa, visceral catarrhs and debility of the digestive organs, contain no other substances than those found by analysis in the water of the Rockbridge Springs, and might with as much propriety be called *'Alum Springs'* as they hold in solution a considerable quantity of alum.

"The waters of Passy, so useful in languor of the digestive system, and in the cure of scorbutic affections, visceral engorgements, passive hemorrhages, as menorrhagia, piles, &c., hold in solution the sulphate of lime, sulphate of magnesia, alumina, chloride of sodium, and the peroxide of iron, all of which are found in much larger proportions (fully three times as much) in the Rockbridge Springs,—the latter Springs containing the iron in the form of a *protoxide*, a much milder and safer salt than the *peroxide* of the Passy water.

"*In truth, I know of no water in Europe or America so rich in medical substances as that of the Rockbridge Springs.*"

From DR. CABELL, *Professor in the Medical Department of University of Virginia.*

February 5, 1867.

WILLIAM FRAZIER, Esq—My Dear Sir: It gives me pleasure to comply with your request that I would bear testimony to the medicinal virtues of the Rockbridge Alum Water.

My observations, made during a sojourn at the Springs, of several weeks at a time, on two successive summers, led me to the conclusion that the popular estimate of the efficacy of the Alum Water in the treatment of many chronic diseases is not an exaggerated one. It is, indeed, admitted that a more or less considerable proportion of cases of inveterate chronic diseases, for which relief is sought by the use of that water, derive no permanent benefits from it, but it is undeniable that an unusually large proportion of grave and obstinate cases which baffle the ordinary resources of the healing art, are annually cured at your Springs. These cases, so far as they have fallen under my immediate observation, may be classed under the following heads:

1. Occasional attacks of Indigestion, attended with violent gastralgia, the water being taken in the intervals of the attacks.
2. Confirmed Dyspepsia in nearly all its varieties, except such as are attended with symptoms of acute gastric irritation.
3. Chronic Diarrhœa.
4. Leucorrhœa.
5. Scrofulous Ulcers, and other Scrofulous Affections of the Skin and of the Lymphatic Glands.
6. Chronic Eczema.

So potent an agent requires, of course, some caution in its administration to persons suffering with unequivocal symptoms of disease. All such persons should use this, as they use, or ought to use, other powerful remedies, under the advice and supervision of a competent physician.

J. L. CABELL.

And in another letter Prof. CABELL writes as follows:

"Let it suffice to say that though there are innumerable 'Alum Springs' in the State, none of them have been able to compete with the latter in its hold on the popular confidence. Its extraordinary efficacy in the cure of chronic cutaneous affections, and especially of scrofulous tumefactions and ulcers, suggests the presence and operation of an agent not expressed by its name; which name is due to the predominant taste of a ferruginous alum, with a notable excess of sulphuric acid.

"It has achieved wonders in the cure of *Chronic Diarrhœa*, not so much, as I have been led to believe from some observation, by its astringency as indirectly by its influence on the digestive function. Indeed, I believe it to be a very powerful agent, susceptible of various useful applications in the treatment of many diseases of a chronic nature."

Few Mineral Waters bear transportation so well. Placed in a cellar where the temperature is uniform this water has been kept in perfect preservation 5, 6 and 8 years. Constantly on hand for sale by HEGEMAN & CO., *New York*—COLEMAN & ROGERS, *Baltimore*—PURCELL, LADD & CO., *Richmond*—A. B. RUCKER, *Lynchburg, Va.*, and by Druggists generally.

The Springs Pamphlet, with analysis, &c., sent free. Consumers will find that the price by the box or case has been reduced since January 1st.

TINCLEY'S IMPROVED CHURN,

Patented August 11, 1863.

For Convenience, Durability and Cheapness it is unsurpassed.

We present this Churn to the public, believing that it comes up to a standard of perfection never before reached in the art of Butter-making.

1st. It is the "old barrel churn," while, at the same time, it can be as readily cleaned as a common tub.

2d. In facilities for cleaning—as we remove the entire head and dasher in an instant, when it can be thoroughly cleaned in every part, and left open, when not in actual use, for ventilation by fresh air.

For further particulars and information apply to

JOHN M. GRIFFITH & CO.,
49 North Paca Street, Baltimore, Md.

BUCKEYE

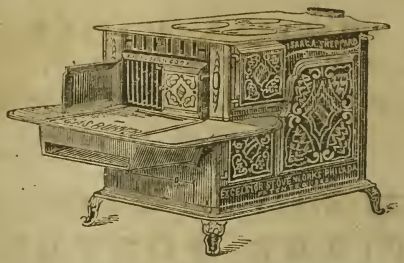

Self-Discharging Wheel Horse Rake.

The above cut represents our Buckeye Rake, which gave entire satisfaction during the last three years, wherever introduced and worked. While it claims to be equal in all essential parts, common to any first class Rake, its chief point of superiority consists in a novel patented arrangement for delivering itself of its load, when full; in all other Rakes of prominence, the emptying is accomplished by the physical power of the driver applied to the lever by hand, which, in some instances, is hard work--but in this Rake, the driver has only to move a lever a few inches to throw the discharging arrangement in gear, when by the forward movement of the horse, the teeth are raised, and the load discharged, after which it shifts out of gear, and the teeth resume their place again without any attention on the part of the driver. It will be seen that the whole labor of operating this Rake is performed by the horse, thus enabling any boy capable of driving a horse, to operate it with ease.

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T. MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS.

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country*. The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master—while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and Illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

Terms---$3 a Year; 10 copies for $25, and any greater number at same rate—only $2.50 per copy.

☞Subscriptions can commence at any time.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - - -	$1.50
6 COPIES	" - - - - -	7.50
10 COPIES	" - - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,

Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's

REAPER AND MOWER.

This Cut Gear is regarded by all unprejudiced minds as the greatest improvement ever made of Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

ALSO,

THE CELEBRATED

TORNADO

THRESHER AND CLEANER,

With Carey Horse-Powers,

Wheat Drills, Fans, Straw Cutters, Corn Shellers, Tingley's Improved Butter Churn, and Agricultural Implements in general.

Also, Sole Agents for Maryland and the South, for the sale of the

VICTOR CANE MILL,

AND

COOK EVAPORATOR.

Having all the patterns for the BUCKEYE REAPER and MOWER, we are prepared to fill orders for extras, or repair Machines at short notice, and on reasonable terms.

JOHN M. GRIFFITH & CO.,

49 North Paca St., Baltimore, Md.

BELMONT STOCK FARM.

BLACK HAWK (Morgan), and the Imported Norman, "THE COLONEL," will stand here from *April to October*. And Imported Norman BIENVENU will stand in they Valley of Virginia.

I breed only pure SHORT-HORN CATTLE, and have young BULLS and HEIFERS. Also ALBEMARLE IMPROVED HOGS, Boar and Sow Shoats and Pigs for sale, and sent by trains in any direction. My prices are made to suit the condition of the South.

S. W. FICKLIN,

ap6t *Near Charlottesville, Va.*

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S

AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

CLEMENT D. HILL. GEO. W. WILSON.

HILL & WILSON,

REAL ESTATE BROKERS AND AUCTIONEERS,

UPPER MARLBOROUGH,

Prince George's County, Md., Agents for the Purchase, Sale, or Renting of Real Estate.

COMPLETE arrangements have been made for advertising throughout the Northern and Western States and Canada. Some of the most productive FARMS in the Counties of Prince George's, Anne Arundel, Calvert, Charles and St. Mary's are offered for SALE or RENT. Health and Society good, Public School System perfect. The FARMS convenient to Churches, navigation and railroad.

☞ Persons having FARMS to sell should send us full description, price, &c. Those in want of labor will notify us. In many cases we shall be able to show Farms to strangers free of expense for horse and buggy hire.

DANIEL HIGGINS,

Nurseryman and Florist,

FLUSHING, Long Island,

NEAR NEW YORK.

Keeps constantly on hand at his Nurseries, a very large assortmeut of Fruit and Ornamental Trees, Flowering Shrubs, Herbaceous and Greenhouse Plants, Grape and Greenhouse Plants, Grape and other Vines, &c., sold on the most liberal terms. BALTIMORE.

MANUFACTURER OF

BOOTS AND SHOES

OF EVERY DESCRIPTION.

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

———:o:———

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

SORGO MACHINERY,
FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,
AND THEIR PREMIUM
POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

de.1y AND AGENTS IN GENERAL.

HARMAN'S
Celebrated Maryland Spring Tooth
WHEEL RAKE.

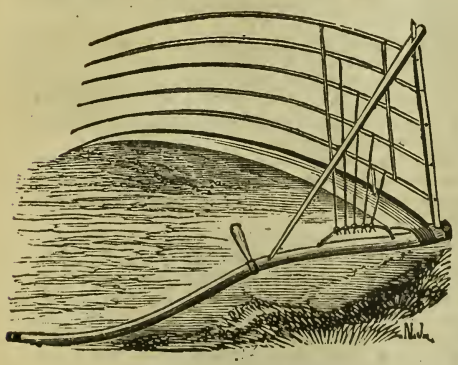

This HAY AND GRAIN WHEEL RAKE i perfectly suited to rake both Grass amd Grain on any kind of ground, as the teeth are independent of each other. There is a pressure bar extending across the teeth that keeps them down to their work, attached by springs that allow any one of them to raise over obstructions. The whole workings of this rake is controlled by a Double Acting Lever, which serves for raising and lowering the teeth, and so easily managed that a boy twelve years old can operate it. In passing from field to field the Rake can be hooked up by a catch attached to one of the levers, so that it can be moved with as much ease as a buggy, giving no labor to the operator.

This Rake has a broad platform on which is the driver's seat. The Double Acting Lever is on the right hand of driver, so that he controls the whole working of the teeth or Rake with but *little* labor. The CLEANER upon this Rake is an independent wooden frame, firmly attached by Bolts to the under side of the Axle Tree.

This Rake, as improved, in 1865, gave universal satisfaction wherever introduced.—They are built of BEST MATERIALS and are warranted to give entire satisfaction. Retail price---$45.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

Awarded 115 Premiums.

8 Silver Medals.

We would call the attention of farmers and planters to the fact that we now have the *sole control* of the above celebrated Wheat Fans, and shall be glad to receive their orders for the same. We can also furnish them in quantity to the trade. To those who want a really good, strong and durable Fan, we recommend this as unequaled by any other ever introduced. Prices—No. 1, $44. No. 2, $42.

E. WHITMAN & SONS,

22 and 24 South Calvert Street.

"Having dissolved my connection with the firm of Montgomery, Slade & Co., I have made arrangements with Messrs. Whitman & Sons, who will have sole control of my Patent Rockaway Wheat Fans, and I hereby request my former customers to forward their orders to them, assuring them, that the Fans will be made undermy own supervision."

THE GREATEST DISCOVERY
OF THE AGE.
THE NONPAREIL FRENCH
GUANO
NOW OFFERED BY THE
Nonpareil French Fertilizer Co.

To Farmers, Planters, Gardeners and others, possesses the most surprising *advantages* over all others, being free from all the *objections* usually urged against other varieties.

The attention of those interested is invited to this truly wonderful *discovery*. It is cheaper than any other fertilizer now in use, being only $60 per ton, and is *superior to Peruvian at* $110 *per ton*.

A host of references and recommendations can be given.

Address,

J. B. CAREY & CO.
No. 23 CHEAPSIDE,

THE SOUTHERN CULTIVATOR:

A Practical and Scientific Journal, for the Plantation, the Garden, and the Family Circle.

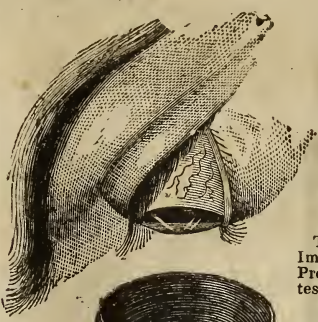

The 25th volume of this old Southern favorite, commences with the January No. 1867. It is the best agricultural journal published in this country. We cheerfully recommend it to our farmers as worthy of their patronage—and as a good advertising medium for business people. Published by Wm. N. White, *Athens, Georgia*, at $2 per annum.

The Maryland Farmer and *Southern Cultivator*, both one year for $3.

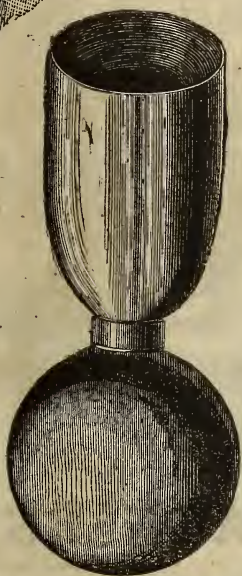

A. SNOWDEN PIGGOT, M. D.

Great Improvement in Pumps!

CLARK'S PATENT
Double Acting Lift & Force Pumps.

This Pump is warranted to be superior in every respect to all others—the packing being composed of gum instead of leather—the plunger of Tera Cotta ware, twice burnt, glazed smooth as glass, and hard as flint, thereby creating but little friction and no wear at all. The valves are also of gum, which, together with its peculiar packing, keep it always in working order, even if it stand for years without use, being composed of no shrinking material. This Pump is adapted to all purposes.

Manufactured by

L. P. CLARK,

Nos. 42 and 44 HOLLIDAY ST.,

m1-tf **BALTIMORE, MD.**

TO FARMERS AND PLANTERS.

"EXCELSIOR."

Containing { *AMMONIA*, 6 per cent. / *PHOSPHATE OF LIME*, 57 per cent.

Composed of *Seven Hundred Pounds of No.* 1 *Peruvian Guano* and *Thirteen Hundred Pounds of Bones*, dissolved in *Sulphuric Acid*, forming the most universal *Crop Grower* and concentrated durable Fertilizer ever offered to Agriculturists, combining all the stimulating properties of the Peruvian Guano, and the ever durable fertilizing qualities of Bones. Adapted for all soils and crops, and in *fine dry powder* for sowing or drilling with the seed.

The most prominent farmers of Maryland and Virginia after 6 years experience with EXCELSIOR, pronounce an application of 100 lbs. to the acre equal to from 200 to 300 lbs. of any other fertilizer for sale in this market.

Uniformity of quality guarantied by the manufacturer. Price—$70 PER TON.

J. J. TURNER & CO., 42 Pratt street, Baltimore, Md.

E. FRANK COE'S SUPER PHOSPHATE,

Manufactured expressly for our sales, containing nearly *three per cent. of Ammonia*, in fine dry powder, for drilling. The past two years' experience of its application on Wheat and Corn, has proved its superiority to all Super Phosphates in the growth of the crop and the improvement of the soil.

Price—$55 Per Ton. J. J. TURNER & CO., 42 Pratt Street.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

ap-6t

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passing over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street, Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS,* ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞ Boxes containing a full assortment for the Country trade, supplied to order.

GET

THE BEST!!

BUCKEYE MOWER & REAPER

STILL THE

CHAMPION MACHINE

OF THE AGE.

MANUFACTURED BY

C. AULTMAN & CO., Canton, Ohio.

Of the Buckeye as a *MOWER*, it is only necessary to say, that in addition to the many Gold Medals received during the few years of its existence, it was awarded the

First Premium Grand Gold Medal

in the FIRST CLASS, at the greatest field trial ever had in this country, held at Auburn, N. Y., in July, 1866. There were fifty-nine Machines entered, and the committee gave it "SUPERIORITY over all competitors in *perfection of work in all kinds of grass, and on every variety of surface, lightness of draft, ease of management, perfection of mechanical construction, simplicity, strength, and durability.*" The various improvements put on the Buckeye recently for *Reaping purposes*, make it in all respects the most desirable Reaper in the market. ☞ On opposite page is shown our DROPPER, which, for lightness of draft, simplicity of construction, convenience and perfection of work, it has no competitor. It constitutes two separate machines in one, differing from *all* others, having two cutting bars, separate knives, &c., one cutting 4 feet 6 inches in grass, a perfect mower, the other 5 feet 10 inches in grain—a complete and perfect Reaper—each doing the work for which it is designed, in the *best* manner. We have various styles and sizes of them as made by the above celebrated firm, and invite those wanting

A FIRST CLASS MACHINE,

to call and examine before purchasing. We are prepared to furnish all kinds of extras and repairs for the Buckeye at the lowest rates. Those having Machines to repair, will bring them in early.

☞ Prices have been reduced. Send for Catalogue and new Price List.

Dropper in the Field, Side View.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

FROM GOVERNMENT WAREHOUSES,

For sale at lowest Market Prices, in any quantities, by

WM. CRICHTON & SON,

Wood Street, Bowly's Wharf,

aug-tf Opposite Corn Exchange, Baltimore.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed*, *unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active*, as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 pounds to be used in place of 300 pounds Super Phosphate or dissolved bone.

RODUNDA ISLAND GUANO.

:o:

THE CHEAPEST FERTILIZER IN THE COUNTRY.

:o:

This Guano, although but of recent introduction into the United States, has met with unprecedented success, and we confidently recommend it to Farmers and Planters as the cheapest and best Fertilizer in the market.

The following analysis and report of experiments were made by Dr. David Stewart on his farm at Port Penn, Delaware.

Dr. Stewart was well known to the agricultural community ten or fifteen years ago, as Chemist of the State Agricultural Society, and Professor of Natural Philosophy and Agricultural Chemistry at St. John's College, Annapolis, Maryland:

Messrs. WM. CRICHTON & SON, Baltimore.

Gentlemen—I herewith submit report and analysis of *Rodunda Island Guano.*

It is a very dry and fine powder, peculiarly valuable to manufacturers of Super Phosphate in dividing or pulverizing moist compounds without diluting or deteriorating, but increasing their value as fertilizers, and especially fitting them for uniform distribution by the wheat drill, as proven by actual experiment on my wheat sown last autumn, the results of which are hereto annexed. The difficulty with all fertilizers, is their irregular distribution, and especially their tendency to interfere with the regular distribution of the wheat. Of four that I tried last year only one variety drilled well. *There is no difficulty with the Rodunda.*

ANALYSIS—(Sample representing cargo 200 tons.)

SOLUBLE PORTION.

Compound of Phosphate of Lime.....	33.35
Sulphate of Lime, &c.....	5.40
	38.75

It yields one per cent. of pure Ammonia.

The results of experiments with "Rodunda Guano," drilled through the same tubes with my wheat last autumn, are as follows:

About 200 pounds per acre of the Rodunda alone increased the weight of the crop 16 per cent., and the weight of the grain 39 per cent., over the unmanured plat.

On another plat, a mixture of Rodunda Guano and a Raw Bone Super-Phosphate in equal quantities was drilled at same rate—200 lbs. per acre—(the latter was so moist that it would not drill at all alone, or very irregularly, say 80 lbs. per acre.)—The result of this mixture was 69 per cent. increase of total crop, whereas 87 per cent. was the increase of the *grain by weight.*

The above are the actual effects produced by Rodunda Guano—but they do not represent *one-half* of the influence this Guano is capable of exerting when associated, in *proper quantities*, with other plant-food. DAVID STEWART, M. D.

Port Penn, Del., July 12th, 1867.

From an analysis made by Professor J. Newland, of London, (for many years principal assistant to Professor Way,) this Guano is found to contain as follows:

Organic matter (yielding Salts of Ammonia)..	24.67
Neutral *Soluble* Phosphate of Lime.....	6.98
Tribasic Phosphate of Lime.....	43.83
Nitrogen.....	1.13
(Equal to Ammonia).....	1.38

In connection with the above, we invite attention to the following certificates:

HARFORD CO., May 4th, 1867.

"I ploughed an old field that had not been cultivated for a number of years and drilled it with wheat. On the first part I used Peruvian Guano alone; on the second, *Peruvian* and *Rodunda* mixed, say 200 of the latter with 100 of the former: on the third part I used Rodunda *alone*, about 400 pounds to the acre. *It looks better than any* of the former. The fourth, without anything, was not worth the cutting." J. O. PATTERSON.

TAPPAHANNOCK, VA., May 4th, 1867.

"Thus far my crop of wheat, on which I applied the *Rodunda Guano*, looks as well as other wheat alongside of it on which I applied other varieties of guano, Peruvian included." Z. S. FARLAND.

EASTON, July 24th, 1867.

"I used two tons of *Rodunda Guano* last fall on my wheat with entire satisfaction. I really believe this form of applying Phosphate of Lime (Rodunda Guano) the cheapest and best; at least this is my opinion from the use of it. *It is peculiarly adapted to the drill.* I have such confidence in it that I shall use it again myself, and recommend it to my friends, not fearing the results. LEVIN H. CAMPBELL.

Price $30 Per Ton in Bags or Barrels.

A liberal deduction made to dealers and purchasers of large quantities, or by the cargo in bulk.

PACIFIC GUANO COMPANY'S

SOLUBLE

PACIFIC GUANO.

OFFICE OF GENERAL AGENCY

71 SOUTH STREET, Baltimore, Md.

:o:

JOHN S. REESE & CO.,

GENERAL AGENTS FOR THE COMPANY.

:o:

The very extended use of *this Guano* throughout the country has fully made known its remarkable excellence and superiority. *If concurrent testimony as the result of experience affords any guide to truth*, this Guano is worth more dollars per ton than Peruvian Guano. This testimony can be had from farmers in all parts of the country. It is a result that must follow from the composition of the Guano. It is unnecessary for us to say more than that the quality and composition of the Guano now in market is the same as that heretofore sold by us for the Company. The same system of inspection is kept up. This is done at a *heavy annual expense* to the *Company*, as well for their interests as the protection of consumers.

☞ SOLD BY AGENTS IN ALL THE MARKETS OF UNITED STATES, AND BY LOCAL DEALERS GENERALLY. aug-tf

COTSWOLD SHEEP FOR SALE.

I have for sale about 30 very superior COTSWOLD EWES, aged from 1 to 4 years. I will sell them at very reasonable prices, as I wish to reduce my stock. Much care and attention has been given to the breeding of this flock of sheep, and they are perhaps unsurpassed for purity, size and symmetry by any flock of sheep now offered for sale in this country.—The lambs (male and female) will be sold with the ewes, if desired, until August 1st, at which time they will be weaned and sold separately. are sired by a buck direct from imported stock, who will weigh now in their condition 260 pounds. I have just sheared from him 11 pounds of well cleansed wool. My entire flock averaged 8 pounds of wool well cleansed to each sheep, at the last shearing.

Also, for sale a number of fine, pure bred COTSWOLD BUCKS. Apply to or address

GEORGE JACKSON,

THE CULTIVATOR AND COUNTRY GENTLEMAN—Agricultural Weekly—$2.50 per year—L. Tucker & Son, Albany, New York.

Baugh's Raw Bone Phosphate!

:o:

A Standard Fertilizer of Twelve Years Approval.

:o:

THE GREAT ADVANTAGES of this Fertilizer in the growth of WHEAT and the AFTER CROP OF GRASS has been *more than ever demonstrated* in the wheat crop gathered the present harvest.

My Circular contains ample evidence as to these and other POINTS OF ESSENTIAL INTEREST to agriculturists, and PARTICULAR ATTENTION is called to the *prominent fact* of its being a

Permanent Improver and Renovator of the Soil.

:o:

ANALYSIS BY PROF. A. SNOWDEN PIGGOT.

Animal and Volatile matter		24.19
Containing of AMMONIA	3.73	
Phosphoric Acid		24.09
Equivalent to BONE PHOSPHATE OF LIME	52.57	
Alkaline and Earthy Soluble Salts		14.14
Lime, Magnesia, &c., not estimated		37.58
		100.00

It will be seen by the above analysis that "BAUGH'S RAW BONE PHOSPHATE" contains *more Phosphate of Lime and Ammonia* than any other article at a similar price now before the public, and over *fifteen per cent. of the Phosphate of Lime is immediately soluble on contact with the soil.* Therefore the *advantages of this Fertilizer* over all its competitors is *plainly evident.*

☞Sold by Dealers in Fertilizers throughout Maryland and the Southern States.

GEORGE DUGDALE,

MANUFACTURER'S AGENT,

aug-3t **Nos. 97 and 105 Smith's Wharf, Baltimore, Md.**

SORGO MACHINERY,

FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,

AND THEIR PREMIUM

POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.

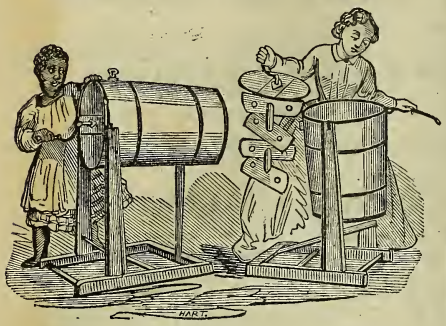

For sale Wholesale and Retail by the General Southern Agents,

E. WHITMAN & SONS,

22 and 24 S. Calvert Street, Baltimore, Md.

TINGLEY'S IMPROVED CHURN,

Patented August 11, 1863.

For Convenience, Durability and Cheapness it is unsurpassed.

We present this Churn to the public, believing that it comes up to a standard of perfection never before reached in the art of Butter-making.

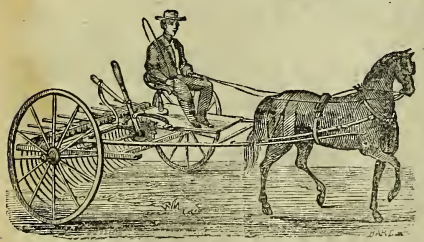

1st. It is the "old barrel churn," while, at the same time, it can be as readily cleaned as a common tub.

2d. In facilities for cleaning—as we remove the entire head and dasher in an instant, when it can be thoroughly cleaned in every part, and left open, when not in actual use, for ventilation by fresh air.

For further particulars and information apply to

JOHN M. GRIFFITH & CO.,
49 North Paca Street, Baltimore, Md.

BUCKEYE

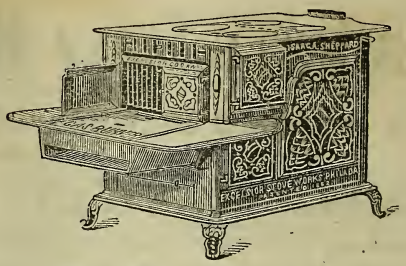

Self-Discharging Wheel Horse Rake.

The above cut represents our Buckeye Rake, which gave entire satisfaction during the last three years, wherever introduced and worked. While it claims to be equal in all essential parts, common to any first class Rake, its chief point of superiority consists in a novel patented arrangement for delivering itself of its load, when full; in all other Rakes of prominence, the emptying is accomplished by the physical power of the driver applied to the lever by hand, which, in some instances, is hard work—but in this Rake, the driver has only to move a lever a few inches to throw the discharging arrangement in gear, when by the forward movement of the horse, the teeth are raised, and the load discharged, after which it shifts out of gear, and the teeth resume their place again without any attention on the part of the driver. It will be seen that the whole labor of operating this Rake is performed by the horse, thus enabling any boy capable of driving a horse, to operate it with ease.

TWO FIRST-CLASS RURAL JOURNALS FOR $3.50.

☞ A Great offer to Planters, Farmers, Graziers, Wool Growers and Horticulturists!

THE MARYLAND FARMER,

(A Standard Agricultural Monthly, Price $1.50,)

AND

MOORE'S RURAL NEW-YORKER,

The Leading Agricultural, Literary & Family Weekly--price $3,

FURNISHED ONE YEAR FOR $3.50.

MOORE'S RURAL NEW-YORKER,

THE MOST POPULAR WEEKLY

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T. MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS,

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country*. The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master--while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and Illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

Terms---$3 a Year; 10 copies for $25, and any greater number at same rate—only $2.50 per copy.

☞Subscriptions can commence at any time.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - -	$1.50
6 COPIES	" - - - -	7.50
10 COPIES	" - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,
Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

CHOLERA.

:o:

A CERTAIN CURE FOR THIS DISEASE

May be Found in the Use of

PERRY DAVIS' VEGETABLE PAIN KILLER.

:o:

PERRY DAVIS—Sir: Although personally a stranger to you, yet the benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it.—Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentary, Toothache, &c., *there is nothing better than the Pain Killer*. I have this hour recovered from a severe attack of the Sick Headache by using up two teaspoonfulls, taken at thirty minutes' intervals, in a wine-glass full of warm water.

I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1849. Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentary attacks, accompanied with pain, for which the Pain Killer was *a sovereign remedy;* one teaspoonful curing the worst case in an hour, or at most *half a day*. My brothers in the ministry have used it with much success in various diseases.

I have heard many cases the country over of Dysentary being cured by its use. Put in the teeth, it would stop the toothache.

Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

D. T. TAYLOR, Jr.
Minister of the Gospel.

The following letter is from Mr. WOODWARD, a resident of St. Louis, a gentleman of high respectability, who, during the prevalence of the Cholera in that city, watched the result of the application of the Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence:

Dear Sir: You recollect when I saw you in New London in January last my expressing to you my most sanguine expectations that DAVIS' PAIN KILLER would have a tremendous sale in the West this season, and my anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

On the appearance of the Cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it remarked to me that they had no fears or dread of the Cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive; for no persons can have a derangement of the bowels or diarrhœa if they use this medicine. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the Cholera, they would administer the remedy in large quantities internally, by bathing and rubbing them with it; and in every case, when it has been taken in any of the first stages of this disease, it has proved successful.

I consider it an infallible remedy. I have not heard of any individual in any family, who used the Pain Killer when attacked, but what speedily recovered.

The clerk informed me that he administered it to persons when cold and in the cramps, and it gave immediate relief; but still it should be given quickly, for when the discharge of "rice water" has begun, the hope of life has fled. Should this disease make its appearance among you, as in all probability it will, be not alarmed; you and all others there have the remedy, and I am confident if the Pain Killer is used, not a death by Cholera will occur in your city.

Respectfully yours,
A. P. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bath freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhœa or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked, and the patient relieved in the course of a few hours.

N. B. Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the Cholera, that in extreme cases the patient take two (or more) teaspoonsful instead of one. Sold by all medicine dealers.

aug-1y

BALTIMORE AND OHIO RAIL ROAD.

REAPERS

AND

MOWERS.

Sole and exclusive Agents for Maryland and the Atlantic Coast States, for the sale of the justly celebrated

Cut Gear World's REAPER AND MOWER.

This Cut Gear is regarded by all unprejudiced minds as the greatest improvement ever made of Reaping and Mowing Machines. And in addition to this great advantage over all other Machines of its kind, the entire gearing is enclosed in a tight cast iron case, thus keeping the gearing free from all dust and dirt, thereby rendering the Machine five times as durable, and of much lighter draught than the usual rough cast gear.

ALSO,

THE CELEBRATED

TORNADO

THRESHER AND CLEANER,

I breed only pure SHORT-HORN CATTLE, and have young BULLS and HEIFERS. Also ALBEMARLE IMPROVED HOGS, Boar and Sow Shoats and Pigs for sale, and sent by trains in any direction. My prices are made to suit the condition of the South.

S. W. FICKLIN,
ap6t *Near Charlottesville, Va.*

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

MANUFACTURER OF

BOOTS AND SHOES

OF EVERY DESCRIPTION.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

J. WILKINSON,
Landscape Gardener, Rural Architect
And CIVIL ENGINEER,
BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

THE
AIKEN PRESS,
(A WEEKLY PAPER,)
Published at Aiken, South Carolina,

Devoted to General Intelligence, and especially to the Field, the Orchard, the Vineyard and the Garden.

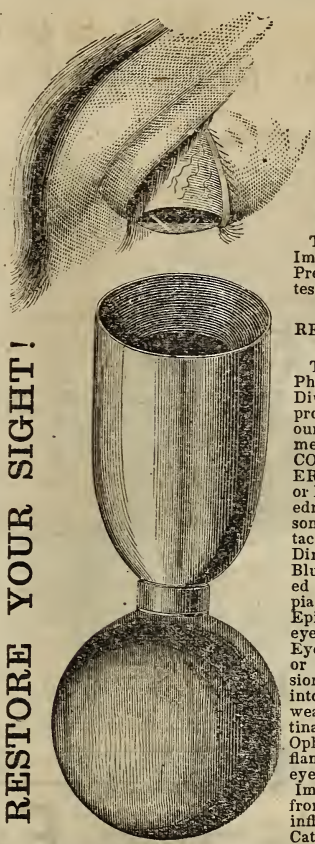

TERMS $3 *PER ANNUM.*

H. D. MACHEN, Publisher.
H. W. RAVENEL, Editor.

This paper published in the centre of an extensive fruit-growing region where large orchards of Peaches, Apples and Pears are cultivated for Northern and domestic markets, and extensive vineyards for the manufacture of wine and the sale of the fruit, offers inducements as a medium of communication between the nurserymen of the Northern and Middle States and the fruit growers of the South, who need replenishing their stock. In the immediate neighborhood are also three large cotton factories, a paper mill, and a kaolin factory, offering inducements to machine factories to advertise. jy-tf

Great Improvement in Pumps!

CLARK'S PATENT
Double Acting Lift & Force Pumps.

This Pump is warranted to be superior in every respect to all others—the packing being composed of gum instead of leather—the plunger of Tera Cotta ware, twice burnt, glazed smooth as glass, and hard as flint, thereby creating but little friction and no wear at all. The valves are also of gum, which, together with its peculiar packing, keep it always in working order, even if it stand for years without use, being composed of no shrinking material. This Pump is adapted to all purposes.

Manufactured by

L. P. CLARK & SON,

Nos. 42 and 44 HOLLIDAY ST.,

m1-tf **BALTIMORE, MD.**

TO FARMERS AND PLANTERS.

"EXCELSIOR."

Containing { *AMMONIA*, 6 per cent. / *PHOSPHATE OF LIME*, 57 per cent.

Composed of *Seven Hundred Pounds of No.* 1 *Peruvian Guano* and *Thirteen Hundred Pounds of Bones*, dissolved in *Sulphuric Acid*, forming the most universal *Crop Grower* and concentrated durable Fertilizer ever offered to Agriculturists, combining all the stimulating properties of the Peruvian Guano, and the ever durable fertilizing qualities of Bones. Adapted for all soils and crops, and in *fine dry powder* for sowing or drilling with the seed.

The most prominent farmers of Maryland and Virginia after 6 years experience with EXCELSIOR, pronounce an application of 100 lbs. to the acre equal to from 200 to 300 lbs. of any other fertilizer for sale in this market.

Uniformity of quality guarantied by the manufacturer. Price—$70 PER TON.

J. J. TURNER & CO., 42 Pratt street, Baltimore, Md.

E. FRANK COE'S SUPER PHOSPHATE,

Manufactured expressly for our sales, containing nearly *three per cent. of Ammonia*, in fine dry powder, for drilling. The past two years' experience of its application on Wheat and Corn, has proved its superiority to all Super Phosphates in the growth of the crop and the improvement of the soil.

Price—$55 Per Ton. J. J. TURNER & CO., 42 Pratt Street.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

ap-6t

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

GARDEN, FIELD AND FLOWER SEEDS.

E. WHITMAN & SONS,

22 & 24 S. Calvert Street, Baltimore, Md.

Will have in store for the coming season one of the largest and best selected stocks of *GARDEN, FIELD AND FLOWER SEEDS*, ever offered in this country. Those of Foreign growth are imported direct from the most reliable houses in Europe, and all are warranted true to name. All of the new and choice varieties of Vegetables which we find to succeed in this climate, will be imported by us. From our long experience in the Seed business, we can fully recommend the Seeds from our establishment to be fully equal to those from any establishment in the country.

CHOICE FLOWER SEEDS.

All the choicest varieties of American and Foreign growth.

TWENTY SELECT VARIETIES FOR ONE DOLLAR.

The trade supplied at reduced rates. A full assortment of Winter and Spring Flowering Bulbs.

☞ Boxes containing a full assortment for the Country trade, supplied to order.

GET

THE BEST!!

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

———:o:———

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

THE

Lodi Manufacturing Co.

(Established 1840.)

Offer for sale, of their own manufacture,

BONE DUST,

(warranted pure,) of any grade of fineness, as low as any other PURE article in market. Also,

DOUBLE REFINED POUDRETTE,

composed of Night Soil of New York city, from which the impurities have been strained and extracted. This is the most forcing and quick acting manure in market, and by far the CHEAPEST. Pulverized to flour, it will drill as well as any other fertilizer. Price $25 per ton, on board vessel, in New York; $28 per ton in Baltimore. Four hundred pounds of this drilled in with wheat will bring a good crop on a poor soil.

Nitro Phosphate of Lime.

This is composed of bones softened by fermentation with Night Soil ground to a fine powder, warranted to be composed of seventy per cent. of bone. No fertilizer ever offered in this market can approach this in effect. It is quick, and also powerful and lasting. Price $65 per ton in Baltimore.

Apply to THE LODI MANUFACTURING CO., 66 Cortlandt street, New York, or THOS. BAYNES & SON, 139 McElderry's wharf, foot of Marsh st., Baltimore, Md. sep-2t

STRAWBERRIES.

—:o:—

After a trial of eight years, we unhesitatingly say that for

UNIFORM AND LARGE SIZE;
BEAUTY OF FORM and COLOR;
ENORMOUS YIELD;
LONG CONTINUANCE IN BEARING;
HEALTH AND VIGOR OF PLANT;
ADAPTATION TO SHIPMENT;
GREAT PROFIT,
And other desirable qualities, the

JUCUNDA---Our No. 700.

Is Much the Most Valuable Strawberry of which we have any Knowledge.

PLANT THE BEST.—It is poor economy to grow *inferior varieties* when the best can be obtained, though the plants could be had for nothing. We can make more money on *one* acre of JUCUNDA—Our No. 700, than we can on *five* of Wilson. For full information in reference to this wonderful Strawberry—its uniformly immense crops—fine shipping qualities, and high market value—testimonials from different parts of the country—opinions of Dr. John A. Warder, author of *American Pomology*, Prof. Geo. Thurber, editor of *American Agriculturist*, Thos. Meehan, editor of *Gardener's Monthly*, M. B. Bateham, Sec. of Ohio Pomological Society, Geo. Beeler, late Sec. of Indiana Horticultural Society, A. W. Harrison, Sec. of Pennsylvania Horticultural Society, and many others—see the

☞ NEW EDITION OF OUR CATALOGUE. ☜

Which also contains *COMPLETE LISTS* of best EARLY MEDIUM and LATE varieties, for both *Home use* and *Market purposes*. Prices of Plants grown in Pots and otherwise, by *mail* and *express*, and much other valuable information in reference to the Strawberry.

We will furnish strong plants of **JUCUNDA---Our No. 700,** this fall at following prices: BY MAIL—$1 per dozen; $6 per 100. BY EXPRESS—$6 per 100; $50 per $1,000.

Pot Grown Plants, for Bearing a Full Crop of Fruit Next Season.

2-inch Pots,	$2 00	per dozen;	$12	per 100;	$100	per 1,000.
3 " "	$2 50	"	$15	"	$125	"
4 " "	$3 00	"	$20	"	$150	"

☞ For prices of other varieties *see Catalogue*, which will be sent to all applicants enclosing 10 cents.

GRAPES.

To produce a good crop of Grapes every year, commanding remunerative prices, we regard as

SUCCESSFUL GRAPE GROWING,

and to grow annually from Bearing Vineyards an immense stock of *HEALTHY VINES*, which are scattered all over the country, by mail and express, giving entire satisfaction wherever planted, in their growth and yield of fruit, we consider

SUCCESSFUL VINE GROWING.

We have *Twenty-five* acres in Vineyard, and *Ten* acres in Young Vines for sale. Our Vineyards and Nurseries have been visited this season by some of the most prominent fruit growers of the country, who pronounce our crop of Fruit and stock of Vines unsurpassed, if equalled, by any they have seen. The proper place to determine the merits of a Grape, is in the Vineyard, when in fruit, and we prefer, in all cases, where it is practicable, that persons wanting our Vines, should see them before purchasing. Our

GRAPE SHOW

This season, will be on WEDNESDAY, the 9th of October, instead of a week later, as advertised. We cordially invite all who are interested in Grape Culture to attend.

Our STOCK OF VINES comprises all desirable kinds, and our prices will be found reasonable.

DESCRIPTIVE AND ILLUSTRATED CATALOGUE

Sent to all applicants enclosing 10 cents. Early orders are solicited.

J. KNOX, Box 155, Pittsburgh, Pa.

CURRANTS.

Being satisfied that there would be a large demand for the finer varieties of Currants, we have been engaged for years in making a collection which we believe is much the largest and best in the country. The demand for this excellent fruit has greatly increased within a few years, and though the market has been glutted with common kinds, we have had no difficulty in obtaining high prices for the finer sorts. The many purposes to which the Currant can be devoted—its cooling and refreshing acidity in the hot summer months, its wholesome influence, and the ease and profit with which it can be cultivated—ought to make it a thousand fold more abundant than it is. Our collection includes—

VERSAILLAISE—Perhaps the best of all.
FERTILE DE ANGERS—Very similar to above.
CHERRY—Best for Jams and Jellies.
LA HATIVE—Vigorous grower and very good.
VICTORIA—Good and very late.
WHITE GRAPE—Beautiful, very large, mild flavor, very palatable, and enormous bearer; good for dessert, wine, and other purposes.
BLACK NAPLES—Good for Jams and Jellies.

Send 10 cents for Descriptive and Illustrated Catalogue. **J. KNOX,**

NEW STYLE VERTICAL MILL.

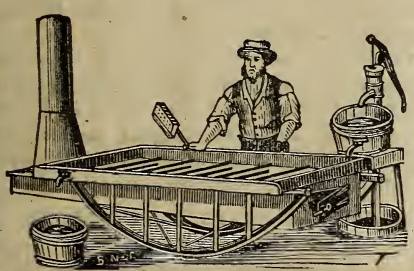

THE VICTOR.

The above engraving represents our new style VICTOR CANE MILL. For completeness of adjustment, strength, durability, and working power, they have no equal. The fluted roll is the important feature that regulates the feeding of the mill. The ridges seize upon the cane as soon as presented, thus relieving the labor so often necessary to force the stalks to an entrance between smooth rolls, and at the same time secures its direct passage to the discharge roll. They also break the woody fibre at short intervals, and thus rupturing the cells cause the more ready flow of the juice. We also have horizontal mills, for horse, water and steam power.

COOK'S SUGAR EVAPORATOR.

FIRST PREMIUM AT

FORTY STATE FAIRS!

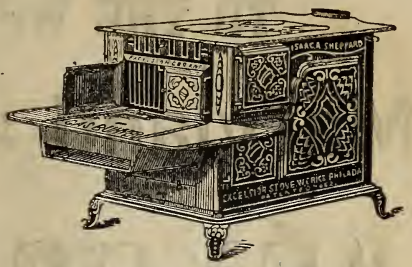

12,000 in Use—All Fully Warranted.

COOK'S EVAPORATOR is simple, yet scientific in its construction. It consists in an evaporating pan of sheet metal, copper, or galvanized iron, placed on rockers with wooded sides, and so divided by ledges as to form a continuous tranverse channel over a heated and cooling surface of from 75 to 125 feet. It is estimated that 20,000,000 gallons of syrup have been manufactured on the above Evaporator in the past season. We also have Plantation Pans, adapted to a brick arch; also, Centrifugal Sugar Draining Machines. Circulars and Pamphlets with full description and price list, sent to all applicants.

The *MARYLAND CANE STRIPPER AND TOPPER*, patented October 10, 1865. Price complete $15. For Descriptive Circulars and further particulars, address

seply

TO THE WHEAT GROWERS
OF
Maryland and Virginia!

:o:

"EXCELSIOR."

Containing Ammonia, - - - - - - 6 per cent.
Super-Phosphate equivalent to
Bone Phosphate of Lime, - - 57 "
Potash of Soda, - - - - - - 5 "

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of *Soluble* Phosphate of lime (bones dissolved in acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer and planter—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanoes, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils, new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

We introduced Excelsior in 1858, and challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of our firm superintends in person every minutia of its manufacture. We therefore warrant every bag uniform, and to contain by analysis, the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers of Maryland, after eight years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds per acre of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

We are daily in receipt, from every quarter, of flattering encomiums from those who used it last fall on wheat, and the past spring and summer on cotton, corn and tobacco, and had we the space could publish hundreds of testimonials, many from gentlemen who have continued its use year after year since its introduction.

The best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Some unprincipled manufacturers have actually used our trade mark for the purpose of palming off their worthless compounds.

EVERY BAG BRANDED AS FOLLOWS:

Farmers should see that every bag bears in *red letters* the name of J. J. TURNER & CO. under the inspection mark, and thus secure the genuine article.

J. J. TURNER & CO.,
42 Pratt Street, Baltimore, Md.

E. FRANK COE'S
AMMONIATED
SUPER-PHOSPHATE,

Manufactured expressly for our sales—containing nearly 3 per cent. of Ammonia, in good order for drilling. The past three years' experience of its application on Wheat, has proved its superiority to all other Super-Phosphates in the growth of the crop and improvement of the soil.

As there are a variety of "Coe's" Phosphates offered in the market, the components of which we have no knowledge, purchasers should see that every barrel of E. Frank Coe's Phosphate bears our name. None other genuine.

J. J. TURNER & CO.,
42 PRATT STREET,
BALTIMORE.

J. J. TURNER & CO.'S
AMMONIATED
BONE SUPER-PHOSPHATE,

Containing nearly 3 per cent. of Ammonia, dry and in good order for drilling. Very high encomiums have been paid its efficacy in the growth of Wheat and Tobacco the past three years.

J. J. TURNER & CO.

42 Pratt Street, Baltimore.

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore,

And by Dealers in general throughout the country.

The SOMBRERO GUANO of which MORO PHILLIPS' PHOSPHATE is and always has been manufactured, (and of which he has sole control for the United States,) contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The addition of Ammonia gives it greater fertilizing value

Over six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

MORO PHILLIPS,

mar 1y Sole Proprietor and Manufacturer.

PERUVIAN GUANO!

FROM GOVERNMENT WAREHOUSES,

For sale at lowest Market Prices, in any quantities, by

WM. CRICHTON & SON,

Wood Street, Bowly's Wharf,

aug-tf Opposite Corn Exchange, Baltimore.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active*, as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 pounds to be used in place of 300 pounds Super Phosphate or dissolved bone.

JOHN S. REESE & CO.,

General Agents for the South,

aug-tf 71 South Street, Baltimore.

aug-tf **52 Light Street, Baltimore, Md.**

Baugh's Raw Bone Phosphate!

:o:

A Standard Fertilizer of Twelve Years Approval.

:o:

THE GREAT ADVANTAGES of this Fertilizer in the growth of WHEAT and the AFTER CROP OF GRASS has been *more than ever demonstrated* in the wheat crop gathered the present harvest.

My Circular contains ample evidence as to these and other POINTS OF ESSENTIAL INTEREST to agriculturists, and PARTICULAR ATTENTION is called to the *prominent fact* of its being a

Permanent Improver and Renovator of the Soil.

:o:

ANALYSIS BY PROF. A. SNOWDEN PIGGOT.

Animal and Volatile matter	24.19
Containing of AMMONIA	3.73
Phosphoric Acid	24.09
Equivalent to BONE PHOSPHATE OF LIME	52.57
Alkaline and Earthy Soluble Salts	14.14
Lime, Magnesia, &c., not estimated	37.58
	100.00

It will be seen by the above analysis that "BAUGH'S RAW BONE PHOSPHATE" contains *more Phosphate of Lime and Ammonia* than any other article at a similar price now before the public, and over *fifteen per cent. of the Phosphate of Lime is immediately soluble on contact with the soil.* Therefore the *advantages of this Fertilizer* over all its competitors is *plainly evident.*

☞Sold by Dealers in Fertilizers throughout Maryland and the Southern States.

GEORGE DUGDALE,

MANUFACTURER'S AGENT,

aug-3t **Nos. 97 and 105 Smith's Wharf, Baltimore, Md.**

SORGO MACHINERY,

FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,

AND THEIR PREMIUM

POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.

For sale Wholesale and Retail by the General Southern Agents,

E. WHITMAN & SONS,

22 and 24 S. Calvert Street, Baltimore, Md.

PACIFIC GUANO COMPANY'S

SOLUBLE

PACIFIC GUANO.

OFFICE OF GENERAL AGENCY

71 SOUTH STREET, Baltimore, Md.

:o:

JOHN S. REESE & CO.,

GENERAL AGENTS FOR THE COMPANY.

:o:

The very extended use of *this Guano* throughout the country has fully made known its remarkable excellence and superiority. *If concurrent testimony as the result of experience affords any guide to truth*, this Guano is worth more dollars per ton than Peruvian Guano. This testimony can be had from farmers in all parts of the country. It is a result that must follow from the composition of the Guano. It is unnecessary for us to say more than that the quality and composition of the Guano now in market is the same as that heretofore sold by us for the Company. The same system of inspection is kept up. This is done at a *heavy annual expense* to the *Company*, as well for their interests as the protection of consumers.

☞ SOLD BY AGENTS IN ALL THE MARKETS OF UNITED STATES, AND BY LOCAL DEALERS GENERALLY. aug-tf

SOUTHERN LITERARY INSTITUTE,

SELECT BOARDING AND DAY SCHOOL,

FOR YOUNG LADIES.

MRS. GEORGIE A. HULSE McLEOD, Principal.
Residence, the Mansion of the late Dr. EDMONSON,
GILMOR STREET, north of Franklin,
(*Entrance on Gilmor street,*)
BALTIMORE, MD.

Southern by birth and Southern in her sympathies and affections, the Principal cordially invites the attention of Southern parents and guardians to her Literary Institute. She has already evinced her deep interest in the South by offering through the "Ladies of the Southern Relief Association of Baltimore," one full free scholarship, including Board, Tuition, &c., for her native State, Florida, and one free scholarship for Tuition for each of the other ten Southern States, applications for which to be made through the above Association.

The location is most desirable. The large and commodious Mansion is situated on the most elevated ground in the western suburbs of the city of Baltimore, and is surrounded by thirty acres of land beautifully adorned with ornamental trees and shrubbery. The dormitories are spacious and well-ventilated.

The course of Instruction, in each department, English, French, Classical, ane Mathematical, is thorough.

The object of the Principal is to combine the advantages of a first-class educational establishment with the comforts and pleasures of HOME.

The Annual Session commences September 9th, 1867, and ends the last Wednesday in June, 1868.

Address the Principal for Circulars.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family.

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

CHOLERA.

:o:

A CERTAIN CURE FOR THIS DISEASE

May be Found in the Use of

PERRY DAVIS' VEGETABLE PAIN KILLER.

:o:

PERRY DAVIS—Sir: Although personally a stranger to you, yet the benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it.—Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentary, Toothache, &c., *there is nothing better than the Pain Killer*. I have this hour recovered from a severe attack of the Sick Headache by using up two teaspoonfulls, taken at thirty minutes' intervals, in a wine-glass full of warm water.

I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1849. Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentary attacks, accompanied with pain, for which the Pain Killer was *a sovereign remedy;* one teaspoonful curing the worst case in an hour, or at most *half a day*. My brothers in the ministry have used it with much success in various diseases.

I have heard many cases the country over of Dysentary being cured by its use. Put in the teeth, it would stop the toothache.

Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

D. T. TAYLOR, Jr.
Minister of the Gospel.

The following letter is from Mr. WOODWARD, a resident of St. Louis, a gentleman of high respectability, who, during the prevalence of the Cholera in that city, watched the result of the application of the Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence:

Dear Sir: You recollect when I saw you in New London in January last my expressing to you my most sanguine expectations that DAVIS' PAIN KILLER would have a tremendous sale in the West this season, and my anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

On the appearance of the Cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it remarked to me that they had no fears or dread of the Cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive; for no persons can have a derangement of the bowels or diarrhœa if they use this medicine. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the Cholera, they would administer the remedy in large quantities internally, by bathing and rubbing them with it; and in every case, when it has been taken in any of the first stages of this disease, it has proved successful.

I consider it an infallible remedy. I have not heard of any individual in any family, who used the Pain Killer when attacked, but what speedily recovered.

The clerk informed me that he administered it to persons when cold and in the cramps, and it gave immediate relief; but still it should be given quickly, for when the discharge of "rice water" has begun, the hope of life has fled. Should this disease make its appearance among you, as in all probability it will, be not alarmed; you and all others there have the remedy, and I am confident if the Pain Killer is used, not a death by Cholera will occur in your city.

Respectfully yours,
A. P. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bath freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhœa or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked, and the patient relieved in the course of a few hours.

N. B. Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the Cholera, that in extreme cases the patient take two (or more) teaspoonsful instead of one. Sold by all medicine dealers. aug-1y

RODUNDA ISLAND GUANO.

:o:

THE CHEAPEST FERTILIZER IN THE COUNTRY.

:o:

This Guano, although but of recent introduction into the United States, has met with unprecedented success, and we confidently recommend it to Farmers and Planters as the cheapest and best Fertilizer in the market.

The following analysis and report of experiments were made by Dr. David Stewart on his farm at Port Penn, Delaware.

Dr. Stewart was well known to the agricultural community ten or fifteen years ago, as Chemist of the State Agricultural Society, and Professor of Natural Philosophy and Agricultural Chemistry at St. John's College, Annapolis, Maryland:

Messrs. Wm. Crichton & Son, Baltimore.

Gentlemen—I herewith submit report and analysis of *Rodunda Island Guano.*

It is a very dry and fine powder, peculiarly valuable to manufacturers of Super Phosphate in dividing or pulverizing moist compounds without diluting or deteriorating, but increasing their value as fertilizers, and especially fitting them for uniform distribution by the wheat drill, as proven by actual experiment on my wheat sown last autumn, the results of which are hereto annexed. The difficulty with all fertilizers, is their irregular distribution, and especially their tendency to interfere with the regular distribution of the wheat. Of four that I tried last year only one variety drilled well. *There is no difficulty with the Rodunda.*

ANALYSIS—(Sample representing cargo 200 tons.)

Soluble Portion.

Compound of Phosphate of Lime.....	33.35
Sulphate of Lime, &c.....	5.40
	38.75

It yields one per cent. of pure Ammonia.

The results of experiments with "Rodunda Guano," drilled through the same tubes with my wheat last autumn, are as follows:

About 200 pounds per acre of the Rodunda alone increased the weight of the crop 16 per cent., and the weight of the grain 39 per cent., over the unmanured plat.

On another plat, a mixture of Rodunda Guano and a Raw Bone Super-Phosphate in equal quantities was drilled at same rate—200 lbs. per acre—(the latter was so moist that it would not drill at all alone, or very irregularly, say 80 lbs. per acre.)—The result of this mixture was 69 per cent. increase of total crop, whereas 87 per cent. was the increase of the *grain by weight.*

The above are the actual effects produced by Rodunda Guano—but they do not represent *one-half* of the influence this Guano is capable of exerting when associated, in *proper quantities*, with other plant-food. David Stewart, M. D.

Port Penn, Del., July 12th, 1867.

From an analysis made by Professor J. Newland, of London, (for many years principal assistant to Professor Way,) this Guano is found to contain as follows:

Organic matter (yielding Salts of Ammonia)..	24.67
Neutral *Soluble* Phosphate of Lime.....	6.98
Tribasic Phosphate of Lime.....	43.83
Nitrogen.....	1.13
(Equal to Ammonia).....	1.38

In connection with the above, we invite attention to the following certificates:

Harford Co., May 4th, 1867.

"I ploughed an old field that had not been cultivated for a number of years and drilled it with wheat. On the first part I used Peruvian Guano alone; on the second, *Peruvian* and *Rodunda* mixed, say 200 of the latter with 100 of the former: on the third part I used Rodunda *alone*, about 400 pounds to the acre. *It looks better than any* of the former. The fourth, without anything, was not worth the cutting." J. O. Patterson.

Tappahannock, Va., May 4th, 1867.

"Thus far my crop of wheat, on which I applied the *Rodunda Guano*, looks as well as other wheat alongside of it on which I applied other varieties of guano, Peruvian included." Z. S. Farland.

Easton, July 24th, 1867.

"I used two tons of *Rodunda Guano* last fall on my wheat with entire satisfaction. I really believe this form of applying Phosphate of Lime (Rodunda Guano) the cheapest and best; at least this is my opinion from the use of it. *It is peculiarly adapted to the drill.* I have such confidence in it that I shall use it again myself, and recommend it to my friends, not fearing the results. Levin H. Campbell.

Price $30 Per Ton in Bags or Barrels.

A liberal deduction made to dealers and purchasers of large quantities, or by the cargo in bulk.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The LOCK STITCH made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, and durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction. I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c, feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice,

THE BEST!!

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

———:o:———

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

AS THE GENERAL WHOLESALE AGENTS FOR

LITTLE'S WHITE OIL,

We invite your attention to its claims on the patronage of the public.

1st. It is beyond question, proven by 20 years test, the best Liniment ever used.

2d. It is warranted to cure Swelled Joints, Sprains, Cuts, Saddle and Collar Galls, Scratches, Poll Evil, Fistula and all pains and sores that horses are liable to.

3d. As a Liniment for man, it stands unsurpassed, and is guaranteed to cure Rheumatism, Scalds, Burns, and all kinds of pains and aches mankind is subject to.

We are prepared to supply this Oil in packages to suit dealers, and warrant this Oil to come up to our representations. ☞All parties ordering from us who will send us a newspaper of their selection, we will advertise in that paper for them. **It is Retailed everywhere for 50 Cts. per Bottle.**

Guaranteeing this Oil to give satisfaction, as we have any number of certificates, and with a determination to keep it prominently before the public, we solicit your orders. Very respectfully,

CLARK & BLAIR.

:o:

SCOTTSVILLE, Va., April 1, 1867.

The undersigned have established a Wholesale Depot for the sale of the "LITTLE'S WHITE OIL" in Richmond, Va., and Messrs. Clark & Blair are constituted Sole Agents.

All orders for "LITTLE'S WHITE OIL" must be addressed to *Clark & Blair, General Agents, Richmond, Va.*

BENDERSVILLE, ADAMS COUNTY, PA.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

BOOK AGENTS WANTED

To Solicit Orders for a New Illustrated

BIBLE DICTIONARY.

COMPLETE IN ONE VOLUME.

This DICTIONARY embodies the results of the most recent study, research and investigation, of about sixty-five of the most eminent and advanced Biblical Scholars now living. Clergymen of all denominations approve it, and regard it as the best work of its kind in the English language, and one which ought to be in the hands of every Bible reader in the land.

In circulating this Work, Agents will find a pleasant and profitable employment. The numerous objections which are usually encountered in selling ordinary works will not exist with this.

But, on the contrary, encouragement and friendly aid will attend the Agent, making his labors agreeable, useful and lucrative.

Ladies, retired Clergymen, School Teachers, Farmers, Students, and all others who possess energy, are wanted to assist in canvassing every town and county in the country, to whom the most liberal inducements will be offered.

THE Lodi Manufacturing Co.

(Established 1840.)

Offer for sale, of their own manufacture,

BONE DUST,

(warranted pure,) of any grade of fineness, as low as any other PURE article in market. Also,

DOUBLE REFINED POUDRETTE,

composed of Night Soil of New York city, from which the impurities have been strained and extracted. This is the most forcing and quick acting manure in market, and by far the CHEAPEST. Pulverized to flour, it will drill as well as any other fertilizer. Price $25 per ton, on board vessel, in New York; $28 per ton in Baltimore. Four hundred pounds of this drilled in with wheat will bring a good crop on a poor soil.

Nitro Phosphate of Lime.

This is composed of bones softened by fermentation with Night Soil ground to a fine powder, warranted to be composed of seventy per cent. of bone. No fertilizer ever offered in this market can approach this in effect. It is quick, and also powerful and lasting. Price $65 per ton in Baltimore.

Apply to THE LODI MANUFACTURING CO., 66 Cortlandt street, New York, or THOS. BAYNES & SON, 139 McElderry's wharf, foot of Marsh st., Baltimore, Md. sep-2t

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore.

And by Dealers in general throughout the country.

The SOMBRERO GUANO of which MORO PHILLIPS' PHOSPHATE is and always has been manufactured, (and of which he has sole control for the United States,) contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The addition of Ammonia gives it greater fertilizing value

Over six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

MORO PHILLIPS,

mar 1y Sole Proprietor and Manufacturer.

PERUVIAN GUANO!

FROM GOVERNMENT WAREHOUSES,

For sale at lowest Market Prices, in any quantities, by

WM. CRICHTON & SON,

Wood Street, Bowly's Wharf,

aug-tf Opposite Corn Exchange, Baltimore.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active*, as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 pounds to be used in place of 300 pounds Super Phosphate or dissolved bone.

JOHN S. REESE & CO.,

General Agents for the South,

aug-tf **71 South Street, Baltimore.**

ANDREW COE'S

RAW BONE PHOSPHATE,

THE BEST FERTILIZER

NOW OR EVER

OFFERED TO THE PUBLIC.

WE MAKE NO EXCEPTIONS.

EVERY BARREL WARRANTED AND STAMPED WITH OUR NAME.

Call and see our testimonials from Farmers who tried it on Wheat and other crops.

We submit the following analysis from Dr. Piggot:

To Messrs. HERBERT & HAIRSTON,
No. 10 Camden Street, Baltimore, Md.

REPORT OF ANALYSIS OF SAMPLE OF ANDREW COE'S SUPER-PHOSPHATE OF LIME, TAKEN BY MYSELF FROM BAGS IN THE WAREHOUSE.

Moisture. - - - - - -	18.36
Organic Matter, - - - - -	32.13
(Capable of generating AMMONIA, -	3.33)
Soluble Phosphoric Acid, - - - -	6.19
(equivalent to BONE PHOSPHATE OF LIME—DISSOLVED,	13.51)
Phosphoric Acid, - - - - -	9.04
(equivalent to BONE PHOSPHATE OF LIME,	19.73)
Alkaline Salts, - - - - -	8.79
Lime, Sulphuric Acid, &c., not estimated, -	25.49
	100.00

The above analysis shows this to be a well made Super-Posphate. Its ammonia will give the crop a vigorous start; the soluble Phosphoric acid will strengthen the young plant, while the residual phosphoric acid will furnish a supply available for the whole period of growth; the alkaline salts furnish food immediately needful, while at the same time they promote the absorption of ammonia.

NEW STYLE VERTICAL MILL.

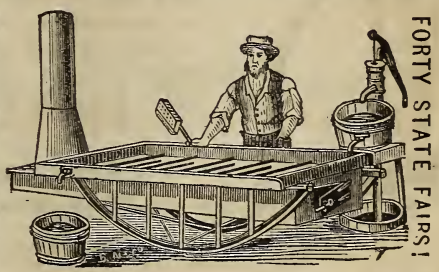

THE VICTOR.

The above engraving represents our new style VICTOR CANE MILL. For completeness of adjustment, strength, durability, and working power, they have no equal. The fluted roll is the important feature that regulates the feeding of the mill. The ridges seize upon the cane as soon as presented, thus relieving the labor so often necessary to force the stalks to an entrance between smooth rolls, and at the same time secures its direct passage to the discharge roll. They also break the woody fibre at short intervals, and thus rupturing the cells cause the more ready flow of the juice. We also have horizontal mills, for horse, water and steam power.

COOK'S SUGAR EVAPORATOR.

FIRST PREMIUM AT

FORTY STATE FAIRS!

12,000 in Use—All Fully Warranted.

COOK'S EVAPORATOR is simple, yet scientific in its construction. It consists in an evaporating pan of sheet metal, copper, or galvanized iron, placed on rockers with wooded sides, and so divided by ledges as to form a continuous tranverse channel over a heated and cooling surface of from 75 to 125 feet. It is estimated that 20,000,000 gallons of syrup have been manufactured on the above Evaporator in the past season. We also have Plantation Pans, adapted to a brick arch; also, Centrifugal Sugar Draining Machines. Circulars and Pamphlets with full description and price list, sent to all applicants.

The *MARYLAND CANE STRIPPER AND TOPPER*, patented October 10, 1865. Price complete $15. For Descriptive Circulars and further particulars, address

Baugh's Raw Bone Phosphate!

:o:

A Standard Fertilizer of Twelve Years Approval.

:o:

THE GREAT ADVANTAGES of this Fertilizer in the growth of WHEAT and the AFTER CROP OF GRASS has been *more than ever demonstrated* in the wheat crop gathered the present harvest.

My Circular contains ample evidence as to these and other POINTS OF ESSENTIAL INTEREST to agriculturists, and PARTICULAR ATTENTION is called to the *prominent fact* of its being a

Permanent Improver and Renovator of the Soil.

:o:

ANALYSIS BY PROF. A. SNOWDEN PIGGOT.

Animal and Volatile matter		24.19
Containing of AMMONIA	3.73	
Phosphoric Acid		24.09
Equivalent to BONE PHOSPHATE OF LIME	52.57	
Alkaline and Earthy Soluble Salts		14.14
Lime, Magnesia, &c., not estimated		37.58
		100.00

It will be seen by the above analysis that "BAUGH'S RAW BONE PHOSPHATE" contains *more Phosphate of Lime and Ammonia* than any other article at a similar price now before the public, and over *fifteen per cent. of the Phosphate of Lime is immediately soluble on contact with the soil.* Therefore the *advantages of this Fertilizer* over all its competitors is *plainly evident.*

☞Sold by Dealers in Fertilizers throughout Maryland and the Southern States.

GEORGE DUGDALE,

MANUFACTURER'S AGENT,

aug-3t **Nos. 97 and 105 Smith's Wharf, Baltimore, Md.**

PACIFIC GUANO COMPANY'S

SOLUBLE

PACIFIC GUANO.

OFFICE OF GENERAL AGENCY

71 SOUTH STREET, Baltimore, Md.

:o:

JOHN S. REESE & CO.,

GENERAL AGENTS FOR THE COMPANY.

:o:

The very extended use of *this Guano* throughout the country has fully made known its remarkable excellence and superiority. *If concurrent testimony as the result of experience affords any guide to truth*, this Guano is worth more dollars per ton than Peruvian Guano. This testimony can be had from farmers in all parts of the country. It is a result that must follow from the composition of the Guano. It is unnecessary for us to say more than that the quality and composition of the Guano now in market is the same as that heretofore sold by us for the Company. The same system of inspection is kept up. This is done at a *heavy annual expense* to the *Company*, as well for their interests as the protection of consumers.

☞SOLD BY AGENTS IN ALL THE MARKETS OF UNITED STATES, AND BY LOCAL DEALERS GENERALLY. aug-tf

TWO FIRST-CLASS RURAL JOURNALS FOR $3.50.

☞ A Great offer to Planters, Farmers, Graziers, Wool Growers and Horticulturists !

THE MARYLAND FARMER,

(A Standard Agricultural Monthly, Price $1.50,)

AND

MOORE'S RURAL NEW-YORKER,

The Leading Agricultural, Literary & Family Weekly--price $3,

FURNISHED ONE YEAR FOR $3.50.

MOORE'S RURAL NEW-YORKER,

THE MOST POPULAR WEEKLY

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T. MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS,

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country*. The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master– while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and Illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

Terms---$3 a Year; 10 copies for $25, and any greater number at same rate—only $2.50 per copy.

☞Subscriptions can commence at any time.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - -	$1.50
6 COPIES	" - - - - -	7.50
10 COPIES	" - - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,

Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

WANTED—AGENTS—$75 to $200 per month, everywhere, male and female, to introduce throughout the United States, the GENUINE IMPROVED COMMON SENSE FAMILY SEWING MACHINE. This machine will stitch, hem, fell, tuck, quilt, bind, braid and embroider in a most superior manner. Price only $18. Fully warranted for five years. We will pay $1,000 for any machine that will sew a stronger, more beautiful, or more elastic seam than ours. It makes the "Elastic Lock Stitch." Every second stitch can be cut, and still the cloth cannot be pulled apart without tearing it. We pay agents from $75 to $200 per month and expenses, or a commission from which twice that amount can be made. Address,

SECOMB & CO.,
Cleveland, Ohio.

CAUTION.—Do not be imposed upon by other parties palming off worthless cast-iron machines, under the same name or otherwise. Ours is the only genuine and really practical cheap machine manufactured. 1t*

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S

AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once !*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

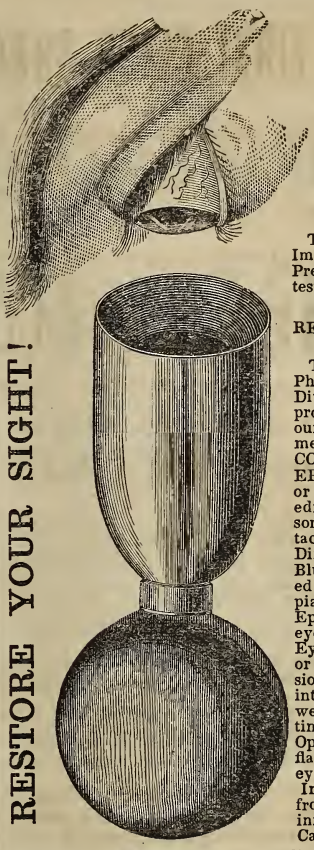

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

TO THE WHEAT GROWERS
OF
Maryland and Virginia!

:o:

"EXCELSIOR."

Containing Ammonia, - - - - - 6 per cent.
Super-Phosphate equivalent to
Bone Phosphate of Lime, - - 57 "
Potash of Soda, - - - - - 5 "

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of *Soluble* Phosphate of lime (bones dissolved in acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer and planter—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanoes, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils, new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

We introduced Excelsior in 1858, and challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of our firm superintends in person every minutia of its manufacture. We therefore warrant every bag uniform, and to contain by analysis, the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers of Maryland, after eight years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds per acre of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

We are daily in receipt, from every quarter, of flattering encomiums from those who used it last fall on wheat, and the past spring and summer on cotton, corn and tobacco, and had we the space could publish hundreds of testimonials, many from gentlemen who have continued its use year after year since its introduction.

The best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Some unprincipled manufacturers have actually used our trade mark for the purpose of palming off their worthless compounds.

EVERY BAG BRANDED AS FOLLOWS:

Farmers should see that every bag bears in *red letters* the name of J. J. TURNER & CO. under the inspection mark, and thus secure the genuine article.

J. J. TURNER & CO.,
42 Pratt Street, Baltimore, Md.

E. FRANK COE'S
AMMONIATED
SUPER-PHOSPHATE,

Manufactured expressly for our sales—containing nearly 3 per cent. of Ammonia, in good order for drilling. The past three years' experience of its application on Wheat, has proved its superiority to all other Super-Phosphates in the growth of the crop and improvement of the soil.

As there are a variety of "Coe's" Phosphates offered in the market, the components of which we have no knowledge, purchasers should see that every barrel of E. Frank Coe's Phosphate bears our name. None other genuine.

J. J. TURNER & CO.,
42 PRATT STREET,
BALTIMORE.

J. J. TURNER & CO.'S
AMMONIATED
BONE SUPER - PHOSPHATE,

Containing nearly 3 per cent. of Ammonia, dry and in good order for drilling. Very high encomiums have been paid its efficacy. in the growth of Wheat and Tobacco the past three years.

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

The Union Wringer though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family.

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

aug-3t York, Pennsylvania.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of tendollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,

Nos. 22 and 24 South Calvert Street, Baltimore, Md.

RODUNDA ISLAND GUANO.

:o:

THE CHEAPEST FERTILIZER IN THE COUNTRY.

:o:

This Guano, although but of recent introduction into the United States, has met with unprecedented success, and we confidently recommend it to Farmers and Planters as the cheapest and best Fertilizer in the market.

The following analysis and report of experiments were made by Dr. David Stewart on his farm at Port Penn, Delaware.

Dr. Stewart was well known to the agricultural community ten or fifteen years ago, as Chemist of the State Agricultural Society, and Professor of Natural Philosophy and Agricultural Chemistry at St. John's College, Annapolis, Maryland:

Messrs. Wm. Crichton & Son, Baltimore.

Gentlemen—I herewith submit report and analysis of *Rodunda Island Guano.*

It is a very dry and fine powder, peculiarly valuable to manufacturers of Super Phosphate in dividing or pulverizing moist compounds without diluting or deteriorating, but increasing their value as fertilizers, and especially fitting them for uniform distribution by the wheat drill, as proven by actual experiment on my wheat sown last autumn, the results of which are hereto annexed. The difficulty with all fertilizers, is their irregular distribution, and especially their tendency to interfere with the regular distribution of the wheat. Of four that I tried last year only one variety drilled well. *There is no difficulty with the Rodunda.*

ANALYSIS—(Sample representing cargo 200 tons.)

Soluble Portion.

Compound of Phosphate of Lime.....	33.35
Sulphate of Lime, &c.....	5.40
	38.75

It yields one per cent. of pure Ammonia.

The results of experiments with "Rodunda Guano," drilled through the same tubes with my wheat last autumn, are as follows:

About 200 pounds per acre of the Rodunda alone increased the weight of the crop 16 per cent., and the weight of the grain 39 per cent., over the unmanured plat.

On another plat, a mixture of Rodunda Guano and a Raw Bone Super-Phosphate in equal quantities was drilled at same rate—200 lbs. per acre—(the latter was so moist that it would not drill at all alone, or very irregularly, say 80 lbs. per acre.)—The result of this mixture was 69 per cent. increase of total crop, whereas 87 per cent. was the increase of the *grain by weight.*

The above are the actual effects produced by Rodunda Guano—but they do not represent *one-half* of the influence this Guano is capable of exerting when associated, in *proper quantities*, with other plant-food. David Stewart, M. D.

Port Penn, Del., July 12th, 1867.

From an analysis made by Professor J. Newland, of London, (for many years principal assistant to Professor Way,) this Guano is found to contain as follows:

Organic matter (yielding Salts of Ammonia)..	24.67
Neutral *Soluble* Phosphate of Lime.....	6 98
Tribasic Phosphate of Lime.....	43.83
Nitrogen.....	1.13
(Equal to Ammonia).....	1.38

In connection with the above, we invite attention to the following certificates:

Harford Co., May 4th, 1867.

"I ploughed an old field that had not been cultivated for a number of years and drilled it with wheat. On the first part I used Peruvian Guano alone; on the second, *Peruvian* and *Rodunda* mixed, say 200 of the latter with 100 of the former: on the third part I used Rodunda *alone*, about 400 pounds to the acre. *It looks better than any* of the former. The fourth, without anything, was not worth the cutting." J. O. Patterson.

Tappahannock, Va., May 4th, 1867.

"Thus far my crop of wheat, on which I applied the *Rodunda Guano*, looks as well as other wheat alongside of it on which I applied other varieties of guano, Peruvian included." Z. S. Farland.

Easton, July 24th, 1867.

"I used two tons of *Rodunda Guano* last fall on my wheat with entire satisfaction. I really believe this form of applying Phosphate of Lime (Rodunda Guano) the cheapest and best; at least this is my opinion from the use of it. *It is peculiarly adapted to the drill.* I have such confidence in it that I shall use it again myself, and recommend it to my friends, not fearing the results. Levin H. Campbell.

Price $30 Per Ton in Bags or Barrels.

A liberal deduction made to dealers and purchasers of large quantities, or by the cargo in bulk.

WHEELER & WILSON
HIGHEST PREMIUM

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, aud durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yar

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprieto

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. febl-1y

Threshing & Separating Machine

For Separating, Cleaning and Bagging Grain, at o operation.

This machine has been in use for about 10 yea some of them having threshed more than a hundr thousand bushels grain, and owing to its strengt simplicity and completeness of its operations, is *u versally acknowledged to be the Best in Use.* It is t only machine that bags the grain clean enough f market. Being provided with a self-regulati blast and other improvements for saving all t grain, it will pay for itself, over any other Separ tor, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTO TRIPLE GEARED HORSE POWER of all size 3 to 10 horse. The Castings are made in my ow Foundry, of the very best Iron, and I will warra this Power to run easier and bear double the stra of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and oth machinery for manufacturing Plow Handles on large scale I can supply the trade with all varieti of No. 1 Plow Handles at the shortest notice.

SORGO MACHINERY,

FOR 1867.

We take pleasure in informing our customers that we have made arrange ments with the BUFFALO AGRICULTURAL WORKS, for the introduc tion and sale of their celebrated

SORGO CANE MILLS,

AND THEIR PREMIUM

POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporator which have been before the public for years, we claim that the inventive geniu of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, A COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly th BEST of any in the market. Progression and improvement is the order o the day, hence those wishing to put up Sorgo Machinery, and desirous of get ting that which has the latest tested improvements, will not fail to call an examine for themselves, or send for our "SORGO MANUAL," which will be read in a few days.

THE BEST!

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

—:o:—

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

CHOLERA.

:o:

A CERTAIN CURE FOR THIS DISEASE

May be Found in the Use of

PERRY DAVIS' VEGETABLE PAIN KILLER.

:o:

PERRY DAVIS—Sir: Although personally a stranger to you, yet the benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it.—Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentary, Toothache, &c., *there is nothing better than the Pain Killer.* I have this hour recovered from a severe attack of the Sick Headache by using up two teaspoonfulls, taken at thirty minutes' intervals, in a wine-glass full of warm water.

I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1849. Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentary attacks, accompanied with pain, for which the Pain Killer was *a sovereign remedy;* one teaspoonful curing the worst case in an hour, or at most *half a day.* My brothers in the ministry have used it with much success in various diseases.

I have heard many cases the country over of Dysentary being cured by its use. Put in the teeth, it would stop the toothache.

Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

D. T. TAYLOR, Jr.
Minister of the Gospel.

The following letter is from Mr. WOODWARD, a resident of St. Louis, a gentleman of high respectability, who, during the prevalence of the Cholera in that city, watched the result of the application of the Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence:

Dear Sir: You recollect when I saw you in New London in January last my expressing to you my most sanguine expectations that DAVIS' PAIN KILLER would have a tremendous sale in the West this season, and my anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

On the appearance of the Cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it remarked to me that they had no fears or dread of the Cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive; for no persons can have a derangement of the bowels or diarrhœa if they use this medicine. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the Cholera, they would administer the remedy in large quantities internally, by bathing and rubbing them with it; and in every case, when it has been taken in any of the first stages of this disease, it has proved successful.

I consider it an infallible remedy. I have not heard of any individual in any family, who used the Pain Killer when attacked, but what speedily recovered.

The clerk informed me that he administered it to persons when cold and in the cramps, and it gave immediate relief; but still it should be given quickly, for when the discharge of "rice water" has begun, the hope of life has fled. Should this disease make its appearance among you, as in all probability it will, be not alarmed; you and all others there have the remedy, and I am confident if the Pain Killer is used, not a death by Cholera will occur in your city.

Respectfully yours,
A. P. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bath freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhœa or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked, and the patient relieved in the course of a few hours.

N. B. Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the Cholera, that in extreme cases the patient take two (or more) teaspoonsful instead of one. Sold by all medicine dealers.

Vegetables—Sweet potatoes 25@40 cts. per peck, Irish do. 35@40 cts., tomatoes 50 cts., turnips 20@25 cts., egg plants 10@25 cts. each, celery 15@20 cts., cabbage 3@10 cts., eating apples 60@75 cts. per peck, cooking do. 30@40 cts. The fish merket was very poorly stocked, with a limited variety, and prices unchanged.

CAUTION.

Parties are hereby cautioned against manufacturing or selling a certain R. W. Downman's Drain Plow, a drawing and description of which was published in the September number of the *Maryland Farmer*, as it is an infringement on my Drain Plow, for which I have letters patent. I shall proceed against all found infringing upon said patent to the extent of the law.

LARGE & IMPORTANT SALE

OF

THOROUGHBRED STOCK,

CONSISTING OF

Horses, Mares, Colts, Cattle and Sheep,

ON THE

FARM OF JOHN O. PRICE, Esq.,

One-quarter of a mile from Cockeysville, on the Northern Central Railroad,

AT AUCTION.

I will sell (without reserve,) on THURSDAY MORNING, November 7th, (if fair, if not the next fair day,) commencing at 10 o'clock precisely, on my Farm, situated on the Northern Central railroad, one-quarter of a mile from Cockeysville, all the following described very valuable and highly-bred STOCK. I name in part:

One Black Trustee Mare and Colt; Gypsy Mare and 2 Colts; Red Eye Mare and Colt; Brown Mare, seven years old, three-quarters blood, in foal; 3 thoroughbred Mares in foal, 2 with suckling Colts; 1 Sorrel Mare, three years old; 1 Yearling Colt, out of a Hamiltonian Mare; 1 two years old, by St. Lawrence, out of a Mare that could trot in 2.50; 1 pair Black Carriage Horses, drive single or double; Twin Colts, six years old, by Superior; 1 Black Colt, three years old, out of a Messenger Mare; 1 Bay Mare Colt, four years old; 1 Brown St. Lawrence Colt, two years old, Stallion; 1 Black and 1 Bay Stallion Colt, two years old, the Bay the full brother to Baltimore County Maid; 1 three year old Sorrel Filly, 15 hands high; 1 Gray Mare, 16 hands high, in foal; 1 Black Horse Colt, eighteen months old; 1 Black Flag Tail Mare, twelve years old, in foal; 1 Brown Mare, ten years old, can trot in three minutes, kind driver, and in foal; 1 Brown Hamiltonian Mare, in foal, one of the finest Pole Mares in the State; 1 bright Bay Horse, 15¾ hands high, five years old this fall, works single and double, sound in every particular, free from faults, and can trot in 2.50.

ALSO,

HALF INTERDST in the celebrated Trotting Horse ST. LAWRENCE.

ALSO,

BAY GELDING, 5 years old; can trot in 2.45; very superior animal.

BALTIMORE COUNTY MAID, 7 years old, can trot in 2.40; a very superior animal and well known on the Turf.

One Bay BUGGY HORSE, 7 years old, very stylish; a safe and superior animal.

ALSO,

Six pair well-broke KENTUCKY MULES, (large size.)

ALSO,

Twenty STEERS, in good order, averaging about 900 pounds.

1 Thoroughbred Alderney BULL, 3 years old.

2 YEARLINGS, one full Alderney, one Alderney and Ayrshire.

1 full Durham COW, half fresh, with other Stock Cattle.

ALSO,

120 EWES, with Lambs by full-blooded Southdown and Shropshire Bucks.

300 Fat WETHERS.

800 bushels OATS.

1 Light two-horse WAGON.

1 Watson Germantown CARRIAGE, for six persons.

2 Light BUGGIES, one nearly new, one light cost.

1 Heavy BUGGY.

3 sets Single HARNESS.

1 WHEAT FAN.

1 Revolving CUTTING BOX.

2 Sets DOUBLE HARNESS.

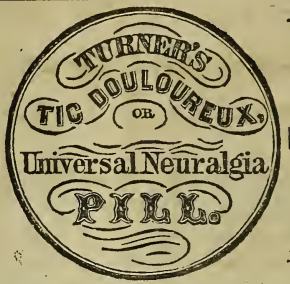

Together with a great number of articles not enumerated.

Attention is particularly called to this large and positive sale of valuable stock, Mr. Price sparing no expense or trouble to have the best Stock in the State, the Mares being selected by him with great care for breeding purposes, &c.

JOHN O. PRICE.

S. H. GOVER, Auctioneer,
84 Baltimore street.

N. B.—The cars leave the Calvert Station at 8.20 A. M., and return at 5.20 P. M., stopping within 100 yards of the place of sale. S. H. G.

A SAFE, CERTAIN, AND Speedy Cure FOR NEURALGIA, AND ALL NERVOUS DISEASES.

Its Effects are Magical.

It is an unfailing remedy in all cases of Neuralgia Facialis, often effecting a perfect cure in less than twenty-four hours, from the use of no more than TWO OR THREE PILLS.

No other form of Neuralgia or Nervous Disease has failed to yield to this WONDERFUL REMEDIAL AGENT.

Even in the severest cases of Chronic Neuralgia and general nervous derangements, of many years standing, affecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can ALWAYS be used with PERFECT SAFETY.

It has long been in constant use by many of our *most eminent physicians*, who give it their unanimous and unqualified approval.

One package,	$1.00	Postage 6 cents.
Six packages,	5.00	" 27 "
Twelve packages,	9.00	" 48 "

Sent by mail on receipt of price and postage.

It is sold by all wholesale and retail dealers in drugs and medicines throughout the United States, and by

TURNER & CO., Sole Proprietors,

nov-6t 120 Tremont Street, Boston, Mass.

PHIFER'S

IMPROVED WHEEL CORN, COTTON AND POTATO PLOW & CULTIVATOR,

Patents of May 29, 1865, *and May* 7, 1867.

The Plows are attached to a mounted frame in such a manner that they are allowed to rise and fall to correspond with the inequalities or undulations of the ground, and at the same time are rendered capable of being raised, when not required for use above the surface of the ground; and also of being readily adjusted to a greater or less distance apart, as well as being adjusted higher or lower to penetrate the ground to the required depth.

With this Plow, one man or boy of ordinary intelligence, with a pair of horses or mules, can perform the work of four hands and horses by the old method.

For plowing Corn, Potatoes, or anything planted in rows, or for plowing in grain, IT IS THE BEST PLOW YET OFFERED TO THE PUBLIC.

It has been amply tested by a number of our most experienced and practical farmers, and in every instance has given entire satisfaction.

IMPROVEMENT.

The Plow is so constructed, under the new patent, that six Cultivator Teeth can be substituted in place of the Plows. Also, two Plow and four Cultivator Teeth may be used at the same time, and any combination required for any specified work can be made.

The Plows and Cultivator Teeth are hung on bars or shanks, which are adjustable at both ends. They can also be made *self-adjusting* at one or both ends, when the nature of the ground requires it.

There is also attached to the Plow a Broad-Cast Grain or Seed Sower, and an arrangement of the Plows for plowing in the grain, which is pronounced by all who have seen or used it, the simplest and most effective method yet introduced. The practical advantages of the Plow over all others are apparent on the slightest examination.

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore,

And by Dealers in general throughout the country.

The SOMBRERO GUANO of which MORO PHILLIPS' PHOSPHATE is and always has been manufactured, (and of which he has sole control for the United States,) contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The addition of Ammonia gives it greater fertilizing value

Over six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

MORO PHILLIPS,

mar 1y Sole Proprietor and Manufacturer.

PERUVIAN GUANO!

FROM GOVERNMENT WAREHOUSES,

For sale at lowest Market Prices, in any quantities, by

WM. CRICHTON & SON,

Wood Street, Bowly's Wharf,

aug-tf Opposite Corn Exchange, Baltimore.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active*, as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 pounds to be used in place of 300 pounds Super Phosphate or dissolved bone.

General Agents for the South,

aug-tf **71 South Street, Baltimore.**

ANDREW COE'S

RAW BONE PHOSPHATE,

THE BEST FERTILIZER

NOW OR EVER

OFFERED TO THE PUBLIC.

WE MAKE NO EXCEPIONS.

EVERY BARREL WARRANTED AND STAMPED WITH OUR NAME.

Call and see our testimonials from Farmers who tried it on Wheat and other crops.

We submit the following analysis from Dr. Piggot:

To Messrs. HERBERT & HAIRSTON,

No. 10 Camden Street, Baltimore, Md.

REPORT OF ANALYSIS OF SAMPLE OF ANDREW COE'S SUPER-PHOSPHATE OF LIME, TAKEN BY MYSELF FROM BAGS IN THE WAREHOUSE.

Moisture. - - - - - -	18.36
Organic Matter, - - - - -	32.13
(Capable of generating AMMONIA, - - 3.33)	
Soluble Phosphoric Acid, - - - -	6.19
(equivalent to BONE PHOSPHATE OF LIME—DISSOLVED, 13.51)	
Phosphoric Acid, - - - - - -	9.04
(equivalent to BONE PHOSPHATE OF LIME, 19.73)	
Alkaline Salts, - - - - - -	8.79
Lime, Sulphuric Acid, &c., not estimated, -	25.49
	100.00

The above analysis shows this to be a well made Super-Posphate. Its ammonia will give the crop a vigorous start; the soluble Phosphoric acid will strengthen the young plant, while the residual phosphoric acid will furnish a supply available for the whole period of growth; the alkaline salts furnish food immediately needful, while at the same time they promote the absorption of ammonia.

Baltimore, September 16th, 1867.

LETTER FROM HON. AMASA WALKER.

NORTH BROOKFIELD, MASS., Oct. 25, 1867.

ANDREW COE, Esq., Baltimore.

Dear Sir:—I used your Phosphate the present year on my potatoes. I planted three lots—one with barn-yard manure only; one with plaster and barn-yard manure, and the third with the Phosphate. The result was: The first failed almost entirely; the second were small and unsatisfactory; the third, where I applied the Phosphate, were large and good, and will form my principal reliance.

The experiment has certainly been a successful one, and has sustained my previous good opinion of your fertilizer.

Your obedient servant,
AMASA WALKER.

TERMS $3 *PER ANNUM.*

H. D. MACHEN, Publisher.
H. W. RAVENEL, Editor.

This paper published in the centre of an extensive fruit-growing region where large orchards of Peaches, Apples and Pears are cultivated for Northern and domestic markets, and extensive vineyards for the manufacture of wine and the sale of the fruit, offers inducements as a medium of communication between the nurserymen of the Northern and Middle States and the fruit growers of the South, who need replenishing their stock. In the immediate neighborhood are also three large cotton factories, a paper mill, and a kaolin factory, offering inducements to machine factories to advertise. jy-tf

J. WILKINSON,

Landscape Gardener, Rural Architect

AND CIVIL ENGINEER,

BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

S. SANDS MILLS & CO.

Office "Maryland Farmer," Baltimore.

TWO FIRST-CLASS RURAL JOURNALS FOR $3.50.

☞ A Great offer to Planters, Farmers, Graziers, Wool Growers and Horticulturists!

THE MARYLAND FARMER,

(A Standard Agricultura Monthly, Price $1.50,)

AND

MOORE'S RURAL NEW-YORKER,

The Leading Agricultural, Literary & Family Weekly--price $3,

FURNISHED ONE YEAR FOR $3.50.

MOORE'S RURAL NEW-YORKER,

THE MOST POPULAR WEEKLY

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T, MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS,

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country*. The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master– while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and Illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

Terms---$3 a Year; 10 copies for $25, and any greater number at same rate—only $2.50 per copy.

☞Subscriptions can commence at any time.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - -	$1.50
6 COPIES	" - - - -	7.50
10 COPIES	" - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,
Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

S. SANDS MILLS & CO., Baltimore, Md.

All orders thankfully received and punctually attended to. de-ly

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S

AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

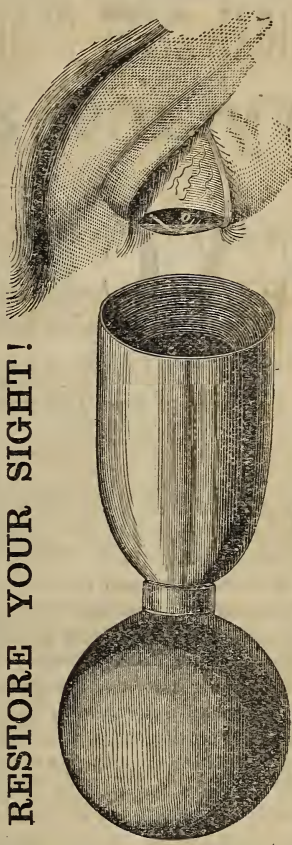

ENGLISH GAME FOWLS.

TO THE WHEAT GROWERS
OF
Maryland and Virginia!

:o:

"EXCELSIOR."

Containing Ammonia, - - - - - - 6 per cent.
Super-Phosphate equivalent to
Bone Phosphate of Lime, - - 57 "
Potash of Soda, - - - - - 5 "

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of *Soluble* Phosphate of lime (bones dissolved in acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer and planter—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanoes, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils, new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

We introduced Excelsior in 1858, and challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of our firm superintends in person every minutia of its manufacture. We therefore warrant every bag uniform, and to contain by analysis, the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers of Maryland, after eight years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds per acre of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

We are daily in receipt, from every quarter, of flattering encomiums from those who used it last fall on wheat, and the past spring and summer on cotton, corn and tobacco, and had we the space could publish hundreds of testimonials, many from gentlemen who have continued its use year after year since its introduction.

The best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Some unprincipled manufacturers have actually used our trade mark for the purpose of palming off their worthless compounds.

EVERY BAG BRANDED AS FOLLOWS:

Farmers should see that every bag bears in *red letters* the name of J. J. TURNER & CO. under the inspection mark, and thus secure the genuine article.

J. J. TURNER & CO.,

42 Pratt Street, Baltimore, Md.

E. FRANK COE'S
AMMONIATED
SUPER-PHOSPHATE,

Manufactured expressly for our sales—containing nearly 3 per cent. of Ammonia, in good order for drilling. The past three years' experience of its application on Wheat, has proved its superiority to all other Super-Phosphates in the growth of the crop and improvement of the soil.

As there are a variety of "Coe's" Phosphates offered in the market, the components of which we have no knowledge, purchasers should see that every barrel of E. Frank Coe's Phosphate bears our name. None other genuine.

J. J. TURNER & CO.,
42 PRATT STREET,
BALTIMORE.

J. J. TURNER & CO.'S
AMMONIATED
BONE SUPER - PHOSPHATE,

Containing nearly 3 per cent. of Ammonia, dry and in good order for drilling. Very high encomiums have been paid its efficacy in the growth of Wheat and Tobacco the past three years.

J. J. TURNER & CO.

42 Pratt Street, Baltimore.

FOR SALE.

SHORT HORNS of first class Pedigrees, &c., from recent importations—also SOUTH DOWN and SHROPSHIRE SHEEP. Thoroughbred and Trotting HORSES, and Essex SWINE.

aptf A. B. CONGER, Haverstraw, N. Y.

BOOK AGENTS WANTED

To Solicit Orders for a New Illustrated

BIBLE DICTIONARY.

COMPLETE IN ONE VOLUME.

This DICTIONARY embodies the results of the most recent study, research and investigation, of about sixty-five of the most eminent and advanced Biblical Scholars now living. Clergymen of all denominations approve it, and regard it as the best work of its kind in the English language, and one which ought to be in the hands of every Bible reader in the land.

In circulating this Work, Agents will find a pleasant and profitable employment. The numerous objections which are usually encountered in selling ordinary works will not exist with this.

But, on the contrary, encouragement and friendly aid will attend the Agent, making his labors agreeable, useful and lucrative.

Ladies, retired Clergymen, School Teachers, Farmers, Students, and all others who possess energy, are wanted to assist in canvassing every town and county in the country, to whom the most liberal inducements will be offered.

For particulars apply to or address

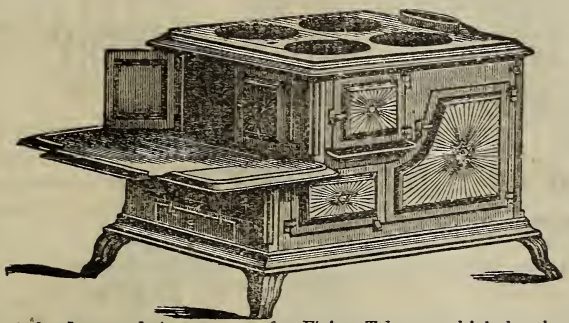

PARMELEE BROTHERS,

"HOUSEHOLD BLESSINGS."

Labor Made Easy by the Celebrated

UNION WASHING MACHINE

AND CLOTHES WRINGER,

COMBINED OR SEPARATE.

Universally admitted to be the best and most durable in existence.

☞Warranted to wash perfectly without soaking, hard rubbing, boiling, inhaling steam or spilling slops.

SOAP, LABOR, CLOTHES AND HEALTH SAVED.

THE UNION WRINGER though accompanying the Machine, can also be used on any kind of round or square tub. It has a patent galvanized Frame, Cog Wheels and pure vulcanized Rubber Rolls and is known to be the most durable Wringer make.

☞ These Machines were invented by a Native of Arkansas, and are highly recommended by Confederate Officers who used them at Johnson's Island during the war. One of these Machines *will last* at least *four times as long* as any other Washing Machine in the market.

Rev. W. W. Hill of Bellville Female Seminary, Ky., says, the Union Washing Machine has for nearly four years in his family, done all the washing for 70 or 80 persons, and has never gotten out of order.

Rev. Jas. M. Sprunt, Kenansville, N. C. has used one in his family for over five years; it still works admirably, and he feels confident it can't be beaten.

Rev. Dr. Hitchcock, Chicago, Ill., has used one in his family nearly three years, and considers it more than pays for itself every year. It is now one of the indispensables in his family.

Rev. Dr Fish, Newark, N. J., says I wish every Parsonage and every Homestead had one in it.

Bishop C. Kingsley, Cincinnati, O., says, our family is delighted with it, and heartily recommends it to all who are seeking relief from the burdens and toils of washing day.

Rev. L. M. Vernon, St. Louis, Mo., says. This machine is above all price. It saves money, and more, it promotes domestic ease and happiness and saves health and life.

Doctors, Editors, Judges, Senators, Hotel Keepers, Sisters of Mercy and House-wives generally have written in the most glowing terms, the praises of the Union Washing Machine and Wringer. *Over* 40,000 of them have been sold without a single complaint. It is in fact, the only successful Washing Machine ever introduced. We keep on hand the best assortment in the United States, of

MANGLES of all kinds.

American and English, for smoothing or ironing every kind of Household Linen—suitable for Hotels, Institutions, and Private Families.

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

:o:

JOHN S. REESE & CO.,

GENERAL AGENTS FOR THE COMPANY.

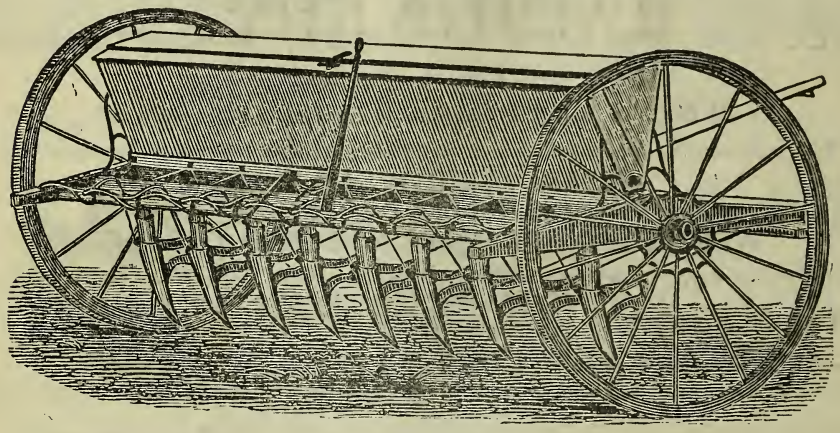

:o:

The very extended use of *this Guano* throughout the country has fully made known its remarkable excellence and superiority. *If concurrent testimony as the result of experience affords any guide to truth*, this Guano is worth more dollars per ton than Peruvian Guano. This testimony can be had from farmers in all parts of the country. It is a result that must follow from the composition of the Guano. It is unnecessary for us to say more than that the quality and composition of the Guano now in market is the same as that heretofore sold by us for the Company. The same system of inspection is kept up. This is done at a *heavy annual expense* to the *Company*, as well for their interests as the protection of consumers.

☞ SOLD BY AGENTS IN ALL THE MARKETS OF UNITED STATES, AND BY LOCAL DEALERS GENERALLY. aug-tf

Horse Powers and Threshing MACHINERY.

WHITMAN & SONS' DOUBLE GEARED POWER.

Among the great variety of Horse Powers now in use in our country, there is none more simple or more durable than this. It runs lighter and will do more work, with the same number of Horses, than any machine in use, and we can confidently recommend it as the best and most desirable machine in the market. Price $175.

THE PELTON OR TRIPLE GEARED POWER.

This Power is used extensively, on account of being sold at a less price than most others. Many prefer it to any other kind of Power. We have four sizes. Prices—$90, $105, $115 and $125.

THE PITTS HORSE POWER

Is a strong and good Power for 8 or 10 horses. There are a great many of them in use and they give general satisfaction. Price, $180. For sale by

E. WHITMAN & SONS, 24 S. Calvert street, Baltimore.

Threshers and Cleaners.

We have on hand the following kinds, all of which are reliable machines: WHITMAN'S, PITT'S, WESTINGHOUSE, at prices from $175 to $350.—Purchasers should always bear in mind that our prices are given separately for Powers and Threshers—as it is often the case that purchasers want but one, either power or thresher.

E. WHITMAN AND SONS,

Nos. 22 and 24 South Calvert Street, Baltimore, Md.

RODUNDA ISLAND GUANO.

:o:

THE CHEAPEST FERTILIZER IN THE COUNTRY.

:o:

This Guano, although but of recent introduction into the United States, has met with unprecedented success, and we confidently recommend it to Farmers and Planters as the cheapest and best Fertilizer in the market.

The following analysis and report of experiments were made by Dr. David Stewart on his farm at Port Penn, Delaware.

Dr. Stewart was well known to the agricultural community ten or fifteen years ago, as Chemist of the State Agricultural Society, and Professor of Natural Philosophy and Agricultural Chemistry at St. John's College, Annapolis, Maryland:

Messrs. Wm. Crichton & Son, Baltimore.

Gentlemen—I herewith submit report and analysis of *Rodunda Island Guano.*

It is a very dry and fine powder, peculiarly valuable to manufacturers of Super Phosphate in dividing or pulverizing moist compounds without diluting or deteriorating, but increasing their value as fertilizers, and especially fitting them for uniform distribution by the wheat drill, as proven by actual experiment on my wheat sown last autumn, the results of which are hereto annexed. The difficulty with all fertilizers, is their irregular distribution, and especially their tendency to interfere with the regular distribution of the wheat. Of four that I tried last year only one variety drilled well. *There is no difficulty with the Rodunda.*

ANALYSIS—(Sample representing cargo 200 tons.)

Soluble Portion.

Compound of Phosphate of Lime.....	33.35
Sulphate of Lime, &c.....	5.40
	38.75

It yields one per cent. of pure Ammonia.

The results of experiments with "Rodunda Guano," drilled through the same tubes with my wheat last autumn, are as follows:

About 200 pounds per acre of the Rodunda alone increased the weight of the crop 16 per cent., and the weight of the grain 39 per cent., over the unmanured plat.

On another plat, a mixture of Rodunda Guano and a Raw Bone Super-Phosphate in equal quantities was drilled at same rate—200 lbs. per acre—(the latter was so moist that it would not drill at all alone, or very irregularly, say 80 lbs. per acre.)—The result of this mixture was 69 per cent. increase of total crop, whereas 87 per cent. was the increase of the *grain by weight.*

The above are the actual effects produced by Rodunda Guano—but they do not represent *one-half* of the influence this Guano is capable of exerting when associated, in *proper quantities*, with other plant-food. David Stewart, M. D.

Port Penn, Del., July 12th, 1867.

From an analysis made by Professor J. Newland, of London, (for many years principal assistant to Professor Way,) this Guano is found to contain as follows:

Organic matter (yielding Salts of Ammonia)..	24.67
Neutral *Soluble* Phosphate of Lime.....	6 98
Tribasic Phosphate of Lime.....	43.83
Nitrogen.....	1.13
(Equal to Ammonia).....	1.38

In connection with the above, we invite attention to the following certificates:

Harford Co., May 4th, 1867.

"I ploughed an old field that had not been cultivated for a number of years and drilled it with wheat. On the first part I used Peruvian Guano alone; on the second, *Peruvian* and *Rodunda* mixed, say 200 of the latter with 100 of the former: on the third part I used Rodunda *alone*, about 400 pounds to the acre. *It looks better than any* of the former. The fourth, without anything, was not worth the cutting." J. O. Patterson.

Tappahannock, Va., May 4th, 1867.

"Thus far my crop of wheat, on which I applied the *Rodunda Guano*, looks as well as other wheat alongside of it on which I applied other varieties of guano, Peruvian included." Z. S. Farland.

Easton, July 24th, 1867.

"I used two tons of *Rodunda Guano* last fall on my wheat with entire satisfaction. I really believe this form of applying Phosphate of Lime (Rodunda Guano) the cheapest and best; at least this is my opinion from the use of it. *It is peculiarly adapted to the drill.* I have such confidence in it that I shall use it again myself, and recommend it to my friends, not fearing the results. Levin H. Campbell.

Price $30 Per Ton in Bags or Barrels.

A liberal deduction made to dealers and purchasers of large quantities, or by the cargo in bulk.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The Lock Stitch made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, aud durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

ap-6t

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

SORGO MACHINERY,

FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,

AND THEIR PREMIUM

POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞GENUINE AND RELIABLE CANE SEED, of all approved varieties.

THE BEST!!

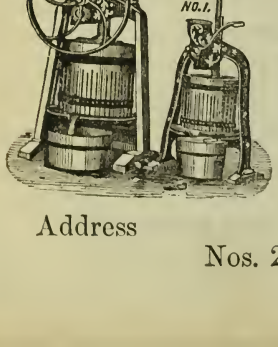

PATENT PORTABLE WINE AND CIDER MILL.

The machine is made to run by horse, steam or hand power, and when the apples are ground, a small boy of fourteen years of age can press the pomace with all ease. The following may be adduced as the decided advantages of this Mill :

First.—It will make more cider than any other Press, with a given quantity of apples in a given time, with much less labor and expense. *Second.*—It will make cleaner and sweeter cider than any old style Mill. *Third.*—You can make the cider as you want it, and when you want it; and in quantities from one gallon to barrels. *Fourth.*—With it you can press your currants, cherries, berries, cheese, butter, lard and tallow. *Fifth.*—With its use you can at all times have fresh and sweet cider.

With all the advantages resulting from the possession and use of such a machine—at a price so low that it is within the reach of all—can it be that any intelligent farmer would do without it? Price $45.

HUTCHINSON'S
PATENT CIDER & WINE MILL.

———:o:———

This is an excellent Mill for family use, as a small quantity of cider or wine can be made in a few minutes. They are especially adapted to making wines from all kinds of berries.

The Grinder feeds freely and grinds fast, and does not clog with the softest or largest apples.

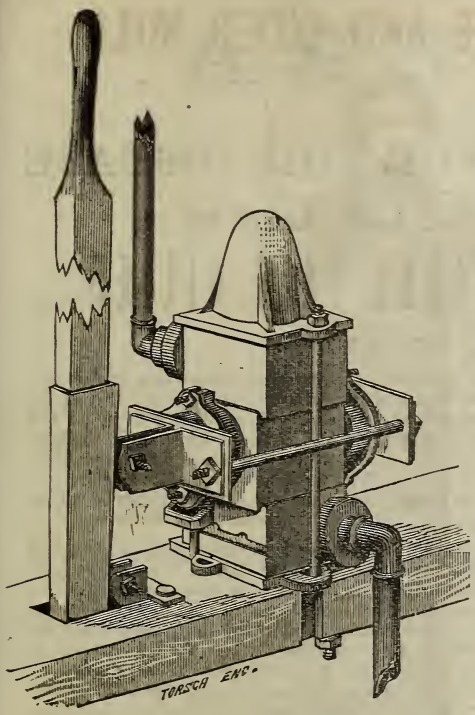

The Pan is made solid, so that there can be no leakage.

The Balance Wheel gives it a steady, fast and easy motion, and will answer as a belt wheel for power.

The Nut of the Screw is cut through solid iron, and will be durable.

Price $25.

J. BURKHOLDER & WILSON,

je-1y BENDERSVILLE, ADAMS COUNTY, PA.

CHOLERA.

:o:

A CERTAIN CURE FOR THIS DISEASE

May be Found in the Use of

PERRY DAVIS' VEGETABLE PAIN KILLER.

:o:

PERRY DAVIS—Sir: Although personally a stranger to you, yet the benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen a word of praise for it.—Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, Common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentary, Toothache, &c., *there is nothing better than the Pain Killer.* I have this hour recovered from a severe attack of the Sick Headache by using up two teaspoonfulls, taken at thirty minutes' intervals, in a wine-glass full of warm water.

I am confident that, through the blessing of God, it saved me from the Cholera during the summer of 1849. Travelling amid heat, dust, toil, change of diet and constant exposure to an infected atmosphere, my system was daily predisposed to dysentary attacks, accompanied with pain, for which the Pain Killer was *a sovereign remedy;* one teaspoonful curing the worst case in an hour, or at most *half a day.* My brothers in the ministry have used it with much success in various diseases.

I have heard many cases the country over of Dysentary being cured by its use. Put in the teeth, it would stop the toothache.

Gratitude, and a desire for its general use, has drawn from me this unsolicited testimonial in its favor.

D. T. TAYLOR, Jr.
Minister of the Gospel.

The following letter is from Mr. WOODWARD, a resident of St. Louis, a gentleman of high respectability, who, during the prevalence of the Cholera in that city, watched the result of the application of the Pain Killer for this disease, and his testimony can be relied upon with the utmost confidence:

Dear Sir: You recollect when I saw you in New London in January last my expressing to you my most sanguine expectations that DAVIS' PAIN KILLER would have a tremendous sale in the West this season, and my anticipations have been more than realized, and the testimony of thousands who have used it has been that they would not be willing to go to bed at night without it in the house.

On the appearance of the Cholera in this city, such was the confidence in the Pain Killer as a remedy, that many who purchased it remarked to me that they had no fears or dread of the Cholera as long as they had the Pain Killer by them, and hundreds took it daily as a preventive; for no persons can have a derangement of the bowels or diarrhœa if they use this medicine. This was the security and confidence of hundreds acquainted with it, and when their friends were attacked with the Cholera, they would administer the remedy in large quantities internally, by bathing and rubbing them with it; and in every case, when it has been taken in any of the first stages of this disease, it has proved successful.

I consider it an infallible remedy. I have not heard of any individual in any family, who used the Pain Killer when attacked, but what speedily recovered.

The clerk informed me that he administered it to persons when cold and in the cramps, and it gave immediate relief; but still it should be given quickly, for when the discharge of "rice water" has begun, the hope of life has fled. Should this disease make its appearance among you, as in all probability it will, be not alarmed; you and all others there have the remedy, and I am confident if the Pain Killer is used, not a death by Cholera will occur in your city.

Respectfully yours,
A. P. WOODWARD.

Those using the Pain Killer should strictly observe the following directions:

At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bath freely across the stomach and bowels with the Pain Killer clear.

Should the diarrhœa or cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked, and the patient relieved in the course of a few hours.

N. B. Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the Cholera, that in extreme cases the patient take two (or more) teaspoonsful instead of one. Sold by all medicine dealers.

"FLOUR OF BONE."

We will give a *money* guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness* of *flour*, which adds 100 per cent. to its value. It is as *quick* and *active*, as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 pounds to be used in place of 300 pounds Super Phosphate or dissolved bone.

JOHN S. REESE & CO.,
General Agents for the South,
aug-tf **71 South Street, Baltimore.**

MORO PHILLIPS'

GENUINE IMPROVED

SUPER-PHOSPHATE OF LIME

STANDARD GUARANTEED.

For sale at Manufacturer's Depots,

No. 27 North Front Street, Philadelphia,

AND

No. 95 South Street, Baltimore,

And by Dealers in general throughout the country.

The SOMBRERO GUANO of which MORO PHILLIPS' PHOSPHATE is and always has been manufactured, (and of which he has sole control for the United States,) contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable. The addition of Ammonia gives it greater fertilizing value

Over six years' experience has proved to the farmer that it makes a heavier grain than even stable manure, and is not only active but lasting.

Price $56 per ton—2,000 pounds. Discount to dealers.

MORO PHILLIPS,
mar 1y Sole Proprietor and Manufacturer.

EVERY FARMER SHOULD KNOW THAT

DR. QUINN'S

AGUE & FEVER PILLS,

(SUGAR COATED,)

Are a certain Cure for Ague and Fever in all its forms, no matter how obstinate, or of how long standing. In no known case have they failed subduing the disease *at once!*

I have certificates from persons who had tried nearly all of the Patent Ague Cures, and had taken fifty grains of Quinine in one day without any good effect, who were cured by one dose of the Ague and Fever Pills.

They cure the disease at once—it never being necessary to take the full dose after the first day. A cure effected by this is more lasting than by any other remedy.

A trial is solicited in those cases where everything else has failed, and in all such a cure is guaranteed.

One Box will ordinarily cure three persons.

Try them—A word to the wise is sufficient.

Sold by G. W. Carpenter & Co., 737 Market street, Philadelphia, Burrough Bros., 54 and 56 Light street, Baltimore, and by Druggists generally.

Price $1 per Box. aply

CAUTION.

Always Take the Best!

MOORE'S

RURAL NEW-YORKER,

THE MOST POPULAR NATIONAL

Agricultural, Literary and Family Weekly,

FOR BOTH TOWN AND COUNTRY.

THE RURAL is the Standard in its Sphere of Journalism, being the largest-circulating Paper of its Class in the World—best evidence of *Intrinsic Merit and Superiority.* In variety of Practical, Useful, Entertaining and Timely Reading it has no equal, its ample pages comprising Departments devoted to or treating upon

AGRICULTURE,	LITERATURE,
SHEEP HUSBANDRY,	ARTS AND SCIENCES,
HORTICULTURE,	EDUCATION,
ARCHITECTURE,	GENERAL NEWS,
DOMESTIC ECONOMY,	MARKET REPORTS, &c.

With Illustrations, Tales, Sketches, Poetry, Rubuses, Enigmas, &c., &c.

Every Farmer, Planter, Stock and Wool Grower, Horticulturist, or head of a family in the land wants THE RURAL. It is ably edited, neatly printed, profusely illustrated and *adapted to the whole country*—having subscribers and enthusiastic admirers in the North, South, East and West. The Department of *Sheep Husbandry*, Edited by the Hon. H. S. RANDALL, LL. D., (author of "The Practical Shepherd, &c,.) is alone worth many times the price of the paper to any flock-master. Its *Southern Corresponding Editor* is the Hon. T. C. PETERS, former Pres't N. Y. State Ag. Society, now of Maryland. Remember that the RURAL is not a *monthly*, but a large and Beautiful WEEKLY of Eight Double Quarto Pages.

TERMS—Only $3 a year— less to clubs, and the most liberal inducements to club agents. Specimens, show Bills, Premium Lists, &c. sent free. The second Quarter of Vol. XVII commenced April 6, and hence now is a good time to subscribe.

☞ The 13 numbers of the first Quarter (Jan. to April,) sent free to any Post Master, Planter, or Farmer disposed to aid in introducing the RURAL to notice and support

Address D. D. T. MOORE, Rochester, N. Y.

WHAT THE PRESS SAYS.

MOORE'S RURAL is full of variety, original and select. We confess to a surprise at the variety and richness of its contents, bountifully illustrated as it is. No paper on our exchange list come so near our ideas of perfection, for a secular family paper. It maintains a high moral standard. —*New York Observer.*

THE RURAL is not only a favorite in the rural districts, but deservedly popular in the cities. No newspaper in this or any other country has ever run a more prosperous career. —*Louisville Journal.*

MOORE'S RURAL NEW-YORKER comes to us freighted with information valuable to all who take an interest in the improvements of the times. We commend it.—*New York World.*

A MODEL PAPER for the Farmer's family. If we were to start a periodical again it would be in imitation of the RURAL NEW-YORKER.—*American Agriculturist.*

SHEEP AND WOOL are paying institutions, and it will *pay* every Sheep-breeder or Wool-grower to buy and read THE PRACTICAL SHEPHERD, by the Hon. H. S. RANDALL, LL. D., author of "Sheep Husbandry in the South," &c. (and editor of Sheep Husbandry Department of MOORE'S RURAL NEW-YORKER, the leading and largest circulating Agricultural, Literary and Family Newspaper in America.) The P. S. is a large 12mo. volume of 454 pages, illustrated, printed, and bound in superior style. It is the best and most popular work on American Sheep Husbandry ever published, and is having an immense sale. Sold only by the publisher and his Agents. Price, postpaid, $2. Published by

D. D. T. MOORE, Editor Rural New-Yorker,
Rochester, New York.

The PRACTICAL SHEPHERD can be procured at the office of *Maryland Farmer*, Baltimore. Price $2, postpaid. m1

MOORE'S RURAL NEW-YORKER,

THE MOST POPULAR WEEKLY

Agricultural, Literary, Family and Business Newspaper!

Conducted by D. D. T. MOORE,

With an Able Corps of Assistants and Contributors.

Hon. H. S. RANDALL, LL. D.,

Editor of the Department of Sheep Husbandry.

Hon. T. C. PETERS,

Late President N. Y. State Agr. Soc'y, Southern Cor. Editor.

The RURAL is the Largest-Circulating WEEKLY of its Class in the World. In variety of Practical, Useful, Entertaining and Timely Reading it has no equal on the Continent, its ample pages comprising various Departments, including

Agriculture, Rural Architecture, Arts, Sciences, Sheep Husbandry, Domestic Economy, News, Horticulture, Choice Literature, Markets, etc,

With many Illustrations, Tales, Sketches, Music, Poetry, Rebuses, Enigmas, &c. &c.

THE RURAL is a *NATIONAL PERIODICAL*, read and admired by Men, Women and Children, in Country, Village and City. It is ably Edited, neatly Printed, well Illustrated, and *adapted to the whole country.* The constant aim is to render it unequaled in both Contents and Appearance. The Best Talent is employed upon its pages. For example, its department devoted to **SHEEP HUSBANDRY** is Edited by the Hon. HENRY S. RANDALL, LL. D., President of the National Wool Growers' Association, Author of "The Practical Shepherd," "Sheep Husbandry in the South," &c., and is alone worth many times the price of the paper to any flock-master—while its *Southern Corresponding Editor* is the Hon. T. C. PETERS, late President N. Y. State Ag'l Society, now of Maryland. Many other talented writers are regular contributors.

FORM, STYLE AND TERMS.

Each number of the "RURAL NEW-YORKER" comprises *Eight Double Quarto Pages*, (forty columns) neatly printed on book paper, and Illustrated in superior style. A Title Page, Index, &c., at the close of each vol.

D. D. T. MOORE, Rochester, N. Y.

THE MARYLAND FARMER,

Is Published Monthly, and Devoted to

Agriculture, Horticulture, Rural Affairs, Science, Literature, and Mechanic Arts.

It is a RELIABLE AND PRATICAL Journal, devoted to the different Departments of FIELD CULTURE, such as growing

Field Crops, Orchard & Garden Fruits, Garden Vegetables and Flowers, Flowers for the Lawn and Yard, Trees and Plants, Care of Domestic Animals, &c., together with all subjects of a kindred nature, interesting to the Farmer, the Horticulturist and the Household.

The "FARMER" will embrace a choice variety of Reading, all designed to Instruct, Entertain and Elevate the various members of household. It will contain from time to time Elegant Engravings, illustrative of Agriculture, Horticulture, Floriculture, Rural Architecture and Mechanic Arts.

Each No. will comprise 64 large double column octavo pages, making 768 pages per year—with a neat 4 page Cover.

TERMS, IN ADVANCE.

1 COPY	for - - -	$1.50
6 COPIES	" - - - -	7.50
10 COPIES	" - - -	12.00

☞Subscriptions can commence at any time.

S. SANDS MILLS & CO.,

Baltimore, Md.

☞The above Journals are so well known to the intelligent portion of the Rural Population of the Country that particulars would be superfluous in this connection. To those unacquainted with their character, merits, &c., ☞*SPECIMEN NUMBERS WILL BE SENT FREE.*☜

The above arrangement has been perfected with D. D. T. MOORE, editor of the *Rural New-Yorker*, to enable our friends South and elsewhere, to possess themselves of the BEST WEEKLY of its kind in the World, and a MONTHLY that ranks high among the Agricultural Journals of the country. It is decidedly the BEST and CHEAPEST combination ever offered to the public. Both only $3.50.

ANDREW COE'S

RAW BONE PHOSPHATE,

THE BEST FERTILIZER

NOW OR EVER

OFFERED TO THE PUBLIC.

WE MAKE NO EXCEPIONS.

EVERY BARREL WARRANTED AND STAMPED WITH OUR NAME.

Call and see our testimonials from Farmers who tried it on Wheat and other crops.

We submit the following analysis from Dr. Piggot:

To Messrs. HERBERT & HAIRSTON,
No. 10 Camden Street, Baltimore, Md.

REPORT OF ANALYSIS OF SAMPLE OF ANDREW COE'S SUPER-PHOSPHATE OF LIME, TAKEN BY MYSELF FROM BAGS IN THE WAREHOUSE.

Moisture. - - - - - -	18.36
Organic Matter, - - - - -	32.13
(Capable of generating AMMONIA, -	3.33)
Soluble Phosphoric Acid, - - - -	6.19
(equivalent to BONE PHOSPHATE OF LIME—DISSOLVED,	13.51)
Phosphoric Acid, - - - - -	9.04
(equivalent to BONE PHOSPHATE OF LIME,	19.73)
Alkaline Salts, - - - - -	8.79
Lime, Sulphuric Acid, &c., not estimated, -	25.49
	100.00

The above analysis shows this to be a well made Super-Posphate. Its ammonia will give the crop a vigorous start; the soluble Phosphoric acid will strengthen the young plant, while the residual phosphoric acid will furnish a supply available for the whole period of growth; the alkaline salts furnish food immediately needful, while at the same time they promote the absorption of ammonia.

A. SNOWDEN PIGGOT, M. D.
Analytical and Consulting Chemist.
ANALYTICAL LABORATORY, 59 S. GAY STREET,
Baltimore, September 16th, 1867.

LETTER FROM HON. AMASA WALKER.

NORTH BROOKFIELD, MASS., Oct. 25, 1867.

ANDREW COE, Esq., Baltimore.

Dear Sir:—I used your Phosphate the present year on my potatoes. I planted three lots—one with barn-yard manure only; one with plaster and barn-yard manure, and the third with the Phosphate. The result was: The first failed almost entirely; the second were small and unsatisfactory; the third, where I applied the Phosphate, were large and good, and will form my principal reliance.

The experiment has certainly been a successful one, and has sustained my previous good opinion of your fertilizer.

Your obedient servant,
AMASA WALKER.

BOOK AGENTS WANTED

To Solicit Orders for a New Illustrated

BIBLE DICTIONARY.

COMPLETE IN ONE VOLUME.

This DICTIONARY embodies the results of the most recent study, research and investigation, of about sixty-five of the most eminent and advanced Biblical Scholars now living. Clergymen of all denominations approve it, and regard it as the best work of its kind in the English language, and one which ought to be in the hands of every Bible reader in the land.

In circulating this Work, Agents will find a pleasant and profitable employment. The numerous objections which are usually encountered in selling ordinary works will not exist with this.

But, on the contrary, encouragement and friendly aid will attend the Agent, making his labors agreeable, useful and lucrative.

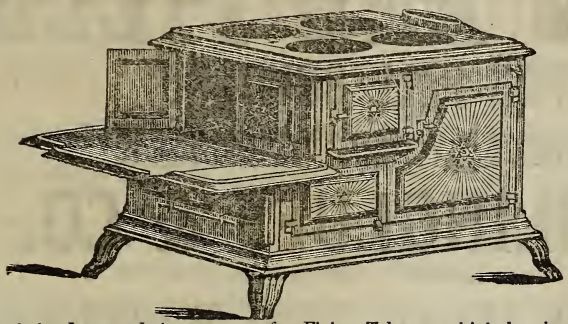

Ladies, retired Clergymen, School Teachers, Farmers, Students, and all others who possess energy, are wanted to assist in canvassing every town and county in the country, to whom the most liberal inducements will be offered.

For particulars apply to or address
PARMELEE BROTHERS,
oct-5t 722 Sansom street, Philadelphia, Pa.

GET

THE BEST!!

INTERESTING TO LADIES.

The following extracts are from the testimony, taken under oath, in a recent case pending before the United States Patent Office, upon the actual merits of the

GROVER & BAKER SEWING MACHINE,

and its relative merits as compared with other machimes:

Mrs. Dr. McCready, says:

"I have used, for nine years, a GROVER & BAKER MACHINE, and upon it I have done all kinds of family sewing for the house, for my children and husband, besides a great deal of fancy work, as braiding, quilting, and embroidering. During all that time my machine has never needed repair, except when I had the tension altered, and it is as good now as it was the first day I bought it."

* * * * * * *

"I am acquainted with the work of all the principal machines, including Wheeler & Wilson's, Finkle & Lyon's, Wilcox & Gibb's, Ladd & Webster's, the Florence machines, and Sloat's machines, besides a number of ten-dollar ones; and I prefer the Grover & Baker to them all, because I consider the stitch more elastic. I have work now in the house that was done nine years ago, which is still good; and I have never found any of my friends who have used the other machines able to say the same thing."

Mrs. Dr. Whiting gives the following reasons for the superiority of the Grover & Baker machines over all others:

"The elasticity of the stitch, and ripping when it is required; and also the stitch fastening itself, as you leave off; and also, the machine may be used for embroidering purposes; and therein consists the superiority over other machines.

"The stitch will not break when stretched, as the others do, and neither does it draw the work.

"I find this stitch will wear as long as the garments do—outwear the garments, in fact.

"I can use it from the thickest woolen cloth to Nansook muslin."

Mrs. Alice B. Whipple, wife of Rev. Mr. Whipple, Secretary of the American Missionary Association, testifies:

Q. As the result of your observation and experience, what machine do you think best as a general family instrument?

A. The Grover & Baker, decidedly.

Q. State the reasons, such of them as occur to you, for this opinion.

A. I think the stitch is a stronger stitch than that of any other machine I have used, and it seems to me much more simple in its management than other machines; one great advantage is the ease with which the seam is ripped when necessary to do so; and I think that the work, by an experienced person, on a Grover & Baker machine, is better than the work by such person on any other machine; it requires more skill to work other machines than the Grover & Baker.

Mrs. General Buel says she prefers the Grover & Baker machine over all others.

"On account of its durability of work, elasticity of stitch and strength of stitch. It never rips.

"It is preferred over all others; it is very easy in its movements, and very easily adjusted, and very simple in its construction.

"We can accomplish more in one week, by this sewing machine, than we can in a month by hand-sewing."

Mrs. Dr. Watts, says:

"I have had several years' experience with a Grover & Baker machine, which has given me great satisfaction. Its chief merit is that it makes a strong elastic stitch; it is very easily kept in order, and worked without much fatigue, which I think is a very great recommendation. I am not very familiar with any other machine, except a Wheeler & Wilson, which I have had. I think the Grover and Baker machine is more easily managed, and less liable to get out of order. I prefer the Grover & Baker, decidedly."

Mrs. A. B. Spooner, says:

"I answer conscientiously, I believe it to be the best, all things considered, of any that I have known.

"In the first place, it is very simple and easily learned; the sewing from the ordinary spool is a great advantage; the stitch is entirely reliable. It does ordinary work beautifully, and the embroidery stitch. It is not liable to get out of order. It operates very easily. I suppose I can sum it all up by saying it is a perfect machine.

"I have had occasion to compare the work with that of other machines. The result was always favorable to the Grover & Baker machine."

Mrs. Dr. Andrews, testifies:

"I prefer it to all other machines I have known anything about, for the ease and simplicity with which it operates and is managed; for the perfect elasticity of the stitch; the ease with which the work can be ripped, if desired, and still retain its strength when the thread is cut, or accidentally broken; its adaptation to different kinds of work, from fine to coarse, without change of needle or tension."

Mrs. Maria J. Keane, of the house of Natalie, Tilman & Co., says:

"Our customers all prefer the Grover & Baker machine, for durability and beauty of stitch."

Mrs. Jennie C. Croly, ("Jenny June,") says:

"I prefer it to any machine. I like the Grover & Baker machine in the first place, because if I had any other I should still want a Grover & Baker; and, having a Grover & Baker, it answers the purpose of all the rest. It does a greater variety of work, and it is easier to learn than any other. I like the stitch because of its beauty and strength, and because, although it can be taken out, it don't rip, not even by cutting every other stitch."

The foregoing testimony establishes beyond question:

1. The great simplicity and ease of management of the Grover & Baker machines.
2. That they are not liable to get out of repair.
3. That a greater variety of work can be done with them than with other machines.
4. That the elasticity of the stitch causes the work to last longer, look neater, and wear better, than work done on other machines.
5. That the facility with which any part of the seam can be removed when desired is a great advantage.
6. That the seam will retain its strength even when cut or broken at intervals.
7. That, besides doing all varieties of work done by other sewing machines, these machines execute beautiful embroidery.

Over one hundred other witnesses in the case above referred to testified to the superiority of the Grover & Baker machines in the points named in substantially the same language, and thousands of letters have been received from all parts of the world, stating the same facts.

TURNER'S DOULOUREUX, OR Universal Neuralgia PILL.

A SAFE, CERTAIN, AND Speedy Cure FOR NEURALGIA, AND ALL NERVOUS DISEASES.

Its Effects are Magical.

It is an unfailing remedy in all cases of Neuralgia Facialis, often effecting a perfect cure in less than twenty-four hours, from the use of no more than TWO OR THREE PILLS.

No other form of Neuralgia or Nervous Disease has failed to yield to this WONDERFUL REMEDIAL AGENT.

Even in the severest cases of Chronic Neuralgia and general nervous derangements, of many years standing, affecting the entire system, its use for a few days, or a few weeks at the utmost, always affords the most astonishing relief, and very rarely fails to produce a complete and permanent cure.

It contains no drugs or other materials in the slightest degree injurious, even to the most delicate system, and can ALWAYS be used with PERFECT SAFETY.

It has long been in constant use by many of our *most eminent physicians*, who give it their unanimous and unqualified approval.

One package,	$1.00	Postage	6 cents.
Six packages,	5.00	"	27 "
Twelve packages,	9.00	"	48 "

Sent by mail on receipt of price and postage.

It is sold by all wholesale and retail dealers in drugs and medicines throughout the United States, and by

PHIFER'S

IMPROVED WHEEL

CORN, COTTON AND POTATO

PLOW & CULTIVATCR,

Patents of May 29, 1865, *and May* 7, 1867.

The Plows are attached to a mounted frame in such a manner that they are allowed to rise and fall to correspond with the inequalities or undulations of the ground, and at the same time are rendered capable of being raised, when not required for use above the surface of the ground; and also of being readily adjusted to a greater or less distance apart, as well as being adjusted higher or lower to penetrate the ground to the required depth.

With this Plow, one man or boy of ordinary intelligence, with a pair of horses or mules, can perform the work of four hands and horses by the old method.

For plowing Corn, Potatoes, or anything planted in rows, or for plowing in grain, IT IS THE BEST PLOW YET OFFERED TO THE PUBLIC.

It has been amply tested by a number of our most experienced and practical farmers, and in every instance has given entire satisfaction.

IMPROVEMENT.

The Plow is so constructed, under the new patent, that six Cultivator Teeth can be substituted in place of the Plows. Also, two Plow and four Cultivator Teeth may be used at the same time, and any combination required for any specified work can be made.

The Plows and Cultivator Teeth are hung on bars or shanks, which are adjustable at both ends. They can also be made *self-adjusting* at one or both ends, when the nature of the ground requires it.

There is also attached to the Plow a Broad-Cast Grain or Seed Sower, and an arrangement of the Plows for plowing in the grain, which is pronounced by all who have seen or used it, the simplest and most effective method yet introduced. The practical advantages of the Plow over all others are apparent on the slightest examination.

The Automatic Sash Fastener.

Patented July 23d, 1867, by Geo. King, John Gomlen and L. T. Shope.

We claim the arrangement of Racks *bb*, fastened on the sides of the Sashes B, behind the molding A, and held engaging with the metal projections C, upon the inside of wooden frame by means of the Springs DD, all constructed, described and arranged in such a manner that the Sashes shall be pressed outward to be raised or lowered as herein set forth. The above unrivalled SASH FASTENER is the most durable and complete substitute for Sash Weights ever invented. Cost very little, and can be put on Sashes by any one without the least trouble, and warranted.

J. WILKINSON,

Landscape Gardener, Rural Architect

AND CIVIL ENGINEER,

BALTIMORE, MD.,

Gratefully acknowledges the liberal patronage given him in the various branches of his profession, for the past twenty years, a continuance of which he respectfully solicits. He would inform the public that it is his purpose to continue to make Baltimore his head-quarters, but he will promptly respond to calls from all parts of the country. He will visit places to be improved, or proposed sites of buildings, and furnish plans of the grounds, on which every feature of improvement and decoration will be located to a scale, and specifications furnished which will make the plans intelligible to the inexperienced in the art of landscaping, or he will furnish experienced laborers to execute his plans.

He will design and furnish plans, with full detail drawings and specifications for Public Buildings, Dwellings, Farm Barns and all other farm buildings, Carriage Houses and Stables for both city and country, Gate Lodges, with his magic gate, Dairies, Ice Houses, with dairies and refrigerators attached and Bath Houses.

He will furnish designs with detail drawings for Vaults, Tombs and Monuments, and cemetery work of all kinds, to which special attention will be given.

He will give counsel in every branch of Agriculture, in which he has a thorough practical experience, having been the principal and proprietor of an Agricultural school and experimental farm for eight years. He will furnish plans for buildings of every description, and for Heating and Ventilating buildings of any dimensions or form. In all the above he guarantees satisfaction to his patrons.

Address, 397 W. Fayette St., *Baltimore, Md.*

THE BARNWELL SENTINEL

Is published at BARNWELL C. H., SOUTH CAROLINA, and offers advantages as an advertising medium rarely met with, having been established for the last fifteen years. The merchants and business men of Baltimore would consult their interests by sending on their cards for insertion. Address

Editor and Proprietor.

Cards inserted at the rate of $5 for three months—ten or twelve lines constituting a square. Larger advertisements in proportion. aug-6t*

Pennsylvania Agricultural Works,

Factories, Planing Mill, Foundry and Lumber Yard,

NORTH DUKE STREET, NEAR THE DEPOT,

YORK, Pennsylvania.

A. B. FARQUHAR, Manager & Proprietor.

Agricultural Implement Department

Is one of the largest in the country, and is supplied with Steam Power and every facility for manufacturing, with all the latest and most improved MACHINERY, TOOLS, PATTERNS, FOUNDRY, and LUMBER YARD. With these advantages for manufacturing and supplying Farmers and Dealers, I respectfully solicit their orders, confident of giving perfect satisfaction I would respectfully call the attention of the public to my Polished Steel Plows, Cultivators, Pelton Triple Geared Horse Powers, Reapers & Mowers, Threshers and Cleaners, Spring Tooth Horse Rakes, &c. &c.

CULTIVATORS.

Made of the best white oak, with 5 or 6 polished steel Plain or Reversible Teeth. It is adjustable to any required width and depth, and the teeth being like the plow, of polished steel, clean themselves readily and cut the weeds and briars instead of passeng over them. It is much more satisfactory, and, because more durable, cheaper than the old style.

Special attention paid to supplying the trade with every variety of STEEL WORK—Cultivator Teeth, Plow Molds, &c. &c. feb1-1y

Threshing & Separating Machines

For Separating, Cleaning and Bagging Grain, at one operation.

This machine has been in use for about 10 years some of them having threshed more than a hundred thousand bushels grain, and owing to its strength, simplicity and completeness of its operations, is *universally acknowledged to be the Best in Use.* It is the only machine that bags the grain clean enough for market. Being provided with a self-regulating blast and other improvements for saving all the grain, it will pay for itself, over any other Separator, in a few years.

HORSE POWERS.

I am manufacturing the celebrated PELTON TRIPLE GEARED HORSE POWER of all sizes, 3 to 10 horse. The Castings are made in my own Foundry, of the very best Iron, and I will warrant this Power to run easier and bear double the strain of any other in use.

PLOW HANDLES.

Having an Improved Blanchard Lathe and other machinery for manufacturing Plow Handles on a large scale I can supply the trade with all varieties of No. 1 Plow Handles at the shortest notice.

SORGO MACHINERY,

FOR 1867.

We take pleasure in informing our customers that we have made arrangements with the BUFFALO AGRICULTURAL WORKS, for the introduction and sale of their celebrated

SORGO CANE MILLS,

AND THEIR PREMIUM

POWER'S EVAPORATOR.

Without desiring to say anything disparaging of other Mills and Evaporators which have been before the public for years, we claim that the inventive genius of the age, has developed improvements in PRINCIPLE AND CONSTRUCTION, AS COMBINED IN THESE MILLS AND EVAPORATORS, that render them decidedly the BEST of any in the market. Progression and improvement is the order of the day, hence those wishing to put up Sorgo Machinery, and desirous of getting that which has the latest tested improvements, will not fail to call and examine for themselves, or send for our "SORGO MANUAL," which will be ready in a few days.

☞ GENUINE AND RELIABLE CANE SEED, of all approved varieties.

For sale Wholesale and Retail by the General Southern Agents,

E. WHITMAN & SONS,

22 and 24 S. Calvert Street, Baltimore, Md.

E. FRANK COE'S
AMMONIATED
SUPER-PHOSPHATE,

Manufactured expressly for our sales—containing nearly 3 per cent. of Ammonia, in good order for drilling. The past three years' experience of its application on Wheat, has proved its superiority to all other Super-Phosphates in the growth of the crop and improvement of the soil.

As there are a variety of "Coe's" Phosphates offered in the market, the components of which we have no knowledge, purchasers should see that every barrel of E. Frank Coe's Phosphate bears our name. None other genuine.

J. J. TURNER & CO.,
42 PRATT STREET,
BALTIMORE.

J. J. TURNER & CO.'S
AMMONIATED
BONE SUPER - PHOSPHATE,

Containing nearly 3 per cent. of Ammonia, dry and in good order for drilling. Very high encomiums have been paid its efficacy in the growth of Wheat and Tobacco the past three years.

J. J. TURNER & CO.

42 Pratt Street, Baltimore.

RODUNDA ISLAND GUANO.

:o:

THE CHEAPEST FERTILIZER IN THE COUNTRY.

:o:

This Guano, although but of recent introduction into the United States, has met with unprecedented success, and we confidently recommend it to Farmers and Planters as the cheapest and best Fertilizer in the market.

The following analysis and report of experiments were made by Dr. David Stewart on his farm at Port Penn, Delaware.

Dr. Stewart was well known to the agricultural community ten or fifteen years ago, as Chemist of the State Agricultural Society, and Professor of Natural Philosophy and Agricultural Chemistry at St. John's College, Annapolis, Maryland:

Messrs. Wm. Crichton & Son, Baltimore.

Gentlemen—I herewith submit report and analysis of *Rodunda Island Guano*.

It is a very dry and fine powder, peculiarly valuable to manufacturers of Super Phosphate in dividing or pulverizing moist compounds without diluting or deteriorating, but increasing their value as fertilizers, and especially fitting them for uniform distribution by the wheat drill, as proven by actual experiment on my wheat sown last autumn, the results of which are hereto annexed. The difficulty with all fertilizers, is their irregular distribution, and especially their tendency to interfere with the regular distribution of the wheat. Of four that I tried last year only one variety drilled well. *There is no difficulty with the Rodunda.*

ANALYSIS—(Sample representing cargo 200 tons.)

Soluble Portion.

Compound of Phosphate of Lime.....	33.35
Sulphate of Lime, &c.....	5.40
	38.75

It yields one per cent. of pure Ammonia.

The results of experiments with "Rodunda Guano," drilled through the same tubes with my wheat last autumn, are as follows:

About 200 pounds per acre of the Rodunda alone increased the weight of the crop 16 per cent., and the weight of the grain 39 per cent., over the unmanured plat.

On another plat, a mixture of Rodunda Guano and a Raw Bone Super-Phosphate in equal quantities was drilled at same rate—200 lbs. per acre—(the latter was so moist that it would not drill at all alone, or very irregularly, say 80 lbs. per acre.)—The result of this mixture was 69 per cent. increase of total crop, whereas 87 per cent. was the increase of the *grain by weight.*

The above are the actual effects produced by Rodunda Guano—but they do not represent *one-half* of the influence this Guano is capable of exerting when associated, in *proper quantities*, with other plant-food. David Stewart, M. D.

Port Penn, Del., July 12th, 1867.

From an analysis made by Professor J. Newland, of London, (for many years principal assistant to Professor Way,) this Guano is found to contain as follows:

Organic matter (yielding Salts of Ammonia)..	24.67
Neutral *Soluble* Phosphate of Lime.....	6 98
Tribasic Phosphate of Lime.....	43.83
Nitrogen.....	1.13
(Equal to Ammonia).....	1.38

In connection with the above, we invite attention to the following certificates:

Harford Co., May 4th, 1867.

"I ploughed an old field that had not been cultivated for a number of years and drilled it with wheat. On the first part I used Peruvian Guano alone; on the second, *Peruvian* and *Rodunda* mixed, say 200 of the latter with 100 of the former: on the third part I used Rodunda *alone*, about 400 pounds to the acre. *It looks better than any* of the former. The fourth, without anything, was not worth the cutting." J. O. Patterson.

Tappahannock, Va., May 4th, 1867.

"Thus far my crop of wheat, on which I applied the *Rodunda Guano*, looks as well as other wheat alongside of it on which I applied other varieties of guano, Peruvian included." Z. S. Farland.

Easton, July 24th, 1867.

"I used two tons of *Rodunda Guano* last fall on my wheat with entire satisfaction. I really believe this form of applying Phosphate of Lime (Rodunda Guano) the cheapest and best; at least this is my opinion from the use of it. *It is peculiarly adapted to the drill.* I have such confidence in it that I shall use it again myself, and recommend it to my friends, not fearing the results." Levin H. Campbell.

Price $30 Per Ton in Bags or Barrels.

A liberal deduction made to dealers and purchasers of large quantities, or by the cargo in bulk.

WHEELER & WILSON
HIGHEST PREMIUM

LOCK STITCH

SEWING MACHINE!

Awarded the Highest Premium
AT THE
WORLD'S FAIR,
JUST HELD IN LONDON, ENGLAND,
INDUSTRIAL EXPOSITION,
Where all the machines of Europe and America were in competition—also at the
PARIS, FRANCE, AND AT EVERY
UNITED STATES FAIR,
At which SEWING MACHINES were exhibited.

The LOCK STITCH made by this Machine cannot be ravelled, and presents the same appearance upon each side of the seam, a single line of thread extending from stitch to stitch. It is formed with two threads, one upon each side of the fabric, and interlocked in the center of it. The beauty and regularity of the stitch will be observed, also the firmness of the seam, in which respects it excels hand sewing.

The machine is recommended for the following qualities:

1. Beauty and excellence of stitch upon each side of the fabric sewed.
2. Strength, firmness, aud durability of seam that will not rip nor ravel, and made with
3. Economy of thread.
4. Its attachments and range of application to purposes and materials.
5. Compactness and elegance of model and finish.
6. Simplicity and thoroughness of construction.
7. Speed, ease of operation and management, and quietness of movement.

Office, 214 Baltimore Street, Baltimore.

ap-6t

TO THE WHEAT GROWERS
OF
Maryland and Virginia!

:o:

"EXCELSIOR."

Containing Ammonia, - - - - - 6 per cent.
Super-Phosphate equivalent to
Bone Phosphate of Lime, - - 57 "
Potash of Soda, - - - - - 5 "

Composed of 700 pounds of No. 1 Peruvian Guano, and 1,300 pounds of *Soluble* Phosphate of lime (bones dissolved in acid,) potash and soda, forming the most concentrated, universal and durable fertilizer ever offered to the farmer and planter—combining all the stimulating properties of Peruvian Guano, and the ever durable fertilizing properties of Ground Bones—supplying an abundance of Ammonia for any crop, and all soils, and in a perfectly fixed condition—not volatile and passing off with the first crop, as with Peruvian and other ammoniacal guanoes, but stimulating the crop to which it is applied, and all succeeding ones, giving to poor, worn out and unproductive soils, new life and vigor, making them, in this respect, equal to the most highly cultivated lands, upon which much time and money have been expended.

We introduced Excelsior in 1858, and challenge the manufacturers and venders of fertilizers, natural or artificial Guano, to show results so invariably successful as can be shown from its use. One of our firm superintends in person every minutia of its manufacture. We therefore warrant every bag uniform, and to contain by analysis, the standard of fertilizing properties, giving that protection to the farmer which he does not have in the purchase of any other Guano or Fertilizer sold.

Excelsior is in fine dry powder, prepared expressly for drilling, and can be applied in any quantity per acre, however small; and it is the opinion of the most prominent and calculating farmers of Maryland, after eight years experience in testing it side by side with other popular fertilizers, that an application of 100 pounds per acre of Excelsior is equal to 200 to 300 pounds of any other fertilizer or guano offered for sale, therefore is fully 100 to 200 per cent. cheaper.

We are daily in receipt, from every quarter, of flattering encomiums from those who used it last fall on wheat, and the past spring and summer on cotton, corn and tobacco, and had we the space could publish hundreds of testimonials, many from gentlemen who have continued its use year after year since its introduction.

The best evidence we can offer of the value of our Excelsior as a crop grower and fertilizer, is the fact of its being imitated and counterfeited in this and other cities. Some unprincipled manufacturers have actually used our trade mark for the purpose of palming off their worthless compounds.

EVERY BAG BRANDED AS FOLLOWS:

Farmers should see that every bag bears in *red letters* the name of J. J. TURNER & CO. under the inspection mark, and thus secure the genuine article.

J. J. TURNER & CO.,
